ASX Announcement

21 October 2020

Whispir Limited

(ASX:WSP)

Appendix 4C – Q1 FY21

Whispir Limited (**ASX: WSP, Whispir or Company**) is pleased to provide its Appendix 4C cash flow report and update for the quarter ending 30 September 2020 (Q1 FY21).

Highlights

- Annualised Recurring Revenue (ARR) increased 26.7% over the prior corresponding period (PCP) to \$43.7 million, up 3.6% on the June quarter.
- Quarterly customer cash receipts of \$10.5 million, in line with expectations and up 35.0% on the same period last year.
- Strongest Q1 new customer growth on record, onboarding 35 net new customers during the quarter.
- First Australian business to achieve AWS Digital Workplace Competency status.
- Well-funded to execute current growth strategy with a cash and equivalents of \$12.0 million.

Quarterly performance

Whispir had its strongest start to a financial year on record, with quarterly cash receipts increasing 35.0% over the PCP to \$10.5 million. Increased platform usage by existing customers in ANZ and Asia were the primary drivers of this growth, with platform interaction volumes up 41.3% over the PCP.

ARR increased 26.7% over the PCP to \$43.7 million, up 3.6% on the June quarter. Customer revenue retention is tracking to achieve 120% for FY21.

New customer growth for Q1 was the strongest first quarter performance ever recorded by the Company, onboarding 35 net new customers during the quarter to bring total customer numbers to 665.

Whispir continues to leverage the macro trends that are affecting most organisations such as facilitating remote working, increasing automation of manual communication processes, and boosting organisational productivity. Turbulent operating conditions for many customers are increasing the need for them to provide contextually relevant, two-way stakeholder communications at scale. Designed to be used without IT expertise, Whispir's ability to integrate with existing IT systems has enabled many new customers to start using the platform within days – rather than weeks or months - of becoming a customer.

Whispir continues to invest in development activities to increase the platform's AI-inferred intelligence and enhanced functionality as part of a five-year product roadmap, and is well-funded to achieve its current strategic objectives, with a cash and equivalents balance of \$12.0 million as at 30 September 2020.

Commenting on the strong quarterly performance Whispir CEO Jeromy Wells said, “While Q1 is traditionally the quietest period in our annual sales cycle, September was our strongest ever monthly revenue. Our strong growth in ARR and record net new customers over the past quarter reflects ongoing demand for multi-purpose communications software to improve productivity and stakeholder engagement as our customers navigate ‘the new normal’.

Payments to related parties and their associates during the quarter totalled \$0.6 million. These comprised Directors’ fees and expenses for Q1FY21, the CEO’s base remuneration and expenses for Q1FY21 and the CEO’s Annual Short-term Incentive for FY20.

Sales and channels

During the quarter, Whispir continued to increase its market presence in Asia with new customers acquired in Sri Lanka and the Philippines. Whispir’s established channel partners in the region, including its digital transformation partnership with Deloitte, is delivering qualified sales leads and cost-effective access to new customers in new geographic markets.

“Asia remains a large and diverse market opportunity for our versatile communications workflow technology. We have altered our team structure in this region to allow our technical expertise to support our customers more easily. This new go-to-market strategy is driving growth in customers and revenue in Asia, and we continue to leverage our strategic channel partner relationships and blue-chip references to increase our sales,” said Jeromy Wells.

Whispir strengthened its relationship with Amazon Web Services during the quarter, becoming the first Australian business, and one of only 18 globally, to achieve the newly launched AWS Digital Workplace Competency status.

AWS Digital Workplace Competency status recognises Whispir’s proven expertise in providing end-to-end digital transformation tools to effectively support remote workers and optimise business continuity plans. It is only awarded to AWS partners with specialised technical proficiency and verified customer success in reducing security risks.

Jeromy Wells commented, “The AWS Competency program is a leading indicator for global best-in-class technology solutions, and we are delighted to be among the first companies to be recognised by AWS for our proficiency in facilitating digital workplaces.”

The new AWS recognition follows AWS Advanced Technology Partner certification and AWS Digital Customer Experience Competency for marketing automation.

Outlook

Whispir’s performance over the quarter was ahead of expectations, and the Company remains on track to deliver its FY21 guidance.

CEO Jeromy Wells said, “We continue to build momentum within the business, increasing use cases with our existing customers and onboarding new customers. Many of those onboarded in Q3 FY20 are now increasing their platform usage in line with our land and expand strategy and we expect these customers will have a positive impact on revenues later in FY21.

“While Whispir has had its strongest Q1 on record, we are still seeing suppressed transaction activity from some customers in some industries, such as aviation, due to COVID-19. As restrictions ease, we anticipate these customers will return to normal volumes.

“During the quarter we made significant progress on developing the foundation of our AI, machine learning and data intelligence capabilities and are continuing to add new platform functionality to support our customers in solving their complex communications challenges.”

About Whispir

Whispir is a global scale SaaS company, founded in 2001 to provide a communications workflow platform that automates interactions between organisations and people.

Our products enable organisations to improve their communications through automated workflows to ensure stakeholders receive accurate, timely, useful and actionable insights in a manner that is sensitive to individual contexts and preferences. Our customers use Whispir's software to create interactive, multi-party and omnichannel communications from templates, solving simple to complex communications workflow tasks.

Whispir operates across three key regions of ANZ, Asia and North America.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
