OUR PURPOSE

To provide the domestic lithium required for America's transition to a clean energy future

	Founded in 2016 – Headquartered in Belmont, NC, USA
PLL	Listed on NASDAQ and ASX – Symbol PLL
	Lithium Hydroxide from Spodumene in the United States
	Ideally Located to Address China's Market Dominance
	World-Class Business in Scale and Economics
	Binding Lithium Sales Agreement with Tesla
	Strong Cash Position

CORPORATE SNAPSHOT

POSITIVE ESG PROFILE

	Clean Energy Product Portfolio	<ul style="list-style-type: none">▪ Lithium fuels EVs, reducing emissions two-thirds vs. ICE vehicles▪ Quartz by-product targeted at growing solar glass market
	OEMs Prefer Hard Rock for Sustainability	<ul style="list-style-type: none">▪ Preference for spodumene vs. brine from a sustainability perspective▪ Brine projects under pressure due to impact on water supply
	Short Transport Distances	<ul style="list-style-type: none">▪ 20-mile SC6 transport for integrated business vs. ~5,000 from Australia to China▪ Potential 98% reduction in 'quarry-to-EV' supply chain
	Green Quarrying	<ul style="list-style-type: none">▪ 100% of electricity will come from low-carbon sources▪ No toxic chemicals or tailings impoundment; electric fleet being evaluated
	Social	<ul style="list-style-type: none">▪ First-world labor and environmental practices▪ USA safety standards

ELECTRIFICATION IS A GLOBAL MEGA-TREND

EVs are superior vehicles

— Smoother, quieter, faster

EVs reduce emissions

— 2/3 lower greenhouse gas emissions vs. ICEs

EVs are lower cost

— Far cheaper to fuel and maintain

CATALYSTS TO DRIVE SHAREHOLDER VALUE

- Key Accomplishments
 - Build core leadership team
 - First-mover land position on TSB
 - Mineral Resource of 27.9Mt at 1.11% Li₂O
 - Section 404 permit received
 - PFS demonstrating strong economics
 - US IPO to fund to construction decision
 - Sales agreement with Tesla
- Milestones for the Next 12 Months
 - Drill to expand mineral resources
 - Pilot plant metallurgical studies
 - Permit Kings Mountain site
 - Sign additional sales agreements
 - Lithium hydroxide
 - Quartz, feldspar and mica
 - Build project development team
 - Complete definitive feasibility studies
 - Appoint financial advisor to evaluate strategic and financing options

THE PIEDMONT VALUE PROPOSITION

Personal use only

<p>Electric Vehicle Demand Accelerating</p>	<ul style="list-style-type: none"> ▪ Electric vehicle (EV) penetration projected to grow from ~3% to ~30% by 2030 ▪ EV equities are at all-time highs as investors price in the electrification mega-trend
<p>EVs Require Lithium</p>	<ul style="list-style-type: none"> ▪ Volkswagen describes lithium as the ‘irreplaceable element of the electric era’ ▪ Other materials can vary but a relatively stable lithium content is required in all Li-ion batteries
<p>Lithium Hydroxide is Taking Share</p>	<ul style="list-style-type: none"> ▪ Lithium hydroxide (LiOH) is required for high-nickel batteries in longer-range vehicles ▪ LiOH demand expected to grow 21% per year through 2040
<p>Spodumene the Preferred Feedstock</p>	<ul style="list-style-type: none"> ▪ Piedmont will produce LiOH from spodumene, the feedstock preferred by western OEMs ▪ Piedmont has a large, high-grade spodumene resource on the Carolina Tin-Spodumene Belt
<p>OEMs Seeking Ex-China Supply</p>	<ul style="list-style-type: none"> ▪ China produces ~83% of the world’s lithium hydroxide ▪ Piedmont is developing the only conventional lithium project in the United States
<p>World-Class Project</p>	<ul style="list-style-type: none"> ▪ Project is world-class in terms of scale and economics with NPV of \$1.1B for integrated project ▪ Business model is uniquely scalable given US location and global availability of spodumene
<p>Sales Agreement with Tesla</p>	<ul style="list-style-type: none"> ▪ Piedmont has executed a binding sales agreement with Tesla ▪ 5-year fixed price agreement to supply spodumene concentrate

