September 2020 Quarter Cash Flow Report and Performance Highlights

Megaport Limited (ASX: MP1) has today released the September 2020 quarter Appendix 4C.

In 1Q FY21, Megaport drove strong product uptake with quarterly 566 new Ports, up 10% QoQ and 138 new customers added up 7% QoQ, both record quarterly increases. Of this, North America contributed significantly, representing 63% of the growth in new customers, 58% of the growth in Ports, and 61% of the growth in new services.

Executing on its strategic roadmap, Megaport announced the development of Megaport Virtual Edge (MVE) as well as a strategic collaboration with Cisco on 17 August 2020. MVE will enable customers to host virtual network appliances and network functions on Megaport's platform. This will enable businesses to connect to services through Megaport from more locations around the globe – including branch offices, corporate campuses, and point-of-sale locations.

Megaport's Chief Executive Officer, Vincent English, commented, "Our investments in North America, in terms of network footprint and commercial capabilities, yielded excellent results this quarter and contributed significantly to our record quarterly Port and customer performance. This will have a positive impact on MRR from Q2 onwards. North America is our fastest growing region, with USD revenues growing 11% QoQ and now accounting for 47% of our total revenue."

1Q FY21 Cash Flow Commentary

Operating Activities

Receipts from customers were \$17.2M (previous quarter: \$20.0M), a decrease of \$2.8M or 14% QoQ. A further \$4.1M has been collected during the first two weeks of October. Receipts of \$17.2M were the equivalent of the entire previous quarters Revenue. The record collections from the previous quarter have returned to a more normalised rate after the FY20 year end.

Product manufacturing and operating costs comprise costs for data centre power and space, physical cross connect fees, bandwidth and dark fibre, network operation and maintenance, and channel commissions which directly relate to generating service revenue. Network operating cash outflows were \$10.7M (previous quarter: \$7.9M), an increase of \$2.8M QoQ. Network related cash outflows for the quarter were up \$0.4M reflecting the additional 19 locations deployed in the quarter and full impact of the 37 locations added in the previous quarter. Approximately \$2.5M of payments in the quarter relate to the timing of settlements, which in some instances related to goods and services received in Q4FY20.

Advertising and marketing payments were \$0.2M (previous quarter: \$0.5M), a reduction of \$0.3M QoQ reflecting reduced conference activities and related travel expenditure that has been impacted by Covid-19.

Payments for leased assets were steady QoQ. The total \$1.5M represents the principal and interest cash outflows related to the contracts that are classified as "Leases" under AASB 16 Leases.

Staff costs paid were \$11.3M (previous quarter: \$9.5M), an increase of \$1.8M QoQ, of which \$1.1m relates to the cash settlement of the FY20 annual performance based incentives (included in FY20 financial statements). Other increases relate to the addition of new staff in the quarter to support business growth, and the full impact of the 23 new staff added in the previous quarter.

Administration and corporate payments were \$1.7M for the quarter (previous quarter: \$2.1M), a decrease of \$0.4M QoQ. The decrease in cash outflow is due to reductions in recruitment, with a majority of recruitment now being conducted in house, as well as legal and other professional costs, relating to the expansion into new markets in FY20.

Income taxes paid relate to tax paid by Megaport New Zealand in relation to FY20. Megaport New Zealand was in a tax paying position reflecting the continued growth in the business.

Investing Activities

Capital expenditure was \$4.2M (previous quarter: \$10.2M), a decrease of \$6.0M QoQ. \$1.3M of this quarter's payments relates to the 19 new sites deployed in the quarter, with a further \$0.9M held in inventory for future expansion. The remainder relates to core and capacity upgrades of the existing network.

Investment in intellectual property was \$2.2M (previous quarter: \$1.6M), an increase of \$0.6M QoQ, reflecting investment in the development of MegaPort Virtual Edge (MVE), a new product scheduled for commercial launch in H2.

Financing Activities

Proceeds from the exercise of options of \$3.6M represent the exercise of share options by employees.

Proceeds from borrowings of \$0.3M represent the latest drawdown under the vendor financing facility (refer to item 7 below for more details). The vendor financing facility was increased to \$20M in the quarter (previous quarter: \$12M) with \$7.6M of the facility being undrawn at end of the quarter.

Repayments on borrowings was \$1.0M (previous quarter: \$0.8M), reflecting the instalment payments of the amount drawn under the vendor financing facility (refer to Item 7 below for more details).

Cash Position

Cash and bank balances at the end of the quarter were \$152.8M.

Payments to related parties of the entity and their associates

The amounts included in item 6 relate to the remuneration of directors and their associates, and the shared services and network operating services provided by companies controlled by the Chairman.
