

ASX Release COVID-19 update

Singapore, 16 March 2020: Human Resources SaaS and Software with a Service (SaaS) provider PayGroup Limited ("PayGroup", "the Group"; ASX: PYG), today released an update in relation to COVID-19.

In light of the recent global challenges posed by COVID-19, PayGroup recognise that the Company's relationship with its clients is business critical. PayGroup's Management team and Business Continuity Plans are focused on ensuring that it continues to meet its responsibilities for on-time payroll, HR transactions and other payments. Continuity of these services is imperative at all times, but is especially heightened in the current environment.

Since 24 January 2020, PayGroup's Business Continuity Planning (BCP) team has been actively monitoring the ongoing impact of COVID-19 in each country operated in and is taking appropriate measures in line with advice from relevant government and health authorities. PayGroup is committed to putting the health and safety of staff and their families first, whilst still maintaining the highest level of service delivery to clients.

Teams are dispersed geographically and therefore PayGroup is well placed to ensure continuous cross-border support should a concentration of COVID-19 cases occur in any one country. The BCP team is monitoring and assessing Government announcements daily of each country PayGroup operate in, so that the latest appropriate measures are taken and to ensure no business impact.

PayGroup's precautionary measures to-date include:

- Employees who perform work that can be done remotely will be working offsite and/or in split shifts;
- There will be no impact to our client management, as our workforce and technology allow us to support our clients virtually;
- With health and safety the utmost priority, any employee that feels ill even with mild symptoms, are encouraged to seek medical advice immediately and rest or work from home;
- Employee business travel is suspended;
- Upcoming events are being evaluated and any changes will be communicated with relevant employees or clients; and
- Staff are encouraged to sterilize their hands at the front desk and perform daily temperature checks in the office.

PayGroup will continue to monitor the situation and advise customers, staff and shareholders of any updates.
