### Appendix 4C – Q2FY21 Quarterly Cash Flow Report

#### Highlights:

- Quarterly cash receipts from customers remain strong despite COVID-19, at NZ\$4.7M—subscription receipts up approx. 16%
- NZ\$64.3M cash on hand at end Q2FY21
- Unaudited revenue for H1FY21 of NZ\$9.5M, up 38% on H1FY20; subscription revenue up 71%
- As previously reported, Annual Recurring Revenue is NZ\$19.9M, ARPU is US\$1.16
- Churn remains negligible; US coverage remains approx. 27%
- FDA update on breast density reporting requirements remains pending

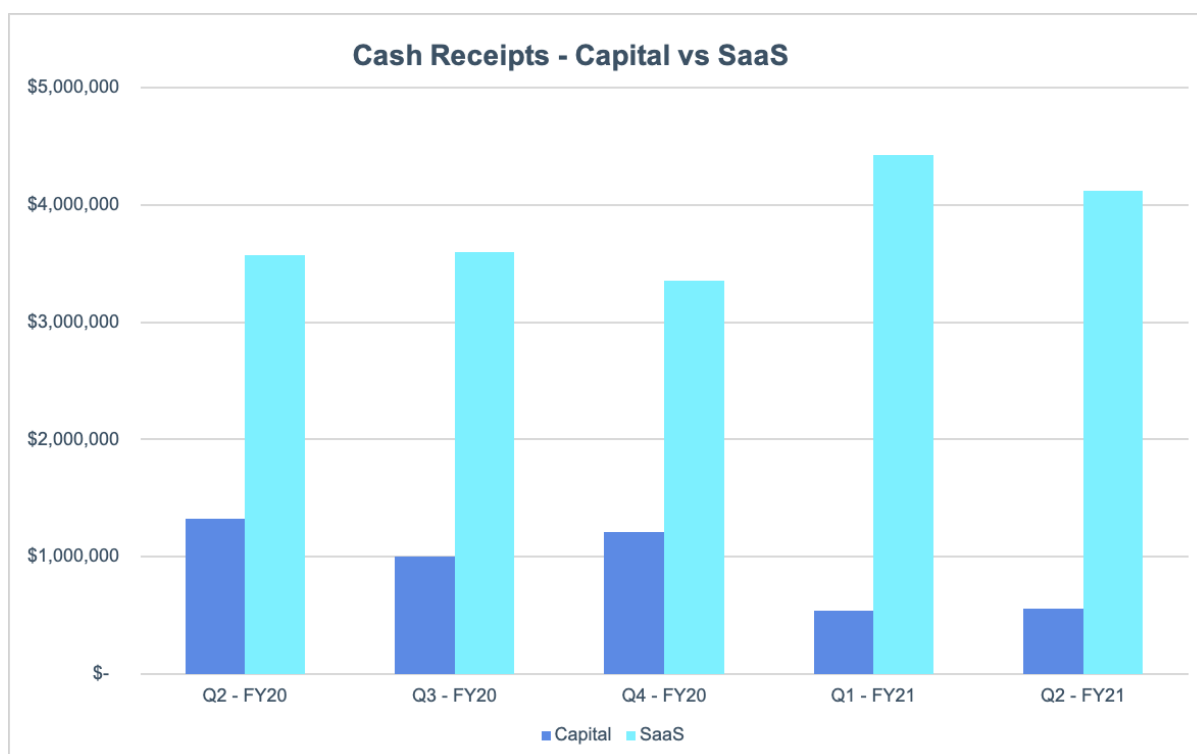

Wellington, NZ, 28th October 2020: Volpara Health Technologies (“Volpara,” “the Group,” or “the Company”; ASX: VHT), a health technology software company whose integrated breast care platform assists in the delivery of personalised patient care, has released its Appendix 4C Quarterly Cash Flow report for the quarter ending 30 September 2020.

