Current Projects

Lamil Joint Venture

- Geophysical, geochemical and structural data all indicative of a Telfer-style target – with no prior drilling
- Located 30km west of the world-class Telfer Gold-Copper Mine
- Drilling due to commence in September 2020
- Joint Venture with Rumble Resources¹ – AIC earning up to 65%

Marymia Project

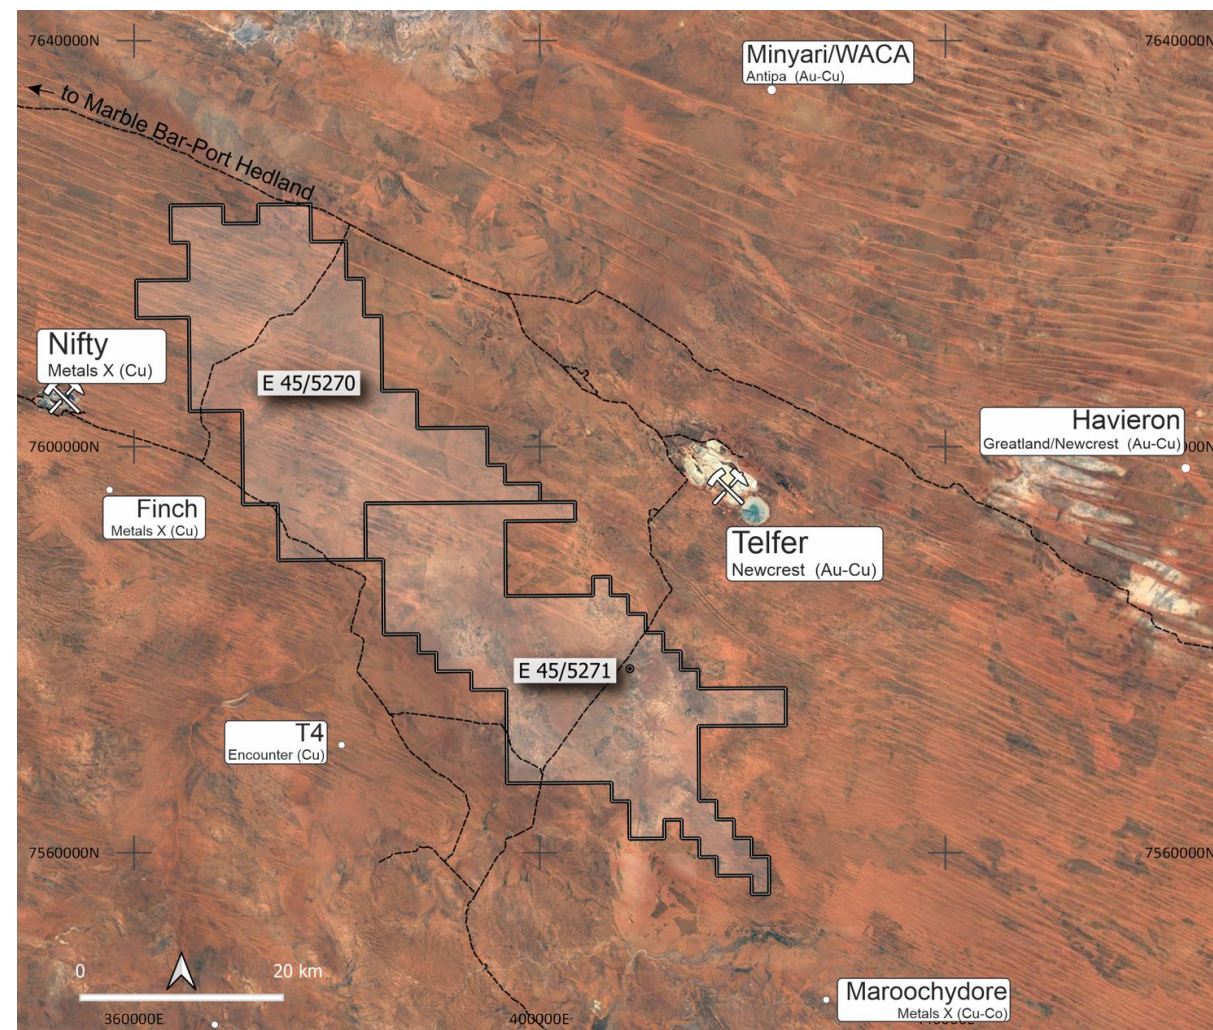

- High-grade gold and copper targets to be drill tested
- Strategically located within trucking distance of the Plutonic Gold Mine and the DeGrussa Copper Mine
- 3,600km² tenement package prospective for gold and copper – predominantly 100% owned

