Operational Performance

The Company delivered positive operational cashflow of \$1.026 million in Q1 FY21. This represents the best quarterly operating cash performance by MSL for more than two years.

MSL has delivered a positive operational cash performance in the first 9 months of CY20 which represents an improvement of more than \$4 million compared to the first 9 months of CY19.

The Company's latest quarterly cash performance is particularly pleasing as it comes on the back of strong growth in cash receipts, which increased by 27.7% quarter-on-quarter to \$6.7 million, and also in light of the Company's achievement of positive operational cashflow even before its receipt of government subsidies targeted to mitigate COVID-19's impact.

In August, MSL announced it had signed a revenue sharing Merchant Agreement with leading 'buy now pay later' (BNPL) payment solution provider Openpay Group Ltd (ASX: OPY, 'Openpay').

Openpay is a well-established player in the fast-growing global market for BNPL payment solutions. Openpay partners with merchants to provide repayment plans to customers in-store, in-app and online, allowing customers to purchase what they want and need while spreading repayments over time with no interest costs.

The three-year agreement will see MSL integrate Openpay's BNPL offering with MSL's golf and membership products on a phased basis. This allows participating golf clubs to include Openpay's BNPL plans as a payment option for member subscription fees whilst enhancing golf clubs' operating cashflows. MSL generated its first revenues under this agreement during Q1 FY21.

In September, MSL announced it had signed a multi-year contract with Australia's largest venue operator, ASM Global, to provide its integrated point of sale (POS) and transaction management platform to RAC Arena. The contract will see MSL implement a platform which integrates market-leading software from SwiftPOS with MSL's mobile POS solution.

More than 100 fixed terminals and 60 mobile tablet devices will be installed to extend RAC Arena's POS capabilities across their entire arena and corporate suites. The platform will enhance guest engagement at the arena and deliver a superior customer experience for all RAC Arena guests.

The contract generates majority upfront revenue for MSL, along with associated subscriptions over the initial 5-year term.

During the quarter, MSL signed an Integration Agreement with Meandu Australia Holdings Pty Ltd ("me&u"), which provides a leading mobile ordering & payment app for cafes, restaurants and bars.

Under the two-year agreement, me&u and MSL will work together to enable hospitality venues within MSL's network across Australia to integrate with me&u's app which provides at-table ordering and payment services to merchants in the food and beverage industry. Under the agreement, MSL will earn revenue from setup, referrals and transaction commission fees based on sales generated following successful referrals of customers from MSL to me&u.

MSL Solutions CEO, Pat Howard, said:

"We are pleased to see reward for effort in the actions we have taken to improve our cash performance quarter by quarter. Our focus on a sustainable business has positioned us well for the future and we are seeing new revenue generated off the new cost base."

FY21 presents MSL with strong opportunities as clubs and venues increasingly recognise that our technology solutions can increase efficiency and therefore safety so that they can adapt and thrive in a post-COVID environment."

Corporate

MSL issued its Corporate Governance Statement and Appendix 4G during the quarter.

In accordance with Listing Rule 4.7C, payments of \$117k made to related parties and their associates, included in item 6.1 of the Appendix 4C, are for Director fees and salaries (including superannuation and short-term incentive payments) paid to MSL Directors.
