**Whispir Limited**  
(ASX:WSP)

## Appendix 4C – Q4 FY20

Whispir Limited (**ASX: WSP, Whispir or Company**) is pleased to provide its Appendix 4C cash flow report and update for the quarter ending 30 June 2020 (**Q4 FY20**).

### Highlights

- Annualised Recurring Revenue rose 35.7% over prior-year corresponding period to \$42.2 million, an increase of 4.2% on the March quarter, driven by growth in ANZ and Asia.
- Quarterly customer cash receipts of \$11.3 million, up 27% on prior quarter and 36.5% on prior corresponding period.
- Second consecutive quarter of record customer growth, acquiring 72 net new customers during the quarter.
- Continued reduction in net cash used in operating activities for Q4 FY20, down 93% on prior quarter to \$0.1 million.
- On track to deliver all key FY20 Prospectus forecast metrics.

### Quarterly performance

Growing demand by new and existing customers for communications software and stakeholder engagement during the COVID-19 pandemic supported Whispir's strong performance over the fourth quarter.

Annual Recurring Revenue rose 35.7% over the prior-year corresponding period (**PCP**) to \$42.2 million, an increase of 4.2% on the March quarter. Increased platform utilisation by existing customers also contributed to quarterly customer receipts of \$11.3 million, up 27.0% on the prior quarter and 36.5% on a PCP basis. Customer revenue retention was also high at 124.1%.

Whispir delivered a second consecutive quarter of record new customer growth, acquiring 72 net new customers as organisations looked to adopt more sophisticated yet easy-to-use communications systems. Total customers numbered 630 on 30 June 2020 and included the Victorian Department of Education, PersonaTech and Mt Buller Ski Resort. New customer growth is being driven by Whispir's easy integration with existing IT systems and new ready-to-use 'return to work' templates, which ensure compliance with government COVID-19 regulations.

Tight cost control and significant growth in customer receipts through Q4 FY20 saw net cash used in operating activities reduced to (\$0.1 million).

Investment in platform and product development continued to be a key focus for the Company, with capitalised R&D expenditure totalling \$1.1 million for the quarter, in line with the prior quarter.

Whispir remains well funded to execute its international growth strategy with a cash and equivalents balance at 30 June 2020 of \$15.2 million.

### Sales and channels

In addition to the original 15 COVID-19 templates created to assist organisations to keep their stakeholders informed and operating effectively, as the pandemic evolved, Whispir developed a further 11 pre-defined templates that enable organisations to better coordinate and manage new 'return to work' requirements that comply with government regulations.

The integrated two-way workflow templates are ready-to-use and include workplace rostering, shift availability, health declarations and real-time confirmed case updates. For example, Mt Buller Ski Resort in Victoria is utilising Whispir's platform to streamline resort access and on-mountain contact tracing in line with COVID-19 regulations.

Whispir's 'return to work' templates are being promoted through channel partners Telstra, StarHub and Vonage in Australia, Asia and the US respectively.

### Outlook

A strong fourth quarter has ensured Whispir is on track to deliver all key FY20 Prospectus forecast metrics.

Whispir CEO Jeromy Wells said, "We've had a strong finish to the FY20 financial year despite unprecedented operating conditions. Our strong performance over the fourth quarter has been driven by increased platform utilisation from our existing customer base, particularly in ANZ and Asia, as well as significant new customer growth. This has offset some changes in traditional communications and transaction volumes from some customers within industries that have been hardest hit by COVID-19 restrictions.

"During the pandemic, the capability of the Whispir platform has really come into its own. We have demonstrated our ability to provide fast-to-deploy, off-the-shelf and customised communications solutions for our diverse customer base – each customer has their own challenge, but our platform has the ability to provide the solution easily and quickly. With current turbulent operating conditions constantly evolving, our customers realise how important it is to have a system that enables them to communicate effectively at scale to diverse stakeholder groups through multiple channels. Our ability to integrate with existing IT systems is a significant differentiator for our technology, enabling new customers to start using the platform within a day and without IT expertise.

"Our increased focus on enhancing the platform's AI, machine learning and data intelligence capabilities will continue to add value for our customers, ensuring they deliver timely and contextually-relevant information to stakeholders in their preferred delivery channel."

## Use of funds

The quarter is a period which is covered by the Uses of Funds statement as outlined in the Prospectus dated 24 May 2019. A summary of the expenditure to date is outlined below:
