

QUARTERLY UPDATE – SEPTEMBER 2020

Successful Fund Raising and Further Development in Internet of Things (IOT)

Flexiroam Limited (ASX:FRX), (“Flexiroam”, “Company” or the “Group”) is pleased to present its quarterly cash report for the period ended 30 September 2020 and advises:

Key Highlights:

- Successfully raised A\$1,017,348 through a rights issue exercise.
- Cash balance at end of September 2020 is A\$1,187,466.
- Enhanced efficiencies and cash preservation strategies deployed in Q1FY21 continued in Q2FY21, resulting in a 22% lower operating cash outflow of A\$523,837 compared to previous quarter (Q1FY21: A\$675,244).
- The ongoing COVID-19 pandemic continues to affect the global travel industry and resulted in lower cash receipts from sales in Q2FY21 of A\$330,134, 28% lower compared to previous quarter (Q1FY21: A\$456,910).
- Internet of Things (IOT) development and commercialisation efforts intensified after the successful fund raising exercise, in line with Flexiroam’s pivoting strategies.

Successful Fund Raising Exercise

Following the implementation of the crisis and recovery plan as announced in May 2020 as a defense mechanism against the impact of COVID-19, the Company successfully stabilised its operations and reduced monthly operating expenses, resulting in a further reduction of 22% operational cash outflow in Q2FY21 compared to Q1FY21. As part of the recovery plan, the Company undertook a non-renounceable rights issue in July 2020 to raise funds to fast-track development of its innovative global connectivity platform as well as to augment general working capital requirement. The rights issue was successfully completed in August 2020 and raised a total of A\$1,017,348 (before costs), supported entirely by the subscription of the offer by Directors and existing shareholders of the Company.

The successful completion of the rights issue exercise is significant as it provided the Company additional resources to accelerate its IOT development and commercialisation efforts, which forms part of its pivoting strategies. The Company continues to closely monitor the travel sector and remains hopeful for a near term recovery.

Enhanced Efficiencies and Costs Reduction

As mentioned above, the crisis and recovery plan has resulted in enhanced operational efficiencies and operational costs reduction.

Cash Out - Operating Activities
(in \$A million)

In this Q2FY2021, the Company registered a further reduction of 22% operating cash outflow compared to Q1FY21 (A\$675,244). The Company expects bottoming of operating cash outflow in Q2FY21 in line with expectation of increased business activities in Q3FY21 following the completion of the recent fund raising exercise.

During the quarter, payments to Related Parties of the Company and their associates comprised of director fees of approx. A\$34K.

Ongoing Impact of COVID-19 Pandemic to the Travel Sector

The COVID-19 pandemic continues to impact countries on a global scale and many borders remained closed during Q2FY21. This has resulted in significant reduction in international travel by customers of the Company in Q2FY21. As a result, cash sales receipts generated in Q2FY21 of A\$330,134 is 28% lower compared to Q2FY20 of A\$456,910 and 80% lower compared to previous year Q2FY20 (A\$2,257,394).

Continued Innovation and Investment

Having successfully positioned the Company in a “ready mode” in Q2FY21 to capture the recovery of the travel sector, the Company is concurrently channeling its resources to pursue other strategic opportunities.

During Q2FY21, the Company was selected as the connectivity partner for the 23rd International AIDS Conference. Flexiroam was contracted to provide data connectivity to conference delegates in Africa for them to participate in the virtual conference hosted in San Francisco, United States of America.

In addition, the Company successfully launched Flexiroam Solutions, an IOT connectivity solutions platform, during the quarter. The platform leverages the Company’s existing cellular connectivity technology and allows customers of payment service providers (**PSP**) to tap into network switching technology that provides enhanced coverage with the guarantee of secured and reliable transactions.

FLEXIROAM

The technology powered by Flexiroam Solutions will enable the PSP's to have a high level of connectivity for their mobile point of sale (**mPOS**) terminals, a digital device that requires internet connectivity to perform the function of a cash register. The Company is actively pursuing several leads for Flexiroam Solutions' applications and has secured several commercial accounts during the quarter. Flexiroam aims to grow the platform into a recurring revenue stream for the Company and will focus on developing the platform initially within Asia.

The Company has and will continue to invest and innovate in areas of technology to strengthen its future potential.
