- ▲ FDX will seek continued extension of the self-imposed ASX suspension to allow for resolution of funding and subsequent lifting of self-imposed suspension of the Company.

### Star Diamond Mine

A new management team has been appointed to develop the Star Mine following the termination of the current contractor, FMP, effective on 19 December 2019. The initial mine work program includes the dewatering of the flooded underground sections and establishment of stopes. The total estimated costs to restart operations at Star is expected to be A\$3m and is subject to the Company finalising a re-listing. This will include the dewatering, stope establishment, and skip loading capacity to support 6,000 tonnes of primary fissure production per month. The preliminary work done to date indicates that the production milestones confirmed in the original November 2017 Competent Persons Report are realistic and achievable.

More detail confirming the mine work program and the restart of Star Mine will be provided by FDX as progression milestones are achieved. All the rough diamonds from the run of mine (ROM) production will be sorted into different categories, selected diamonds polished and the resultant rough and polished diamonds will be sold through the Global Blom Diamond Platform thereby optimising the returns for FDX. Any future processing by Global Blom Diamonds will be subject to an agreement approved by shareholders of FDX.

### **Sedibeng Mine Sale**

On 30 January 2020 the Company announced the sale of the Sedibeng Mine to former Managing Director Jan Louw. This will be by way of an offset to the funds owed to Mr Louw and his related Company, Frontier Mining Projects ('FMP') of ZAR 122,194,299 (or ~US\$7.5 million equivalent) and a settlement amount for ZAR 5,000,000 (or ~US\$325,000 equivalent) cash consideration to be paid to FMP.

The sale of Sedibeng Mine to Jan Louw and associates is a pivotal step in the financial solvency of FDX. The sale will eliminate considerable debt of ZAR 122,194,299 (or ~US\$7.5 million equivalent) which leaves the Company with minimal liabilities associated with South African operations. In addition, FMP will be paid cash consideration of ZAR 5,000,000 (or ~US\$325,000 equivalent). The sale includes the projects located at the Sedibeng Mine, which consists of the Mine, Tailings Plant, and the Bellsbank Pit as an offset against all outstanding loans to FMP along with all liabilities sitting in the entities that hold the above assets. The sale of Sedibeng is subject to all regulatory approvals including an exemption from the Takeover Regulation Panel, to the extent applicable the Competition Commission approval and the written consent of the Minister of mines.

### **Conversion of Debt to Equity & Extended Loan Terms**

The Consolidated Entity's liabilities as at 31 December 2019 were A\$20.1m, which comprises A\$7.4m in loans and convertible notes (excluding amounts owed to FMP), A\$1.2m in trade and other payables (excluding amounts owed to FMP), and A\$11.4m of amounts due to FMP (subject to off-set of sale of Sedibeng to FMP).

The Company has successfully entered into agreements to convert A\$7.2m into 796,880,072 ordinary fully paid shares in the Company, which includes A\$0.7m of trade and other payables and A\$6.95m of loans and convertible notes. The conversions are subject to shareholder approval and completion of the Entitlements Offer.

The Company will additionally be required to repay \$654,000 in creditor and loan repayments following the restructure and ~A\$0.5m as cash consideration in the sale of Sedibeng operations. The repayment of these balances are subject to the Group completing the Entitlement Issue and completion of the Sedibeng operations sale, with agreements in place to defer repayment until the Company is in a position to do so.

In this context, the Group has entered into agreements for A\$8.6m of total liabilities to restrict repayment of amounts payable to creditors, lenders, and noteholders until the Group is in a position to settle the amounts by way of conversion or repayment as noted above.

During the period until the Company is relisted, it has secured from AMR Blom a loan facility of A\$3m (US\$1.95m) in October 2019, which will be offset against the any underwritten amounts in the future Entitlement issue.

In addition, the Group had entered into a US\$1.7m convertible note facility with BLOM Diamond Trading DMCC ("BLOM DMCC") in March 2019 to provide capital project funding and working capital. The Company has incurred ~A\$2.1m, included in amounts owed in loans and convertible notes above of \$A7.4m above, as at 31 December 2019 in costs in maintaining the Star Mine under care and maintenance. The lenders have agreed to convert the amounts payable to shares, subject to shareholder approval.

### **Suspension of Listing Request Extension**

The Company requests that the voluntary suspension of the Company's securities (FDX) first granted on 27 December 2018 continues in place.

The Company remains in discussions with a view to updating the market on its financial position and operations, and requires further time to finalise its funding strategy.

The extension of the voluntary suspension is requested until in consultation with ASX an announcement is made to the market in relation to the update.

The Company is not aware of any reason why the extension of voluntary suspension should not be granted.