1. See ASX announcement released by AIC Mines (A1M) "Paterson Province Exploration Joint Venture" on 22 July 2019.

Lamil Joint Venture

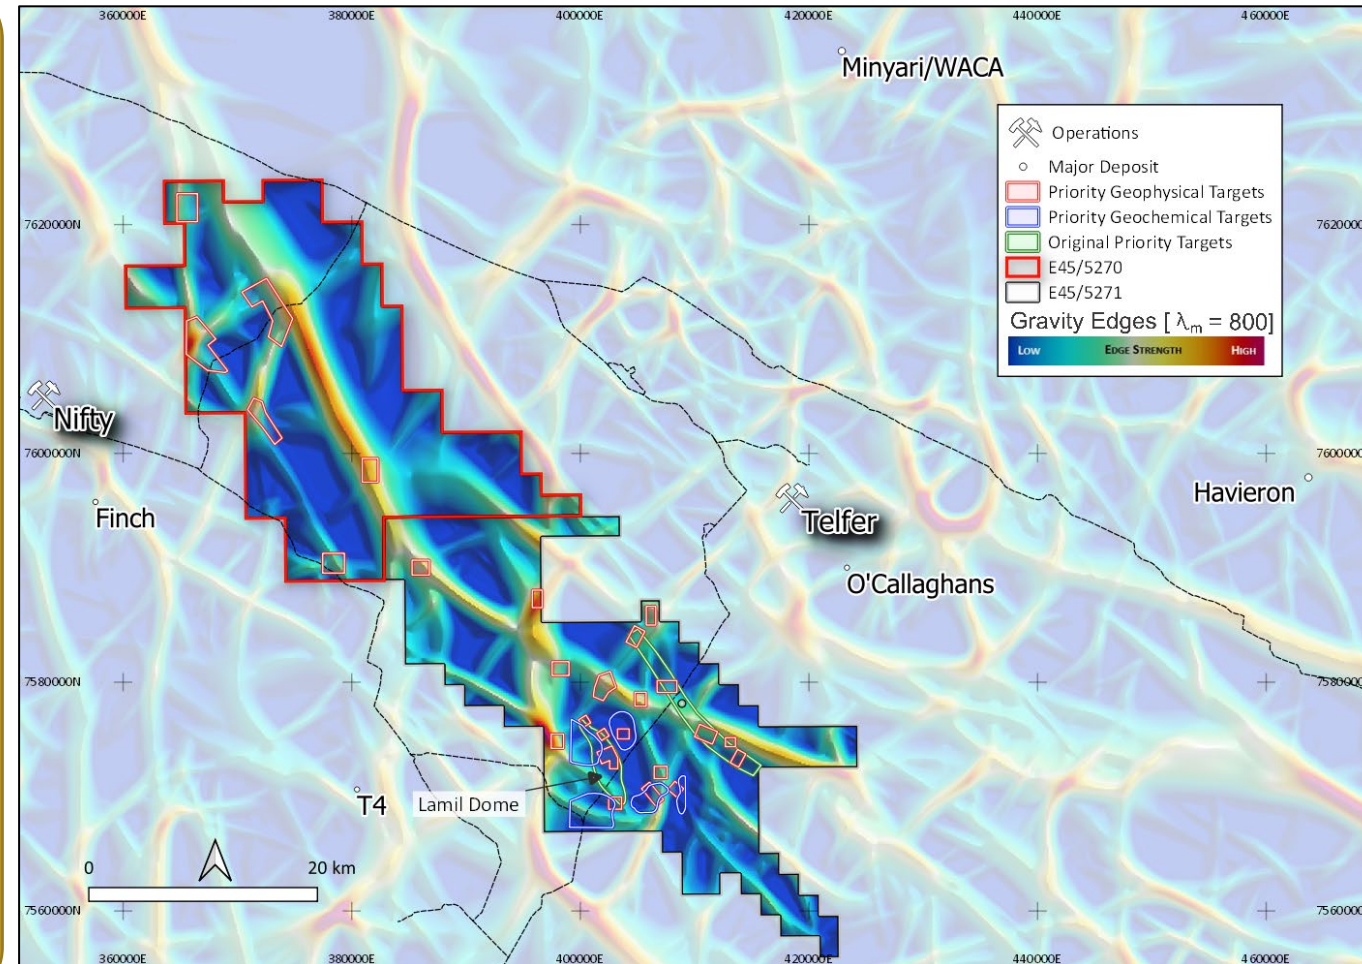

- The Paterson Province is regarded as one of the most highly endowed yet under-explored regions in Australia
- Exploration activity in the region has increased significantly following the recent discovery of the Havieron Gold-Copper deposit by the Newcrest-Greatland Gold JV and the Winu Copper Deposit by Rio Tinto
- The region remains under-explored due its remoteness and relatively deep cover
- A recent breakthrough at the Lamil Project, based on a detailed airborne magnetic survey and surface passive seismic surveys, indicates that the depth of cover to the main targets in the Lamil Project area is less than 100m¹
- It was previously thought to be >400m and as a result the area has seen minimal previous exploration and no drilling

1. See ASX announcement released by AIC Mines (A1M) "Paterson Province Exploration Joint Venture" on 22 July 2019.

Lamil Joint Venture

- The main Lamil Dome target area exhibits the key structural features required to host a Telfer-style deposit:
 - Orientation of the main axial plane
 - Fold symmetry and vergence
 - Inferred host rocks
- The project area occupies a prominent regional structural 'hinge zone' which is clearly defined by a significant flexure in major belt parallel structures
- New geophysical interpretation shows a regional scale NE-SW trending structure is traceable from the centre of the Telfer deposit through the northern margin of the Lamil Dome target¹
- Heritage Surveys to support commencement of this work are scheduled for late July - early August 2020 with drilling anticipated to commence in September 2020

Key Risks

Exploration and mining projects involve a number of inherent general and project specific risks. The following is a summary of the more material matters to be considered.

Company Specific Risks

Exploration Risk

Investors should understand that mineral exploration, mining and development are high risk undertakings and there can be no assurance that the tenements currently held by Intrepid or acquired by Intrepid in the future will result in the discovery of an economic ore deposit. If a viable deposit is identified there is also no guarantee it can be commercially developed. There is no certainty that the proposed exploration will reveal mineable mineralisation or that such mineralisation will be commercially viable.

