 - \$1.7M in purchase orders for ELLE & MICRO19 ranges in Asia via new distributor

MELBOURNE: 30 July 2020: Wellness and Beauty Solutions Limited (ASX: WNB) ("WNB" or "the Company") provides the following notes to its Appendix 4C Quarterly Cash Flow report for the fourth quarter of the 2020 financial year (Q4'20).

• Positive operating cash flow in challenging COVID-19 trading environment

Cash receipts for Q4'20 were \$1.917M (\$3.06M in Q3' 20) with lower receipts across WNB's products division and services division.

While sales from The Giving Brands Company (GBCo) were adversely affected by the impact of COVID-19 on lifestyle products and the difficult retail environment, WNB launched its proprietary hand sanitiser and room spray brand MICRO19 in March 2020. WNB established a 50/50 JV with strategic partners to facilitate the manufacture of MICRO19 in Australia, while WNB provided the management and distribution services. First cash receipts were received for MICRO19, and the company is confident of sustained contribution in the future as consumers embrace the 'new normal' of personal hygiene.

True Solutions Australia and the Immersion Clinical Spa network were impacted by COVID-related restrictions on their customers and clinics respectively during the period. The clinic network was closed accordingly which materially reduced the cash outgoings of the group.

Net operating positive cashflows for Q4'20 were \$0.3M, a significant improvement on the previous quarter (Q3'20: negative cashflows of \$2.1M) due to cost reductions during the quarter.

Payments noted in Section 6 of the accompanying Appendix 4C relate to Director's fees and salaries for the quarter.

Lower cost operational model

As advised in Q3'20 WNB's Board has implemented a program focussed on cost reduction and efficiencies across the Company. In Q4'20 operating cash outflows were \$1.6M, a significant reduction from Q3'20 comparable operating cash outflows were \$5.2M.

Significant savings were generated across all areas of the business most significantly in the areas of production, personnel, marketing and professional services. A management focus on optimal levels of production occurred in prior quarters to ensure appropriate inventory levels are maintained – it is expected production levels will increase in Q1 FY21 to respond to purchase orders. In addition, personnel cost savings were achieved due to the consolidation of some aspects of the GBCo and True Solutions businesses as well as the Federal Government's *JobKeeper* program. The Company continues to address cost savings, which are inclusive of its plans to consolidate marketing, digital and online retail channels. This will allow for direct selling through B2C and B2B, thereby improving profitability at a gross profit level.

Strengthened balance sheet with \$1.5M capital raising & varying of convertible note terms and conversions:

During Q4'20 WNB undertook a \$1.3M placement to institutional and sophisticated investors and raised a further \$0.2M via a Share Purchase Plan (Capital Raising). An additional 191M fully paid ordinary shares (Shares) were issued through the Capital Raising with an issue price of \$0.008 (0.8 cents) per share.

On 27 April 2020, the Company announced that it had entered into a Deed of Variation and Conversion with holders of unlisted convertible notes (Notes) for the conversion of the outstanding liabilities to Shares. A total of 1,405,000 Notes were converted to 93.67M Shares with an additional 2.25M Shares issued to settle accrued interest amounts on the Notes.

On 9 June 2020, the Company announced that it had entered into a Deed of Variation (Deed) with the majority of remaining holders of Notes to extend the term of the Notes from June 2020 to 15 October 2021 (principal value \$1.6M). In accordance with the Deed, WNB will redeem 10% of the Notes every quarter, beginning 15 October 2020 until the final redemption date.

The Capital Raising and variation of Convertible Note terms were important steps for WNB in strengthening its balance sheet and financial position and to enable continued investment and growth of the business.

Cash on hand as at 30 June 2020 was \$1.04M up from \$0.29M as at 30 March 2020.

MICRO19 licence agreement established with strong future sales pipeline

WNB has made significant progress with the launch of its proprietary MICRO19 hand sanitiser range during Q4'20. It also entered a Joint Venture agreement (MICRO19 JV) to assist in securing components and raw materials required for production. WNB holds a 50% interest in the JV.

WNB is confident that demand for hand sanitiser will be a long-term feature of global customer behaviour and that significant growth opportunities remain for a premium branded product within the category.

New sales channels & expanded distribution for Jbronze, ELLE & MICRO19

During Q4'20, GBCo has successfully focussed on expanding distribution and sales channels for its core product ranges. In May 2020, it executed an exclusive agency agreement with BRIMAG PTE LTD (trading as Thurston Agencies) to represent and sell the ELLE Makeup, ELLE kids and ELLE Baby ranges as well as the MICRO19 ranges in the markets of Singapore, Malaysia and Hong Kong. The agreement contains a minimum sales threshold for exclusivity to be maintained. GBCo received \$1.7M in purchase orders in the period with the relevant ELLE stock already dispatched and in transit to Asia. Singapore regulatory registration to sell the brands was received from the Singapore Health Services Authority (HSA) at the end of Q3.

Additionally, in June 2020, WNB announced that Jbronze by Jennifer Hawkins (Jbronze) will be sold in 800+ Coles stores from mid-August 2020. WNB expects the brand will achieve annualised sales of over \$2M in FY21.

Outlook

While COVID-19 continues to pose uncertainty and challenges for the economic and retail landscape, both in Australia and globally, WNB remains committed to its business strategy to expand sales and distribution of its core GBCo and TSA product ranges to drive business growth in FY21.

The need to balance sales growth and investment opportunities against the Company's cash position will continue to be a key focus of the Board. Careful cost management will also continue in FY21 as WNB moves toward a lower-cost and sustainable business model.

WNB is assessing options to extract value from its non-core Immersion Clinical Spa network, following extended closures and will keep shareholders updated as developments arise.
