*Note 1: "Other/unallocated" includes the before tax mark to market unrealised loss of \$32,398 in the first half of the 2019 financial year and unrealised gain of \$435,648 in the first half of the 2020 financial year on our 5 year interest rate swap agreements. Reference is to be made to "unrealised gain or (loss) on fair value movement of derivatives" in the Statement of Profit or Loss and Other Comprehensive Income.

Services

The Services segment offers a range of services to assist clients wishing to enter into a payment arrangement with their creditors. These include informal arrangements, debt agreements, personal insolvency agreements and bankruptcy. FSA Group is the largest provider of these services in Australia.

The amendments to the Bankruptcy Act 1966 which took effect from 27 June 2019, limit the time to repay debt under a debt agreement to three years for non-home owners while allowing those who own a home up to five years. Non-home owners have been adversely affected by this change as a three year term may not provide commercially acceptable rates of return to creditors resulting in these three year debt agreement proposals being rejected.

In July 2019 we formally launched our new service, an informal arrangement to assist non-home owners with their debt.

Our focus over the 2020 financial year will be as follows:

1. Continue to improve our informal arrangement offering, based on client and creditor feedback;
2. Implement the informal arrangement offering across the entire team, with ongoing training and support;
3. Focus on assisting an increasing number of clients across informal arrangements and debt agreements, and
4. Remove around \$3 million of annual cost from the Services segment. We are well advanced on this through automation and off-shoring.

DIRECTORS' REPORT continued

During the first half, new client numbers for informal arrangements and debt agreements decreased by 13% and for personal insolvency agreements and bankruptcy increased by 14% compared to the previous corresponding period. During the first half, informal arrangement and debt agreement clients under administration decreased to 20,512, down 6% and for personal insolvency agreements and bankruptcy increased to 1,352, up 7%. FSA Group manages \$359 million of unsecured debt under informal arrangements and debt agreements and during the first half paid \$42 million in dividends to creditors.

The launch of our informal arrangements has been successful with positive feedback from clients and creditors. We are confident in our Services segment, and particularly in our informal arrangement offering.

The Services segment achieved a profit before tax of \$6.0 million, a 10% decrease.

Consumer Lending

The Consumer Lending segment offers non-conforming home loans and personal loans to assist clients wishing to consolidate their debt or to purchase a motor vehicle. During the first half our loan pools continued to grow.

**Note 1: Our financial model for personal loans is based on a targeted loan pool cumulative loss of less than 6%, which equates to a loan pool annual loss of 2%. On a closing pool of \$63 million, annual losses should therefore not exceed 2% or \$1.3 million. Our actual loan pool cumulative loss is less than 3%, which equates to a loan pool annual loss of less than 1%. During the 2018 calendar year we ran a pilot product offering (Pilot Period). \$331,533 out of the \$687,262 of losses incurred in the first half of the 2020 financial year relates to loans settled during the Pilot Period. The pilot product offering has concluded.*

As our loan pools grow we expect to increase and renew our facilities as required and periodically utilise the debt capital markets. On 18 December 2019, we announced our inaugural \$200 million issue of non-conforming residential mortgage backed securities (RMBS) via sole arranger and manager Westpac. Accessing the debt capital markets is a key step in our strategy of diversifying our funding and de-risking the business. More importantly, it provides us with fresh funding capacity to pursue our home loan growth strategy.

<i>Funding</i>	<i>Facility Type</i>	<i>Provider</i>	<i>Limit</i>	<i>Availability End Date</i>	<i>Maturity Date</i>

**Note 1: The facility limit for Home Loans – Non-recourse mezzanine has been reduced from \$30 million to \$20 million as part of the \$200 million RMBS.*

On 16 December 2019 we announced Azora Home Loans. Azora Home Loans will be led by one of the most experienced management teams in the non-bank home loan sector.

The Consumer Lending segment achieved a profit before tax of \$6.1 million, a 16% increase.

Net cash inflow from operating activities

During the first half, FSA Group maintained strong cash inflow driven by long term annuity income from our clients. Net cash inflow from operating activities for the first half was \$7.9 million, a 3% increase. Net cash inflow is historically lower in the first half compared to the second half.

	<i>1H FY2018</i>	<i>1H FY2019</i>	<i>1H FY2020</i>	<i>% Change</i>

DIRECTORS' REPORT continued

Strategy and Outlook

We are moving into the last year of our 5 year strategic plan. Our focus over the 2020 financial year will be as follows:

Services - Maintain our leading position in a niche market and improve our informal arrangement offering, based on client and creditor feedback.

Consumer Lending - Grow our personal loan pool and prepare for the launch of Azora Home Loans.

Earnings - Expect earnings growth of 5% to 15%.

Capital Management - Expect our full year dividend to be between 6 cents to 7 cents per share with the balance of earnings to be re-invested to support the growing loan pools. We initially planned to secure mezzanine funding for our personal loan facility when our loan pool reached \$100 million. We now plan to secure mezzanine funding sooner.

Preparing our business for the future - Continuing with the offshoring to our Philippines (39 staff) and Indian (17 staff) offices a number of administrative tasks and automating others.

FSA Group Limited

Notes to the consolidated half year financial report

31 December 2019

1. REPORTING ENTITY

FSA Group Limited (the 'Company') is a for-profit company domiciled in Australia. The consolidated half year financial report of the Company as at and for the six months ended 31 December 2019 comprises the Company and its subsidiaries (together referred to as the 'Consolidated Entity') and the Consolidated Entity's interests in associates.

The principal activities of the Consolidated Entity are the provision of debt solutions and direct lending services to individuals.

2. BASIS OF PREPARATION

Statement of compliance

This consolidated half year financial report has been prepared in accordance with Australian Accounting Standard AASB 134 '*Interim Financial Reporting*' and the Corporations Act 2001 and does not include all of the information and notes of the type normally required for full annual financial statements. Accordingly, these half year financial statements are to be read in conjunction with the annual report for the year ended 30 June 2019 and any public announcement made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

These consolidated interim financial statements were approved by the Directors on 21 February 2020.

New, revised, or amending Accounting Standards and Interpretations adopted

The Consolidated Entity has adopted all new, revised, or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

The accounting policies applied by the Consolidated Entity in these consolidated interim financial statements are the same as those applied by the Consolidated Entity in its consolidated financial statements as at and for the year ended 30 June 2019 except as follows:

AASB 16 Leases

The Consolidated Entity has adopted AASB 16 from 1 July 2019. The standard replaces AASB 117 'Leases' and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognised in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognised lease liabilities (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results improve as the operating expense is now replaced by interest expense and depreciation in profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities. For lessor accounting, the standard does not substantially change how a lessor accounts for leases.

The adoption of the new Accounting Standard did not have any significant impact on the financial performance or position of the Consolidated Entity as at 31 December 2019 or on opening retained earnings as at 1 July 2019.

Any new, revised or amending Accounting Standards or Interpretations that are not mandatory yet have not been early adopted.

- b) Except as detailed in the following table, the Directors consider that due to their short-term nature the carrying amounts of financial assets and financial liabilities, which include cash, current trade receivables, current payables and current borrowings, are assumed to approximate their fair values. For the majority of the borrowings, the fair values are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short-term nature.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of FSA Group Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of FSA Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, and notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards

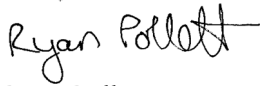

and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.
