Adslot Media

Trading Fees

The September 2020 quarter was a record quarter for trading on the *Adslot Media* platform. The value of media traded was \$6.24M, an increase of 31% compared to the June 2020 quarter and 48% compared to the prior corresponding period.

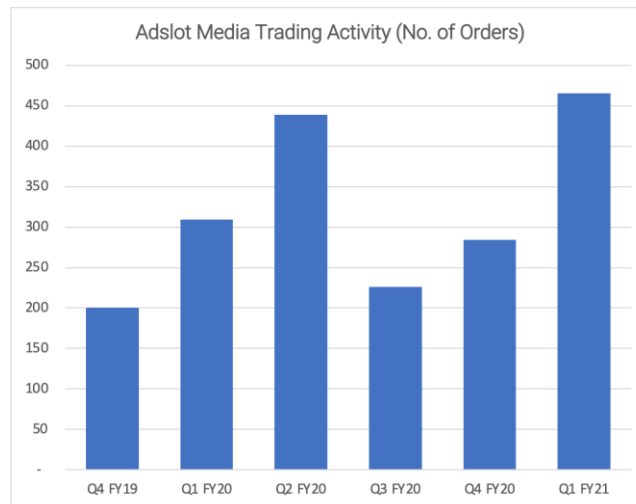

The value of media traded in the US market increased by 77% when compared to the prior quarter. The value of media traded in Europe increased by 33% when compared to the prior quarter. European trading activity is primarily derived from integrated deployments of *Adslot Media* with the Company's *Symphony* platform, and represents continuing validation of the Company's strategy to activate *Adslot Media* trading opportunities in deployed *Symphony* markets.

Volume of Trades

The total number of trades from all advertisers across the September 2020 quarter was 465, representing a 64% increase QoQ. This represents a record number of quarterly trades.

Agency (Buyer) Update

During the September 2020 quarter, the Company made continued progress toward its goal of scaled trading on the *Adslot Media* platform in key markets including the US and UK. In particular the quarter saw:

- Successful activation and first trades for *Orion*, part of the Interpublic Group (IPG). This followed the activation of fellow IPG agency *Matterkind* (formerly *Cadreon*) in the June 2020 quarter;
- Trading in the US market from multiple holding companies;
- High levels of engagement with individual account / advertiser teams across multiple US agencies;
- The commencement of pilot activity for an additional holding company in the UK;
- Indications from brands of a return of advertising budgets from the December 2020 quarter;
- Consistent and repeat trading at scale in Europe using the integrated *Adslot Media - Symphony* solution; and,
- Developing use cases for trade-enabled agencies and large retailers.

The Company continues to progress on its core strategic objective of executing and activating Master Service Agreements (MSAs) with the six largest global media agency holding companies. In summary, the Company's status with these six holding companies is as follows:

- Formal MSAs in place with three of the six largest global media agency holding companies;
- An active interim trading agreement with a fourth holding company;
- Pilot activity currently underway with a fifth holding company which is expected to successfully conclude in October 2020; and,
- Limited initial discussions with the remaining sixth holding company.

Subsequent to the September 2020 quarter, the Company announced that it had executed an MSA with *Evergreen Trading*, a US based independent media trading organisation specialising in trade-enabled media solutions. Trading under this MSA has already commenced.

Outlook

The Company anticipates continued growth in *Adslot Media* trading in the December 2020 quarter, and into calendar 2021.

Publisher (Seller) Update

During the September 2020 quarter, the Company continued to add additional premium publishers to the *Adslot Media* marketplace around the world. Prominent publishers added to the marketplace during the quarter included:

- *Times of India* – the largest English-speaking newspaper in India with over 500m monthly users;
- *Leaf Group* - a US consumer internet company that operates brands including Well+Good and Livestrong.com;
- *Rainbow Media Holdings* – an operator of US based cable networks including AMC Networks, IFC and BBC America; and,
- *ScienceMag* – the journal of the American Association for the Advancement of Science which reaches millions of students, educators and government agencies.

Symphony Update

The Company recently announced that it had successfully deployed the *Symphony* platform for Omnicom Media Group (OMG) in the Netherlands. This represented the first deployment of *Symphony* for OMG, and was also the first to utilise the integration between *Symphony* and the *Marathon ERP* solution. The Company believes that this integration and the associated partnership with Kalin Setterberg Data AB will drive further adoption of *Symphony* in markets across Europe in coming years.

During the September 2020 quarter, the Company saw continued growth in the annualised value of media managed by the *Symphony* platform. Total annualised media spend managed by *Symphony* for the September 2020 quarter was \$6.77 Billion, an increase of 16% when compared to the June 2020 quarter.

Notably, the annual value of media spend managed increased by 5% when compared to the prior corresponding period. This represents an effective recovery of the decline in spend related to the impacts COVID-19 in the March 2020 quarter. The value of media traded in each of the three largest deployed markets (China, India and Australia), increased when compared to the prior corresponding period.

Note: Annualised Media Spend is calculated by multiplying the quarter's media spend by 4

Quarterly Cashflow Commentary

Cash inflows from operating activities roughly equaled cash outflows from operating activities for the September 2020 quarter (net \$0.04M), a \$0.95M (104%) improvement from the previous quarter (June 2020 quarter: \$0.91M net cash outflow).

Cash receipts from customers for the September 2020 quarter were \$2.87M, a decrease of \$0.98M or 25% on the previous quarter's receipts of \$3.85M.

In response to the potential impact of COVID-19 on the Group, the following employee cost reductions were implemented in the September 2020 quarter:

- The Chairman and non-executive directors waived all fees;
- 15% salary reduction for the CEO and CFO (30% reduction in the prior quarter);
- up to 12.5% salary reductions across employees earning above a minimum threshold (up to 25% reduction in the prior quarter); and
- freeze on all salary increases.

While employee salaries increased in the September 2020 quarter, at \$2.43M, employment costs were \$0.10M / 4% down on the prior quarter across Staff Costs (\$0.06M) and Intellectual Property (\$0.04m).

Outgoing cash payments during the quarter at \$4.40M were \$1.86M or 30% lower than the previous quarter, primarily due to lower publisher payments (\$1.34M decrease) and a reduction in working capital expenditure (\$0.37M savings across travel, entertainment and rent reductions). The operating cash outflow included related party costs of \$0.07M for directors' remuneration, representing payments made to the CEO.

The Company received \$0.53M in Grant receipts in the September 2020 quarter made up of:

- \$0.46M JobKeeper payments and
- \$0.07M ATO Boost Payment.

Cash at the end of the September 2020 quarter was \$5.04M.

Due to the impact of the COVID-19 pandemic on operations, the Company expects to receive the Job Keeper 2.0 allowance for 29 Australian employees and an additional \$0.03M ATO Boost Payment in the December 2020 quarter.

Employee salaries will return to 100% in the December 2020 quarter and director fees for non-executive directors will also resume in the December 2020 quarter.

The Company will submit the FY2020 R&D claim in the December 2020 quarter. A \$1.7M cash receipt from the R&D Rebate Scheme is expected to be received in either the December 2020 or March 2021 quarter.
