Commenting on the Quarter Althea CEO, Josh Fegan, said: “The September quarter has been an important period for the Company, as we have continued strong quarter on quarter growth, with a 32% increase in revenues from the previous reporting period. With Peak Processing Solutions having received its Standard Processing License from Health Canada last month and already entering into commercial agreements with customers, our shareholders can continue to expect strong revenue growth for the December 2020 quarter.

Our patient numbers have also continued to experience a strong increase in Australia and with revenue more than doubling in the UK in September, we anticipate companywide break-even within the March 2021 quarter. As we approach our 10,000 patient milestone, I would like to take this opportunity to thank shareholders for their ongoing support.”

The Company holds a cash position of \$6.98 million as at 30 September, strongly positioning it to continue to deliver on its growth strategies.

Operational update for the September quarter

Australia

During the Reporting Period, Althea launched online sales of its medicinal cannabis products through Althea Concierge™. The platform, which has been registered with the Therapeutic Goods Administration (‘TGA’), now allows Althea patients to purchase products online with delivery directly to their door, eliminating the need to visit a doctor and pharmacy, when combined with telehealth consultations.

Althea Concierge™ online sales also continue to impress with the number of patients preferring to pay for their medication through the platform increasing.

During the Quarter, the Company announced the TGA’s interim decision to amend the current Poisons Standard to down schedule cannabidiol (‘CBD’) allowing greater access through a new Schedule 3 entry. The proposed amendment would allow Australian patients to purchase CBD products upon consultation with a pharmacist, without the need for a prescription.

The TGA is expected to provide an update on the down schedule during the December 2020 quarter.

COVID-19 update:

Victorian growth has been impacted due to the state government’s Stage 4 lockdown. With the state government’s ‘Third Step’ restrictions proposed to come into effect from 19th October, the Company expects Victorian output to increase during the December 2020 quarter, fuelling further growth.

United Kingdom

During the Reporting Period, the Company continued to grow the UK business with recorded revenue of \$75,973 in September, an increase of 104% month on month.

MyAccess Clinics added 55 new patients in September 2020, up 67% on the previous month. MyAccess Clinics’ capacity is expected to increase over the coming months, as more specialists are engaged and further operating efficiencies are implemented.

Revenue growth in the UK is being driven by a combination of activity through MyAccess Clinics, as well as independent specialist prescribers increasingly utilising Althea medicinal cannabis products.

Germany

The Company anticipates that Althea products will be launched during the December 2020 quarter, subject to German regulatory approvals.

Canada – Peak Processing Solutions

Althea's Canadian based wholly-owned subsidiary Peak Processing Solutions ('Peak') continued to achieve company milestones during the Reporting Period.