DISCLAIMERS

Cautionary Statements and Important Information

This presentation does not constitute or form part of any offer to sell, or solicitation of any offer to buy, any securities in the United States or any other country. This presentation may not form the basis of any contract or commitment whatsoever with any person. Distribution of this presentation may be restricted by applicable law. This presentation has been prepared by Piedmont Lithium Limited ("Piedmont") as a summary only and does not contain all information about Piedmont's assets and liabilities, financial position and performance, profits and losses, prospects, and the rights and liabilities attaching to Piedmont's securities. Any investment in Piedmont should be considered speculative and there is no guarantee that they will make a return on capital invested, that dividends would be paid, or that there will be an increase in the value of the investment in the future. Piedmont does not purport to give financial or investment advice. No account has been taken of the objectives, financial situation or needs of any recipient of this presentation. Recipients of this presentation should carefully consider whether the securities issued by Piedmont are an appropriate investment for them in light of their personal circumstances, including their financial and taxation position.

Forward Looking Statements

This presentation contains forward-looking statements within the meaning of securities legislation in Australia and the United States, including statements regarding exploration and development activities; plans for Piedmont's mineral projects; projections of market demand and lithium prices; statements about the timing and amount of resource declarations; and statements about the timing and ability to complete scoping studies and feasibility studies.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual events, results, performance or achievements to be materially different from events, results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that we will be unable to commercially extract mineral deposits, that our properties may not contain expected reserves, risks and hazards inherent in the mining business (including risks inherent in developing mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), uncertainty about our ability to obtain required capital to execute our business plan, our ability to hire and retain required personnel, changes in the market prices of lithium, changes in technology or the development of substitute products, the uncertainties inherent in exploratory, developmental and production activities, including risks relating to permitting and regulatory delays, uncertainties inherent in the estimation of lithium resources, risks related to competition, as well as other uncertainties and risk factors set out in filings made from time to time with the Australian Stock Exchange and the U.S. Securities and Exchange Commission, including our most recent Form 20-F. Actual events, results, performance and achievements could vary significantly from the estimates presented in this presentation. Readers are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, we undertake no obligation to comment on analyses, expectations or statements made by third parties in respect of Piedmont, its financial or operating results or its securities.

Cautionary Note to United States Investors Concerning Estimates of Measured, Indicated and Inferred Resources

The Project's Core Property Mineral Resource of 25.1Mt @ 1.09% Li₂O comprises Indicated Mineral Resources of 12.5Mt @ 1.13% Li₂O and Inferred Mineral Resources of 12.6Mt @ 1.04% Li₂O. The Central Property Mineral Resource of 2.80Mt @ 1.34% Li₂O comprises Indicated Mineral Resources of 1.41Mt @ 1.38% Li₂O and 1.39Mt @ 1.29% Li₂O.

The information contained in this presentation has been prepared in accordance with the requirements of the securities laws in effect in Australia, which differ from the requirements of U.S. securities laws. The terms "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are Australian terms defined in accordance with the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the "JORC Code"). However, these terms are not defined in Industry Guide 7 ("SEC Industry Guide 7") under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act"), and are normally not permitted to be used in reports and filings with the U.S. Securities and Exchange Commission ("SEC"). Accordingly, information contained herein that describes Piedmont's mineral deposits may not be comparable to similar information made public by U.S. companies subject to reporting and disclosure requirements under the U.S. federal securities laws and the rules and regulations thereunder. U.S. investors are urged to consider closely the disclosure in Piedmont's Form 20-F, a copy of which may be obtained from Piedmont or from the EDGAR system on the SEC's website at www.sec.gov.

Competent Persons Statements

The information in this presentation that relates to Exploration Results, Mineral Resources, Metallurgical Testwork Results, Concentrator Process Design, Concentrator Capital Costs, Concentrator Operating Costs, Mining Engineering and Mining Schedule was extracted from our ASX announcement dated May 26, 2020 which is available to view on the Company's website at www.piedmontlithium.com.

Piedmont confirms that: a) it is not aware of any new information or data that materially affects the information included in the original ASX announcement; b) all material assumptions and technical parameters underpinning Mineral Resources, Production Targets, and related forecast financial information derived from Production Targets included in the original ASX announcement continue to apply and have not materially changed; and c) the form and context in which the relevant Competent Persons' findings are presented in this report have not been materially modified from the original ASX announcement.