Dependence Upon Key Personnel

AIC has a core team of executives whose loss could influence AIC's progress in pursuing its exploration and acquisition programs within the time frames and cost structures envisaged. The impact of such loss would be dependent upon the replacement employee's quality and time of appointment. There is no guarantee that the key personnel of AIC will be successful in their objectives despite their considerable experience and previous success.

Native Title

Registration of native title claims on land that is the subject of AIC's licences and permits (or other licences and permits in which AIC has an interest) may result in increased legal and administrative costs that have a material adverse affect on the AIC's profitability. Native title and Aboriginal heritage issues may have a material advance impact on the Merged Group's activities and may hinder or prevent its mining and exploration activities.

Access to Exploration Projects

AIC may be required to obtain the consent from the holders of third-party interests which overlay areas within its tenements or future tenements prior to accessing or commencing any exploration or mining activities on those tenements. When submitting a program of works for any ground disturbing activities, any underlying stake holders will be notified and AIC will work to minimise disturbance in relation to the proposed activities in accordance with applicable law. This may delay commencement of exploration programs or specific areas may not be available for exploration.

Proceeds from the Sale of the Kitumba Project

AIC's predecessor company Intrepid Mines Limited completed a share sale agreement with Vulcan Copper Limited ("Vulcan") and its parent Consolidated Mining and Investments Ltd ("CMI") in respect of the sale of 100% of the share capital in Intrepid Mines Zambia Limited on 14 February 2019 ("Kitumba Sale Agreement"). Further details regarding the Kitumba Sale Agreement are contained in the Notice of Extraordinary General Meeting released to the ASX by Intrepid Mines Limited on 18 October 2018.

