ASX Announcement
(ASX: ERG)

Quarterly Activity Report to September 2020

Eneco Refresh Ltd (the Group) is pleased to provide a review for the quarter ended September 2020. Our cash balance increased by \$441,000 compared to the end of the previous quarter. A strong revenue growth resulted in the Group generating positive cash flow of \$240,000 from its operating activities. This was also helped by government packages. We sold part of our investment in Eve Investments Ltd, resulting in a cash inflow of \$265,000.

A breakdown of sales by Cash Generating Units is presented below. The Group is able to achieve good growth, mainly contributed by Refresh Waters Darwin and Refresh Plastics. Total Refresh Waters sales was up 4% compared to the same period last year. We had a substantial 39% increase in revenue at Refresh Plastics, helping to achieve a total growth of 12%. The Group has done very well despite the pandemic.

<u>Revenue</u>	<u>Jul-Sep 20</u>	<u>Jul-Sep 19</u>	<u>Variance</u>

Total Group	<u>3,021</u>	<u>2,704</u>	12%

Refresh Waters

Most businesses have resumed in Western Australia which helped to stabilise sales. New South Wales had a high negative sales variance because of a big drop in our custom labelled bottled water business, with most companies cutting back on promotions. Despite the lockdown in Victoria with many businesses closed, we were able to remain open, achieving comparable sales. Northern Territory is growing very well and we are currently trading towards profitability. Queensland was hardly affected by the pandemic, achieving a 4% growth.

Refresh 2-litre demineralised water started to be sold in the laundry aisle of Woolworths supermarkets since late September 2020. This is Australia-wide except in Western Australia and Northern Territory. It will boost sales in New South Wales, Victoria and Queensland henceforth.

Traditionally, we sell more water in summer than in winter. With the weather warming up and most businesses reopened except in Victoria, we expect sales to continue to improve.

Refresh Plastics

One very important thing that has come out of the pandemic is the reliability of Australian-based manufacturing and supply, compared to imports. With the high salary structure within Australia, there are very few things that can be produced cheaply in Australia. However, more and more businesses are turning to local manufacturers in their supply chain management and this has benefited our plastics factory immensely.

Demand for our Ampii activity toys continues to be strong. This will continue into this quarter which traditionally sees a surge in sales leading up to Christmas.
