- Operating cash outflow of \$554k, net cash increase of \$146k due to successful capital raise
- Completed \$700k capital raise with funds to be used to pursue growth strategy – New products in RPM market and growth through acquisition
- Lodgement of medical cannabis cultivation licence in New Zealand
- Convertible Note approved reducing financing costs
- Non-Executive director appointed
- Binding term sheet signed with MyFiziQ in early October to integrate the CompleteScan platform to Jayex Connect, adding to Jayex suite of products in the RPM market

**Melbourne, Australia; 29 October 2020:** Jayex Healthcare Limited (ASX:JHL)(Jayex or Company), a leading UK and Australian e-health provider of integrated SaaS healthcare services delivery platforms, today released its 4C – Quarterly cash flow report for the quarter ended 30 September 2020 (the Quarter).

COVID-19 continued to impact the global economy in the third quarter of 2020. In the UK, Jayex's largest market, the frontline COVID initiatives undertaken by the NHS had an impact on demand. As a result, cash receipts in the third quarter were \$1.58M.

Despite a softer third quarter, cash receipts for the nine months year to date stand at \$6.72 million, compared to \$6.94 million at the same time last year, with a strong first half performance offsetting the impact felt in the third quarter.

Furthermore, during October the company experienced a strong improvement in trading during September, which has continued into October and the trend is expected to continue in Q4, reflecting the underlying demand for Jayex's products and reflecting the ability for healthcare organizations to now manage COVID-19 compared to earlier in the pandemic.

The company reported a net operating cash outflow of \$554,000. This included a one-off payment of \$300,000 for a medicinal cannabis licence as detailed below.

#### Whakaora Hou Pty Ltd

Jayex has worked with its wholly owned subsidiary Whakaora Hou Pty Ltd to enable it to lodge an application for a Medicinal Cannabis Licence under the New Zealand Misuse of Drugs (Medicinal Cannabis) Regulations 2019 during the Quarter. Jayex funded this application at a cost of \$300,000 and WHL now has a completed and ready to use facility near Auckland.

## Capital Raise

During the quarter Jayex raised \$700,000 in a placement with institutional and sophisticated investors which was finalised in September. This resulted in a net increase in cash of \$146,000 for the Quarter.

The raise was strongly supported by new and existing shareholders and provides funding to enable Jayex to continue to pursue its two-pronged growth strategy of product expansion and growth through acquisition.

## Pursuing growth strategy

Remote patient monitoring (RPM) is at the forefront of Jayex's product expansion strategy. As part of this strategy the Company is launching a new product, Jayex Fit to Work, powered by BodyTel for the remote monitoring and management of fever and flu-like symptoms. The license for the product is with Lifespot Health Ltd (ASX:LSH) and the launch will occur in November this year.

In early October, Jayex signed a binding term sheet with MyFiziq to integrate the CompleteScan platform into Jayex Connect. The CompleteScan platform enables patients to collect and submit personal data such as dimensions and other health information. The platform adds new functionality and innovative features to the Jayex Connect platform, enhancing the ability for GP's and healthcare providers to improve interactions with patients and improve efficiencies. This, along with their agreement with Lifespot, is an important step in Jayex's shift to RPM and the pursuit of this strategy.

Jayex is currently considering potential acquisition targets and will update the market in due course.

## Convertible note

On 29 September, shareholders approved the issue of convertible notes to major shareholder Covenant Holdings (WA) Pty Ltd (Covenant) which is a company controlled by Jayex's Executive Chairman, Mr Michael Boyd. Covenant had advanced loans to the company for general working capital purposes and pursuant to the Convertible Note Deed, Jayex and Covenant agreed to convert the debt to Convertible Notes. Accordingly, the company has issued 3,000,000 Convertible Notes with a face value of \$1.00 per Convertible Note. This has reduced the interest cost on funds used by the Company.

## Non-exec director appointed

Jayex welcomed Mr Nick Harper to the board in September as Non-Executive Director. Nick's experience in software development has enhanced the leadership capability of the company. Nick has over thirty years' experience working in software development. During that time, he has worked in the public sector, investment banking and the aviation industry in a wide variety of roles and with varied responsibilities from batch valuation systems to real-time data processing and most recently product ownership. Based in the UK, Nick also has extensive experience of project management and software team building.

## Outlook

In a challenging and unprecedented economic environment, Jayex is well placed and funded to continue to further develop its growth strategy.

**Payments to related parties of the entity and their associates** during the quarter were \$70,000 comprising of Director fees as outlined in the Appendix 4C.
