intelliHR Limited (ASX: IHR) is pleased to report in Q1 a 20% increase in Annual Recurring Revenue, and a 10% increase in Cash Receipts due to stronger new customer acquisitions (up 17%), and increased professional services revenue up 96% on the previous quarter. Record contracted customer headcount was achieved with a 36% increase, with total paying customers increasing to 127. The business has continued to see strong customer and revenue retention with 99% customer retention across Q1. Customer Receipts remain strong with no bad debts. intelliHR now supports businesses across 16 countries.

Financial Performance - Higher Cash Receipts

Annual Recurring Revenue increased during Q1 by 20% from \$1.95 million to \$2.34 million. This strong growth was achieved thanks to the acquisition of a record 19 new paying customers increasing total contracted customers to 127, 17% higher than Q4.

Q1 saw the addition of leading disability services provider, Scope Australia signing a 3 year contract, introducing significant new headcount to the intelliHR platform, this revenue will commence during Q2. Scope's addition deepens intelliHR's penetration into the healthcare and services sectors in Australia with this now accounting for 23% of ARR. Scope Australia joins another recent enterprise conversion, Penske Australia and New Zealand, along with other longer-term enterprise accounts - My Health, Fujitsu, Contact Energy and DBM Vircon amongst others. It is encouraging to see these conversions leading to a strengthening enterprise customer sales pipeline.

Q4's strong sales performance drove an increase in cash receipts from customers which were up 10% to \$0.53 million from \$0.48 million in Q4. This was further supported by a 96% increase in professional services revenue in Q1.

"Having intelliHR has been like having an extra person in the HR team.

I'm practically living in the dashboard and global analytics screens."

Emily Bates, Global People Manager, DBM Vircon

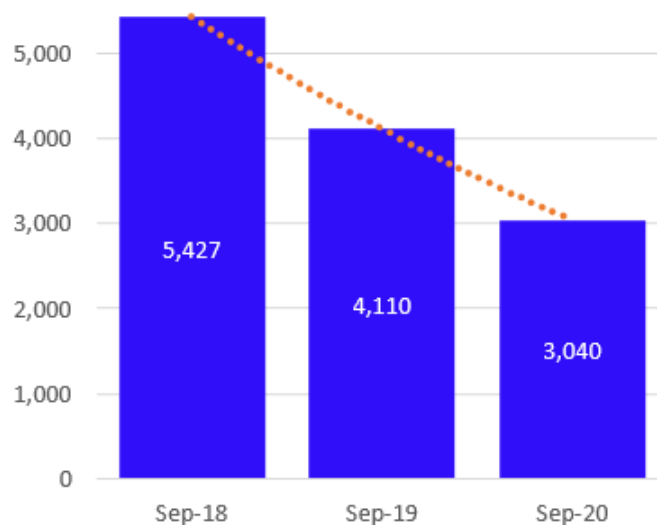

Financial Performance (cont)

The business has continued to see encouraging levels of revenue retention with 99% customer retention during Q1. Whilst IntelliHR revenues have been insulated from the impact of Covid, we note that those few customers who did experience a sudden reduction in headcount, have not yet recovered back to pre-covid employment levels. Despite this IntelliHR's 12 mth retained revenue level still sits at the healthy level of 104%.

Net cash used in operations for the quarter totalled \$0.9 million, a 13% improvement on the corresponding period in FY20, due to growth with cost control, cash management measures and improving revenues.

During Q1 IntelliHR completed a successful rights issue and a private placement to the Bevan Slattery Family Trust, generating net cash inflows of \$5.75m. Supported by continuing growth in receipts from customers, a reduced cash burn has seen IntelliHR establish a strong forward cash position of \$7.595m at the end of Q1. IntelliHR also received in early October (Q2) an R&D tax incentive refund of \$626,444 for the 2020 financial year, increasing cash reserves to \$8.1m following its receipt on 6th of October.

Customers and Global Growth

A strengthened cash position allows IntelliHR to continue expanding sales and marketing efforts in the APAC region, along with further investment into the recently established North America Sales Team – the objectives are to:

- ✓ Accelerate global expansion beyond existing 25% of ARR accounted for by offshore activities
- ✓ Increase marketing investment in the Americas following the recent launch of the IntelliHR Toronto Canada
- ✓ Additional capacity to be brought online as required to meet growth opportunities

As Q1's accelerating sales growth suggests, IntelliHR is well positioned to support the global shift to 'Work from Home', which organisations can better manage using IntelliHR's platform tools for continuous feedback, performance enablement and wellness capabilities. Our Net Promoter Score (NPS) continues to be maintained at a world class level of 74 with IntelliHR supporting customers across 16 countries.

There are no outstanding receivables considered to be at risk confirming the quality of IntelliHR's customer base. Total contracted paying subscribers have increased 36% during Q1 to 19,579, an increase of 5,228 additional subscribers.

As the impact of the Covid-19 event has lessened in Australia we have seen new customer demand for the Covid-19 essential platform fall. With this in mind we have stopped promoting our Covid Essential offering and started testing new freemium eNPS and Wellbeing options to support increased lead generation. During Q1, an additional 2 customers were added as freemium users and 3 freemium customers converted to our full strategic HR platform.
