## Quarterly Activities Report & Appendix 5B

### Quarter Ending 30 September 2020

Lustrum Minerals Limited (ASX:LRM) (**Lustrum** or, the **Company**) provides a summary of its activities for the three months ending 30 September 2020 (**Period**).

#### Status of Company Operations

Lustrum's securities remain suspended.

Notwithstanding the suspension of its securities, the Company has continued to pursue a number of opportunities to create shareholder value.

#### Consuelo Coal Project

As detailed in the quarterly activities report for the period ended 30 June 2020, the Company engaged SRK Consulting (Australasia) Pty Ltd (**SRK Consulting**) to complete an independent technical report on the Consuelo Project.

The Consuelo project is comprised of three granted Exploration Permits for Coal (EPCs 2327, 2318 and 2332) (**the EPCs**), located south of the town of Rolleston in central Queensland's Bowen Basin near the Rolleston thermal coal mine.

During the previous quarter, SRK Consulting provided Lustrum with a preliminary report designed to assist Lustrum with internal strategic decision making regarding future activities on the Consuelo EPCs. The preliminary report reviewed previous exploration work conducted on the EPCs, including work completed by Lustrum. The SRK Consulting report concluded that the exploration program commissioned by Lustrum in 2018 was executed competently and that the data acquired was reliable.

The Board of Lustrum has reviewed the report and updated forward plan for the project on the basis that the Company will maintain its interest in the Consuelo project, with modest exploration and evaluation works. In addition, the company has continued to pursue all options and opportunities to advance other business development opportunities.

#### Copper Projects in Canada and Namibia

On 23 July, the Company announced that it has entered into a binding term sheet to acquire a portfolio of high-grade copper claims in Canada and three prospecting licences (prospective for sedimentary Cu-Ag mineralisation) along the prolific Kalahari Copper Belt in Namibia.

The acquisition is conditional on the Company obtaining all necessary regulatory and Shareholder approvals to effect the Proposed Acquisition and satisfying all other requirements of ASX for the reinstatement to official quotation of the Company's Shares on the ASX. On completion, the Acquisition will amount to a

significant change in the nature and scale of the Company's current activities and as such, the Company obtained approval from its shareholders at a meeting held on 30 September and is working with the ASX ensure that the company is able to re-comply with Chapters 1 and 2 of the ASX Listing Rules.

As part of the acquisition, the Company issued a prospectus for a public offer of shares to raise a maximum of \$4,500,000 (**Maximum Subscription**). The Company received applications in excess of the Maximum Subscription under the public offering and is working towards reconciling the amounts with the Company's share registry in order to complete the placement and move towards finalising the acquisition and lifting the suspension of its shares on the ASX.

A summary of the material terms and conditions of the acquisition is set out in the Company's ASX announcement date 23 July 2020. The Prospectus providing the full details of the opportunities and risks to investors of the public offering was released via an ASX announcement on 16 September 2020.
