Drilling Program and Geological Review

Horizon Gold Limited (ASX:HRN) (**Horizon** or the **Company**) is focussed on progressing its exploration and development activities at the 100% owned Gum Creek Gold Project (**Gum Creek** or the **Project**) in Western Australia (refer to Figure 3).

Gum Creek has historically produced more than 1 million ounces of gold and hosts a current Mineral Resource of 1.39 million ounces (Appendix 1). The Project covers 620km² of contiguous tenure over the Gum Creek greenstone belt that has supported more than 30 open pit mines and three underground mines in the modern era.

During the reporting period the Company commenced drilling (see Figure 1) at the Swift and Swan North deposits.

The drilling program will comprise a total of 38 RC holes for 4,680 metres. The program will consist of infill and extensional drilling to improve definition of the modelled mineralisation and to target extensions to the Swan and Swift Mineral Resource (refer to Appendix 1 for further details).

Figure 1: RC Drilling Rig on site at Gum Creek Gold Project

The RC drilling program is expected to be completed by the end of October. Numerous sample batches have been despatched to the laboratory with results pending.

The Company has engaged three highly experienced Archean gold geologists to undertake a full review of the Gum Creek Gold Project exploration and mining data. The key objective of the review is the targeting and prioritising exploration targets with a focus on:

- Mineral Resource growth; and
- new discoveries from advanced and grass roots exploration targets.

The targets have been prioritised into the following categories:

- existing Mineral Resources;
- new Mineral Resources;
- advanced exploration targets; and
- greenfield exploration targets.

The review, which is 60% complete, has generated in total 38 targets to date, categorised as follows (refer to Figure 2):

- nine existing Mineral Resources for extending and increasing confidence;
- thirteen new Mineral Resource targets;
- fourteen advanced exploration targets that have significant drill hole intersections; and
- two greenfield targets.

The Company expects to complete the review by the end of the December Quarter.

He has worked extensively in WA, Queensland, NSW and various African countries and has been involved in the discovery and resource definition of numerous gold and base metal deposits.

Mr Ryan was most recently Managing Director of Alchemy Resources Limited and before this Managing Director of Chrysalis Resources Limited and earlier the Managing Director of Boss Resources Limited. Prior to this he was Resolute Mining Limited's Group Exploration Manager for Africa and Australia. Mr Ryan is a member of the Australian Institute of Geoscientists and has completed a graduate certificate in Mineral Economics at the Curtin School of Business, Western Australia.

Appointment of new Chairman and resignation of a director

On 7 July 2020 the Company announced the appointment of Mr Peter Sullivan as a Non-Executive Director and Chairman. Previous Chairman Mr Dugald Morrison will remain on the Board as a Non-Executive Director.

Mr Sullivan is an engineer and has been involved in the management and strategic development of resource companies and projects for over 25 years. Mr Sullivan is also a Director of Zeta Resources Limited (appointed 2013), Resolute Mining Limited (appointed 2001), GME Resources Limited (appointed 1996) and Panoramic Resources Limited (appointed 2015).

The Company also announced on the 6 July 2020 that Non-Executive Director Mr Paul Bennett had resigned from the Board effective immediately to focus on executive commitments.

Renounceable Entitlement Issue and repayment of Short-Term Funding Facility

On 29 July 2020, the Company announced a one for seven Renounceable Entitlement Issue ("the Issue") at \$0.30 per share, to raise up to approximately \$3.3 million.

The new shares in relation to the Issue were allotted on 2 September 2020.

As part of the Issue process on 25 August 2020, the Company repaid the short-term funding facility from Zeta Resources Limited in full totalling \$509,247 through the offset of part of Zeta's contribution for its Rights Entitlement Issue described above.