Vulcan failed to make payments due by 30 November 2019, 31 December 2019 and 31 January 2020. The amount outstanding as at 31 March 2020 was US\$4.8 million. The AIC Directors made the decision to fully write-down the value of the asset in the Financial Statements for the year ended 31 December 2019 given the failure of the counterparty to meet its payment obligations and uncertainty in relation to resolution of the matter. In the March 2020 Quarter AIC commenced legal actions against CMI that could lead to the winding-up of CMI or AIC enforcing its security rights over Vulcan, if other alternatives prove fruitless. AIC intends to exhaust all available avenues to recover value from this transaction. A number of new parties have expressed interest in the Kitumba Project and this interest is being pursued.

There is a risk that the deferred proceeds from the sale of the Kitumba Project may not be received from Vulcan and CMI in full or at all.

Key Risks

Litigation

AIC is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. AIC is currently a party to legal proceedings in the Supreme Court of British Columbia. The legal proceedings relate to AIC's predecessor company Intrepid Mines Limited shareholding in New Nadina Explorations Limited. The outcome of such litigation may adversely affect AIC's financial position. AIC may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on AIC's operations, financial performance and financial position.

Commodity Price Risk

The future revenue of AIC will likely be derived largely from base and precious metals (in particular, gold and copper). Consequently, potential future earnings are likely to be closely tied to the price of these commodities. The commodities that are being developed, explored and sold by AIC (in particular, gold and copper) may be subject to price fluctuations which may have a material adverse impact upon both the value of AIC's assets and AIC Shares. These price fluctuations may be affected by a variety of factors outside the control of AIC, such as demand for minerals, forward selling by producers, production cost levels in producing regions, inflation, interest rates, and currency exchange rates.

AIC may suspend or curtail some or all of its future exploration activities if the market price for its minerals (in particular, gold and copper) were to fall below production costs for a sustained period.

Potential Acquisitions

As part of its business strategy, AIC may make acquisitions of or significant investments in other resource projects. Any such future transactions would be accompanied by the risks commonly encountered in making acquisitions of resource projects.

Joint Venture Parties

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which AIC is or may become a party.

Market Risk

AIC has investments in a number of listed exploration and development companies. There is a risk that the value of these investments could fall. This could adversely affect AIC's financial position.

Authorisation Risk

Interests in exploration and mining tenements are evidenced by the granting of leases or licences, which are for specific terms and carry annual expenditure and reporting conditions. There is a risk that any exploration permit held by the AIC may not be renewed in the future, that any application for a grant may be refused, or that the AIC may be unable to comply with regulatory requirements to retain title to its permits or applications. If AIC is unable to renew a licence or permit, AIC may suffer damage and be denied the opportunity to explore and develop mineral resources.

Failure to observe requirements in regards to minimum expenditure and environment and safety responsibilities could prejudice AIC's right to maintain a permit for a given tenement.

Key Risks

General Risks

Additional Requirements for Capital

Any additional equity financing may be dilutive to the Company's existing Shareholders and any debt financing if available, may involve restrictive covenants, which limit the Company's operations and business strategy. The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

Future equity offerings by the Company may dilute the percentage ownership of the Company by existing Shareholders. In certain circumstances, Securities issued by the Company in the future may have rights, preferences or privileges attached to them that are senior, to or otherwise adversely affect, those attached to the Shares.

General Economic Conditions

Changes in the general economic climate in which Company operates may adversely affect the financial performance of Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, include, but not are but not limited to:

- (i) general economic conditions;
- (ii) changes in Government policies, taxation and other laws;
- (iii) the strength of the equity and share markets in Australia and throughout the world;
- (iv) movement in, or outlook on, exchange rates, interest rates and inflation rates;
- (v) industrial disputes in Australia and overseas;
- (vi) changes in investor sentiment toward particular market sectors;
- (vii) financial failure or default by an entity with which the Company may become involved in a contractual relationship; and
- (viii) natural disasters, social upheaval or war.

