

ACTIVITIES REPORT FOR THE QUARTER ENDING 30 September 2020

KALiNA Power Limited (“KALiNA” or the “Company”) (ASX:KPO), provides its Appendix 4C for the quarter ended 30 September 2020.

During the quarter the Company significantly strengthened its balance sheet in order to support ongoing project development activities in Alberta. The Company raised A\$8.02 million by way of a A\$6.82 million fully underwritten pro-rata **Rights Issue** along with a **Private Placement** of A\$1.2 million. The funds raised will primarily be used to advance the initial Alberta projects to Full Notice to Proceed (‘FNTP’) by Q1 2021.

The Company announced the appointment of Cove Capital (‘Cove’) (<https://covecapital.com.au/>) as the Company’s brokers to the capital raising. Cove is an independent boutique international corporate advisor licensed in Australia.

The Company also secured an A\$8 million, 24-month equity placement facility with **Long State Investment Ltd.** If required, it can be used at our sole discretion and represents an important backstop in navigating our capital requirements through each of our projects.

During the quarter KDP spent over \$1.4m on developing its Alberta Projects. This equates to approximately 78% of the total spent on operating activities. Under the financing terms agreed for the projects this expenditure will be among reimbursable project expenses payable to KDP when FNTP is achieved by Q1 2021. These scheduled payments on the initial two projects, together with similar payments from expected ongoing projects, positions the Company such that it is not anticipated for a need to raise additional capital to deliver on the Alberta business plan.

During the quarter, the Company made progress on all aspects of project development including, site selection, permitting, gas and electricity interconnect, modularization and discussions with local gas suppliers.

The Company also continued its work with Enerflex Ltd. (EFX:TO) (“**Enerflex**”) (an international engineering, design, fabrication, construction, and commissioning company with a market cap of over AUD \$510 million) on engineering and cost estimating. The engagement with Enerflex involves a conditional, stage-gated process to deliver cost-effective, modularization of KALiNA Cycle plants. With a successful transition through each stage, the Company expects to complete and advance a range of project development milestones to keep on track to achieve Full Notice to Proceed with its project funding capital partner Akira Partners by the end of the first quarter of 2021.

Payments to related parties:

Directors were paid \$170,000 for services rendered under normal commercial terms. Apart from this there were no other related party transaction during the quarter.
