8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

The Company does not expect to have continued negative operating cashflows in future periods. As outlined in paragraph 1.6 of the Company's prospectus dated 22 May 2020, the company has paid Interest on Convertible Notes of \$1,761,000 from monies raised under the prospectus. In addition, one-off costs of the offer of \$341,000 have been paid out of operating cashflows.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company is in advanced negotiations with a financial institution to refinance existing facilities at a substantially reduced coupon and with an extended repayment period. The Company believes this is likely to be executed.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

After adjusting for the one-off payment of interest on convertible notes and the costs of the offer as outlined at 8.8.1 above, the company is in a positive operating cashflow position. The Company expects to be in a positive operating cashflow position on an ongoing basis.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
