

Quarterly Activities Report and Appendix 4C Quarter ended 30 September 2020

About Threat Protect

Threat Protect provides monitored security solutions that ensure the safety of Australian homes and businesses 24 hours a day, 365 days a year.

We have the highest security accreditation possible to achieve in Australia and use only state-of-the-art technology and equipment.

Our commitment to providing a complete end to end service is second to none, whether you own a small apartment or giant multi-national headquarters.

- Monitored Security Systems
- Security Personnel
- Corporate Risk Consultancy

We call it **"Security Without Compromise"**.

GROWTH STRATEGY

The Australian security industry is highly fragmented and Threat Protect believes is conducive to consolidation, given its stable revenue streams and fixed infrastructure cost model.

Threat Protect's growth strategy is focused on leveraging the largely fixed cost infrastructure and significant capacity of its existing extensive security control room through acquisition of monitored security client bases across Australia.

Threat Protect Australia Limited ("**Threat Protect**" or "**Company**") (ASX:" **TPS**") is pleased to provide its quarterly market activity update.

HIGHLIGHTS FOR THE QUARTER

- Operating revenue of \$6.4m was in line with the prior quarter after taking into account end of year accounting adjustments.
- Receipts from customers of approx. \$7.2m remain consistent with prior quarters and reflect no deterioration in debtors during these COVID times.
- Gross margin improved by \$510,000 to \$2.7m driven by cost reductions in monitoring.
- Adjusted EBITDA before acquisition and integration costs improved by \$518,000 to \$1.3m for the quarter, being 20% on revenue.
- Integration costs have reduced quarter on quarter by \$296,000 to \$354,000. These items are expected to continue to reduce.
- Operating cashflow for the quarter was \$1.4m before acquisition and integration cash outflows of \$366,000 and interest and other costs of finance of \$610,000. Net cash from operations was \$432,000.
- The company has \$3.45m of cash at 30 September 2020.

Operating Revenue

Monitoring revenue up \$121,000 on last quarter, offsetting a lower revenue from Protective Services. The gross margin effect of the reduced revenue in Protective services was not significant due to the variable cost structure. Improvement is expected in Protective Services revenue following a recommencement of training services following the COVID shutdown period.

Results of the Cost Committee

Since the establishment of the cost committee in February, \$351k per month of ongoing costs have been cut to date representing a \$4.2m increase to EBITDA on an annualised basis. A further \$90k per month (\$1.1m per annum) of savings

through operational efficiencies have been identified to be delivered within the first half of FY21.

Synergies are being derived from consolidation of administration functions and operational systems. As a result, acquisition and integration costs have significantly reduced.

Black Crane Loan Note

The Black Crane Loan Note of \$6.5 million was replaced by 6,500,000 Convertible Notes after approval at a General Meeting of shareholders held on 31 July 2020.

Listing Rule 4.7C.3

In item 6 of the Appendix 4C cash flow report for the quarter, payments to Related Parties of approximately \$286,000 comprised fees to executive and non-executive directors and their related parties' remuneration. Of this, \$137,000 comprised a termination payment to Paolo Ferrara following his resignation on 11 May 2020 and \$52,000 comprised backpay paid to directors relating to the previous quarter.

Cash at Bank & Summary of Cash Flows

Cash at bank at the end of September 2020 was \$3.45m, compared with \$4.1m at 30 June 2020. Net cashflow from operating activities was \$432,000, up from (\$247,000) for the previous quarter. The main variances were integration and acquisition costs reduced by \$194,000, and interest and other costs of finance paid down \$691,000 due to the payment of two quarters of interest in the prior quarter as part of the adjustments to financing arrangements.

Net cash used in investing activities was up \$334,000 to \$1.0m due the payment of contingent consideration. Net cash flows from financing activities were down (\$4.2m) from \$4.1m for the previous quarter due to no financing activities undertaken in this quarter.

Guidance

The Company notes that it remains on track to achieve its FY 2021 revenue and Normalised EBITDA guidance, as advised to the market on 6 August 2020.
