↑ \$1.9M

Net cash generated in 1Q21

↑ Return to Profitability

↓ \$4.9M

Net Debt Reduction from June 19

Enevis Limited (ASX: ENE) is pleased to report solid cash flow from operations in 1Q21 with \$8.8 million in receipts from customers and over \$1 million in net cash from operations. The result is especially pleasing given the difficult trading environment caused by COVID-19.

Cash flow from investing totalled \$0.89 million, dominated by cash received as part payments for the sales of the two lighting businesses of \$0.92 million. The proceeds from these sales, combined with cash receipts from operations, have enabled the business to further reduce total debt by \$1.55 million from \$3.3 million at FY20 to \$1.74 million. Of the remaining \$1.74 million, \$1.24mil currently sits as non-current.

Cash balances increased from \$0.23 million at the beginning of the quarter to \$0.61 million at quarter end. Combined with the \$3 million invoice financing facility, which is currently undrawn, Enevis's working capital position is more than adequate to fund existing and new business opportunities.

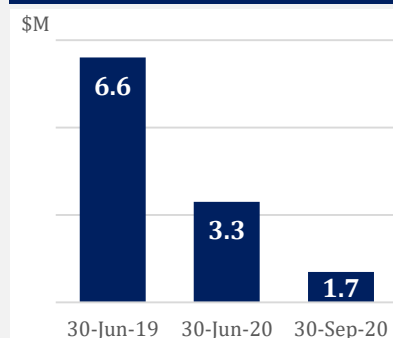

The quarter also saw a return to profit, while work on hand at 30 September is up by 20% on historic levels in comparable periods. Demand remains solid, particularly until the end of the calendar year, despite the impact of COVID-19 on the economy.

Managing Director and Executive Chairman, Mr Peter Jinks, said, "The streamlining and cost reduction measures implemented during FY20 are beginning to flow through and deliver tangible cash benefits. The two lighting divestments, the large reduction in debt, the elimination of the requirement to carry inventory, and the introduction of better, lower cost systems positions us for the challenges of tomorrow's technological advancements.

Debt

“There is no doubt that COVID-19 will continue to exercise a significant impact on the economy as we arrive at the ‘new normal’. We are already seeing some of these impacts as buildings and workplaces are refurbished to be COVID safe. The confluence of audio-visual and information technology will necessarily play a large role in this change, and we are actively pursuing a plan to capture a piece of that market,” said Mr Jinks.