Regulatory Risk

AIC's activities in the mining industry are subject to legislation, regulation and various approvals. The introduction of new legislation or regulations, or alteration of current legislation and regulations, could have a material adverse effect on the financial performance of and current or proposed activities of AIC.

AIC holds tenure to minerals exploration, prospecting and mining licences in Western Australia. AIC may require licences and approvals in relation to environmental matters, exploration, development and production of minerals. There is a risk that these may not be obtained or that obtaining these may be delayed, which may have a material adverse impact on AIC. Loss of tenure could result (amongst other things) in the write down of carrying values of tenements in AIC's financial statements, loss of profits and termination of agreements.

The above list of risk factors ought not to be taken as exhaustive of the risks faced by AIC or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the securities offered under this Offer Document. Therefore, the securities to be issued pursuant to this Offer Document carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Offer Document.

International Offering Restrictions

Canada (British Columbia, Ontario and Quebec provinces)

This document constitutes an offering of New Shares only in the Provinces of British Columbia, Ontario and Quebec (the "Provinces") and to those persons to whom they may be lawfully distributed in the Provinces, and only by persons permitted to sell such New Shares. This document is not, and under no circumstances is to be construed as, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons that are "accredited investors" within the meaning of NI 45-106 – *Prospectus Exemptions*, of the Canadian Securities Administrators.

No securities commission or similar authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of New Shares and any representation to the contrary is an offence.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws which may require resales to be made in accordance with exemptions from dealer registration and prospectus requirements. These resale restrictions may in some circumstances apply to resales of the New Shares outside Canada and, as a result, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Any financial information contained in this document has been prepared in accordance with Australian Accounting Standards and also comply with International Financial Reporting Standards and interpretations issued by the International Accounting Standards Board. Unless stated otherwise, all dollar amounts contained in this document are in Australian dollars.

Statutory rights of action for damages and rescission

Securities legislation in certain of the Provinces may provide purchasers with, in addition to any other rights they may have at law, rights of rescission or to damages, or both, when an offering memorandum that is delivered to purchasers contains a misrepresentation. These rights and remedies must be exercised within prescribed time limits and are subject to the defenses contained in applicable securities legislation. Prospective purchasers should refer to the applicable provisions of the securities legislation of their respective Province for the particulars of these rights or consult with a legal adviser.

The following is a summary of the statutory rights of rescission or to damages, or both, available to purchasers in Ontario. In Ontario, every purchaser of the New Shares purchased pursuant to this document (other than (a) a "Canadian financial institution" or a "Schedule III bank" (each as defined in NI 45-106), (b) the Business Development Bank of Canada or (c) a subsidiary of any person referred to in (a) or (b) above, if the person owns all the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of that subsidiary) shall have a statutory right of action for damages and/or rescission against the Company if this document or any amendment thereto contains a misrepresentation. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against the Company. This right of action for rescission or damages is in addition to and without derogation from any other right the purchaser may have at law. In particular, Section 130.1 of the Securities Act (Ontario) provides that, if this document contains a misrepresentation, a purchaser who purchases the New Shares during the period of distribution shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the time of purchase and has a right of action for damages or, alternatively, may elect to exercise a right of rescission against the Company, provided that (a) the Company will not be liable if it proves that the purchaser purchased the New Shares with knowledge of the misrepresentation; (b) in an action for damages, the Company is not liable for all or any portion of the damages that the Company proves does not represent the depreciation in value of the New Shares as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which the New Shares were offered.

Section 138 of the *Securities Act* (Ontario) provides that no action shall be commenced to enforce these rights more than (a) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action or (b) in the case of any action, other than an action for rescission, the earlier of (i) 180 days after the purchaser first had knowledge of the fact giving rise to the cause of action or (ii) three years after the date of the transaction that gave rise to the cause of action. These rights are in addition to and not in derogation from any other right the purchaser may have.

Certain Canadian income tax considerations. Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as any discussion of taxation related matters in this document is not a comprehensive description and there are a number of substantive Canadian tax compliance requirements for investors in the Provinces.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu'il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d'achat ou tout avis) soient rédigés en anglais seulement.*
