Company Update and September Activity Report

Highlights

- Commences trading on ASX on 18 September 2020 following a successful \$8m capital raise
- Well positioned to execute growth strategy and expand into new markets
- Major Agreements signed with Mitsui and Zamil Operations and Management

SRJ Technologies (ASX:SRJ; "SRJ" or "the Company") is pleased to provide the following update of its recent operational and corporate achievements.

SRJ commenced trading following its successful IPO

SRJ Technologies Group plc listed on the ASX on 18 September 2020 following a heavily oversubscribed IPO. The Company raised \$8 million before costs with strong support from a broad range of institutional, high net worth and sophisticated investors. The IPO also saw Mitsui & Co. (Australia) Ltd join the register and follow on investment from existing shareholders Ellerston Capital and Regal Funds Management.

Under the IPO, a total of 16,000,000 Chess Depository Receipts (CDI's) were issued at \$0.50 per CDI and the Company listed with a market capitalisation of approximately \$60 million. The Company is delighted with the support it has received from ASX investors and the share price has continued to trade well above the \$0.50 IPO price reaching a high of \$0.83.

Significant agreements

On 18 September 2020, the Company announced that it had reached an agreement with Mitsui & Co (Australia) Ltd to explore commercial opportunities to promote SRJ's portfolio of products and services through Mitsui companies and projects across the energy, chemicals, and mining and metals sectors.

Following the completion of the quarter, the Company also announced it had appointed Zamil Operations and Maintenance Co Ltd ("ZOMCO") as its agent for the lucrative oil and gas and pipeline market in the Kingdom of Saudi Arabia.

Both agreements provide the Company with significant leverage into both established and new markets but more importantly quickly position SRJ to take advantage of already established networks to secure contracts and work.

Investor engagement and media coverage

The recent listing provided profile raising opportunities and interviews were secured with the Australian Financial Review, Stockhead, Ausbiz TV and Energy News Bulletin. SRJ were also the lead story on WA Business News website and were a feature story on the afternoon news of the WA Business News and media alert email. The CEO has also recently undertaken an interview with Alan Kohler for investment publication 'Eureka Report'.

CODE: SRJ

Financial performance

SRJ Technologies Group plc has continued to generate sales in Q3 with cash generation of £93k (A\$168k.)

Sales performance and revenue growth has slowed over 2020 partly due to management's focus on the IPO process and capital raising activities but predominately due to COVID-19. Key points to note:

- Asset Life Extension the pandemic has undoubtedly provided SRJ with significant opportunities to sell its containment solutions to operators that are looking for ways to extend the life of existing assets rather than replace them.
- Operator Led delays as operators try to interpret and react to the impact of the evolving pandemic, planned maintenance shutdowns are being pushed out to 2021 thereby pushing out anticipated revenues for the Company.
- Resilience fundamentally it is the timing of opportunities, not the opportunities themselves, that have been impacted and SRJ remains confident it is well placed to react to changing business practices and the opportunities it will present.

Research & development

Q3 2020 saw SRJ present the first iteration of its newly developed Repair Register management platform to an existing client as part of its digitalisation strategy. This platform comprises three seamlessly integrated elements:

- An app enabling field operations staff to capture the details of integrity anomalies and containment losses on mobile devices for centralised storage;
- A web browser interface that provides for management oversight and the historical tracking of subsequent repair measures through their successful closure;
- Overlaying visualisation software enabling the central repair database to be selectively interrogated to generate data-driven insights regarding repair trends and integrity management performance.

Outlook

With the success of the IPO now behind it, and with the IPO proceeds now available for business development, the Company is focussed on delivering progress across all operations during Q4 2020 and moving into 2021.

COVID-19 continues to challenge but opportunities are still presenting themselves even if the timing remains uncertain. With a successful capital raise, no debts and with a lean, highly flexible workforce the Company is in a strong position to deliver.

Key operational objectives in the immediate term are:

- Increasing sales and market penetration in existing markets of Australia and pushing to close identified opportunities in the UK and USA;
- Development of new sales and distribution networks for sales penetration into the USA and the Middle Eastern markets; and
- Continued development of new technology and patents.

Related party payments

For the purpose of Section 6 of the Appendix 4C, all payments made to related parties have been paid in relation to wages for the CEO and independent Directors/Chairman remuneration including superannuation and pension as applicable or consulting fees.

The Company notes that it was only listed for 12 days of the quarter, and as such no real expenditure has been incurred against the use of funds stated in the prospectus. The Company will report against this in the coming quarter.

This announcement has been authorised for release by the Board.

ABOUT SRJ TECHNOLOGIES

SRJ Technologies provides specialised engineering services and containment management solutions, elevating customer's integrity management performance.

We see real value in offering a wider range of asset integrity consulting services helping our customers to better understand the operational risks and where best to focus resource to minimise these risks.

SRJ's range of industry accredited products are designed to maintain and assure the integrity of pressure containment systems and therefore play an important role in the overall integrity of operating facilities.

Using pre-qualified service providers and manufacturers local to customer, SRJ is geolocation-flexible and able to deliver a range of high quality, agile and cost-conscious solutions globally.

Compliance statement

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- This statement gives a true and fair view of the matters disclosed.

22 October 2020 Date:

Authorised by the Board of SRJ Technologies Group Plc.

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
- 3. 4. 5. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
 - If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee - eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
 - If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
