

ASX ANNOUNCEMENT

21 OCTOBER 2020

CANN GROUP SEPTEMBER 2020 QUARTERLY

ACTIVITIES REPORT AND APPENDIX 4C

Highlights

- In August Cann substantially strengthened its balance sheet through a capital raising of \$40.2m.
- The raising was the combination of a \$14.3m institutional placement and a \$25.9m share purchase plan to existing shareholders.
- Both the Placement and the SPP were strongly supported by new and existing shareholders.
- The capital raised will be used to support Cann's near term growth plans and the staged construction of the Mildura cultivation facility.

21 October 2020 – Melbourne-based Cann Group Limited (ASX:CAN) is pleased to report on its activities for the quarter ended 30 September 2020.

Successful capital raising

During the quarter, Cann Group successfully completed a capital raising of \$40.2 million to support the Company's business development and growth strategy. On 20 August 2020, the Company reported that it had completed the settlement and allotment of shares pursuant to the share purchase plan offer (**SPP**) announced on Friday, 17 July 2020. The SPP was oversubscribed and the Company received application monies totalling \$25.9 million from 2,793 shareholders, reflecting a participation rate of over 14.5% of eligible shareholders. In response to the strong demand from shareholders, the Company decided to increase the size of the SPP by \$15.9 million to a total of \$25.9 million to enable retail shareholders to participate to the fullest amount.

The completion of the SPP followed the successful completion of the oversubscribed share placement to institutional investors (**Placement**) which was announced on 16 July and raised \$14.3 million.

The total amount raised under the Placement and the SPP is \$40.2 million (**Capital Raising**) before costs. The net proceeds from the Capital Raising will be used to provide working capital to support the Company's near-term growth plans and provides additional equity that will strengthen the Company's position in terms of securing external debt funding to proceed with the first stage of the Mildura expansion.

Cann Group CEO, Peter Crock, said the strong interest and support from retail shareholders is an endorsement of the Company's strategic growth plans, which remain firmly focused on building a robust, vertically integrated medicinal cannabis business, with an expanding revenue base, and proceeding with the cultivation expansion project at Mildura.

2020 FY results and presentation

On 27 August 2020 Cann Group released its full year results and hosted a webinar for all shareholders featuring a presentation by CEO Peter Crock. A copy of the presentation can be found on the Company's website [here](#).

Research and development

Whilst many industries were shut down due to COVID 19, Cann Group and its research affiliates were able to continue their important work over the last quarter.

These include projects focussed on increasing the yield and profile of desired cannabinoids and cannabis by improving agronomy with the ARC Medical Agriculture Hub headed by La Trobe University and the study on improving production by CSIRO, whilst Agriculture Victoria has continued the analysis of the Company's cannabis genetics.

The Co-operative Research Centre-Program (CRCP) – “Growing the medicinal cannabis industry-precision farming to pharmaceuticals” – which is co-supported by Commonwealth Department of Industry, Science, Energy and Resources, NSW Department of Primary Industries, Southern Cross University, University of Newcastle and Aglive Pty Ltd, with Cann Group as the main industry partner, has moved into the second year of the program, where Cann has commenced validating promising results at the Northern facility.

Outlook

A key priority for the Company during the next quarter is to work closely with new offtake customers to finalise their specific product and volume requirements and complete related regulatory approvals. The Company is otherwise continuing to operate within the COVID-19 restrictions, ensuring that the health and wellbeing of its employees are maintained.