Cash receipts from customers have remained strong despite COVID-19, with NZ\$4.7M received in Q2. This represents Volpara’s fifth straight quarter with cash receipts from customers greater than NZ\$4.5M.

Dr Ralph Highnam, the Group CEO of Volpara Health Technologies, said, “We see little material changes in our overall cash receipts due to COVID-19, which shows the resilience of our industry and business model.”

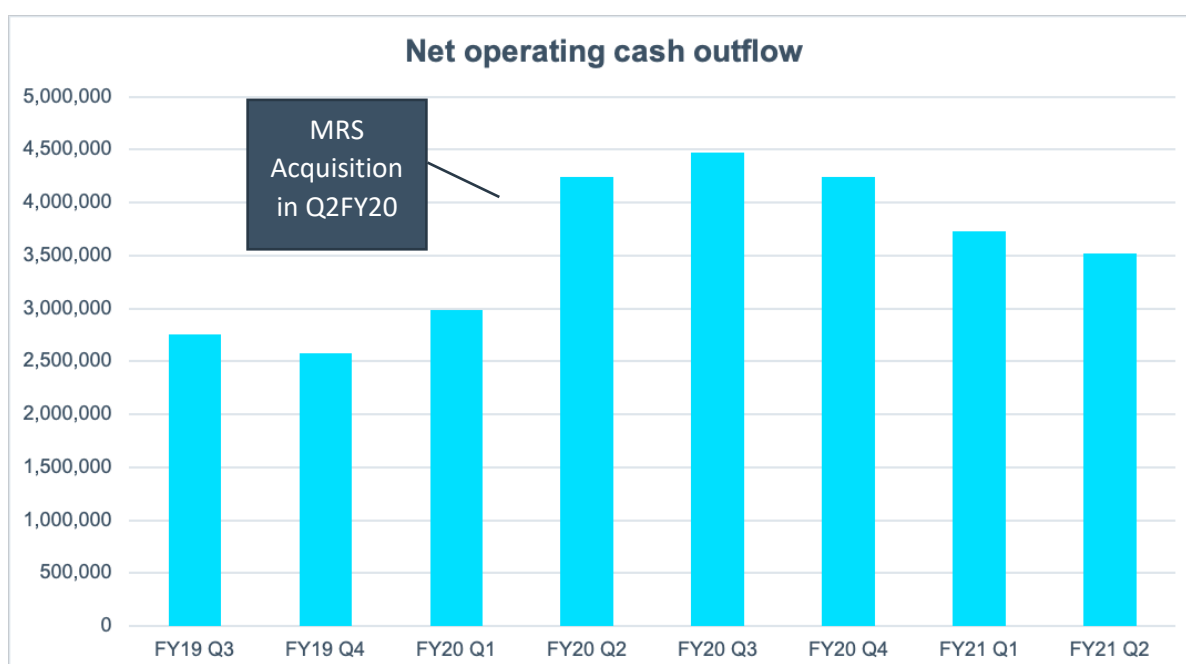

Cash receipts were down 4 percent compared to Q2FY20 due to our continuing transition from a capital model to a SaaS model for sales of our MRS patient management software. However, cash receipts for the half-year were up 33 percent. Importantly, and as shown below, receipts in Q1 and Q2 FY21 have seen strong inflows from subscription customers, which were up 16 percent year on year in Q2FY21.

Dr Highnam said, “Recurring business is a strong indicator not only of an industry responsive to change but of innovative products continuing to meet the needs of customers during a challenging time.”

