8.6 If Item 8.5 is less than 2 quarters, please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Eden is expecting a progressive increase in sales in the coming quarters due to growth in new customers and potential customers which should reduce the net operating cash flow required for operating activities.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Subsequent to the end of the quarter, Noble Energy Pty Ltd (a 100% subsidiary of Tasman Resources Ltd) provided Eden with an interest free, unsecured loan of \$200,000 with no fixed term.

Subsequent to the end of the quarter, Eden US had a U.S. CARES Act SBA loan application approved for approximately US\$634,000. The precise amount of the loan that has been approved, the full terms and conditions, and the anticipated funding date should be known in the near future.

Subsequent to the end of the quarter, Eden repaid the existing US\$1.85 million in secured US debt financing (the "Original Loan") secured against Eden's two freehold properties in Colorado, U.S., replacing it with a new loan, secured against Eden's three US properties, for the sum of US\$3.00 million (the "Replacement Loan"). See EDE: ASX Announcement of 28 April 2020 for full details.

The Company is currently also considering a number of other alternative measures for increasing working capital revolving around issuing additional shares, including a potential placement to one or more strategic investors.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes the Company does expect to be able to continue its operations and to meet its business objectives, as a result of:

- a. the probability of increased sales of its products as evidenced by an increasing level of market interest in Eden's products, particularly in the USA; and
- b. the funding measures detailed above which together are expected will result in sufficient funds being raised when required to achieve the Company's business objectives.