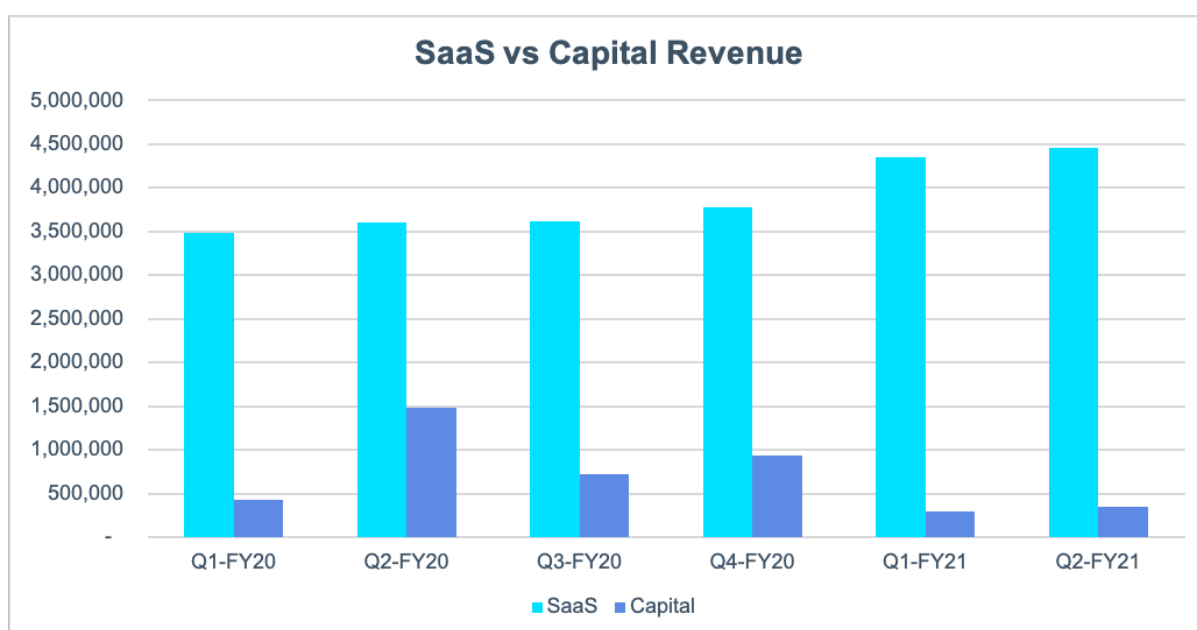

Net operating cash outflow in Q2 was NZ\$3.5M, less than projected and the lowest since Volpara's acquisition of MRS Systems, Inc., in June 2019. This continues the downward trend in cash outflows, despite the US dollar weakness, reflecting consistent cash receipts from customers and control of costs, as shown below.

The Company had NZ\$64.3M cash on hand at the end of Q2.

Unaudited revenue for the period ended 30 September 2020 totalled NZ\$9.5M, up 38 percent from NZ\$6.8M in the prior corresponding period, however if it were not for the non-cash one-off deferred revenue adjustment, revenue would have been NZ\$10.0M or up 46% over the same period. As with cash receipts, there has been a material increase in revenue associated with the SaaS model versus the capital model (see chart below). Revenue associated with the capital model increased in Q2FY20 after the acquisition of MRS. But since Volpara implemented a switch to subscription contracts, capital revenues have been declining while SaaS revenues have begun increasing at a faster pace.

The payments to related parties of the entity and their associates identified in item 6.1 of the Appendix 4C are payments made to a Director, Karin Lindgren, for legal services she provided to the Company.

In other news, we have informal reports that the next update on the US FDA regulations on breast density reporting will be delayed from the end of October as initially indicated to later in the Northern Hemisphere's autumn. We will notify you as soon as we learn more, acknowledging everything going on in the United States right now.

Of Q2, Dr Highnam said: "It has been a remarkable quarter. We've followed a key company value of 'being bold.' We've changed the way we do business and put digital marketing expert Katherine Singson in charge of our US commercial activities to tackle the implications of COVID-19 head on. Despite the virus, we've maintained sales momentum and released key new software. We're very pleased with our current situation, but we are fully aware that COVID-19 is still potentially disruptive to all businesses in any sector."

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
