

ASX Announcement

September 2020 Quarterly Activity Report & Appendix 4C

29 October 2020

Key events in the quarter

- On 13th July, Race announced that it had received A\$3 million (before costs) in new equity funding via a strategic placement of five million shares at an issue price of \$0.60 per share. The placement was made to three prominent biotechnology investors, Kidder Williams' David Williams; EFM Asset Management's Jeff Emmanuel and the Merchant Opportunities Fund, following their initial \$1.8m investment in March 2020.
- On 15th July, Race released an updated investor presentation, summarising the Israeli trial of Bisantrene for relapsed / refractory AML patients which reported an impressive 40% response rate. The presentation also covered the significance of the identification of Bisantrene as a potent inhibitor of the Fat mass and obesity-associated (FTO) protein by the City of Hope Hospital USA. This update provided a review of the 5-path strategy and update on expected near term clinical and preclinical news.
- On 22nd July, Race announced it had secured a new patent in the US. This fourth granted US patent supported additional claims around the use and therapeutic benefits of Bisantrene.
- On 12th August, Race announced that the strategic investors who had supported the July \$3.0 million placement acquired 6 million unlisted options from the former Managing Director, Peter Molly, which were exercised 11 months early. This not only brought in \$1.5 million in cash, but this investment removed a potential share overhang and provides Race with further capital to fund its clinical programs.
- On 2nd September, Race announced an expansion to its leadership team with the appointment of Phil Lynch as CEO & Managing Director. Mr Lynch, in partnership with Dr Daniel Tillett, the Chief Scientific Officer and Executive Director will together lead Race's strategic agenda. Dr John Cullity returned to his former role of Non-Executive Chairman with a continued focus on governance, pharma partnerships and commercial transactions.
- On 18th September, Race announced the appointment of the clinical and regulatory affairs advisor, CCS Associates (CCSA) to review Race's clinical programs. Their focus will be on identifying optimal development options for Bisantrene, targeting FTO. CCSA will also support the planned FDA IND process.

Summary of cash flows and quarterly activity

As at 30 September 2020, Race held cash and cash equivalents of \$5.66 million, compared with \$1.73 million at 30 June 2020. The change in cash balance reflects proceeds received during the quarter from a \$3 million private placement and a further \$1.95 million received from conversion of options (inclusive of the \$1.5 million from early exercise of former Managing Director options). Proceeds from the equity funding were net of transaction costs. Net cash used in operating activities was \$0.843 million, a decrease from \$0.944 million in the prior quarter. This was represented by a reduction in research and development costs of \$127k an increase in product manufacturing and operating costs of \$60k, a decrease in staff costs of \$178k and an increase in administration and corporate costs of \$55k (related primarily to an insurance and legal costs).

Shareholders by range

Given recent interest from shareholders, Race is pleased to provide an update on the current share register which continues to grow with increased investor outreach, the release of new Bisantrene clinical data and increasing market awareness of the FTO opportunity. A snapshot of the current share register (ordinary shares) as 30th September 2020 is below:

Holding Ranges	Holders	Total Units	% Issued Share Capital
Above 0 up to and including 1,000	230	149,396	0.12%

Listing Rule 4.7C.3

Payments during the September quarter to Related Parties amounted to \$95k, comprising payments for services to executive and non-executive directors.

Post quarter event: Director resignations

On 28 October, Race announced that Dr Bill Garner and Mr Chris Ntoumenopoulos had resigned from their Non-Executive Director roles. Bill and Chris as founding directors have been an asset to Race and the Board thanks them both for their longstanding commitment to the Company.

Management commentary

Race CEO Phillip Lynch said: "I'm personally excited to be joining Daniel in leading the Race business and doing so at a pivotal time as we shape and move to executing our strategic plan. The team feels uniquely positioned to capitalise on the significant pre-clinical data published by City of Hope on the potential for Bisantrene to have a pivotal role as an FTO inhibitor, key to many forms of cancer. The team will be sharing proposed next steps on FTO and the broader Strategic plan at or before the forthcoming AGM."

Race CSO Daniel Tillett said: "FTO represents a hugely exciting opportunity for the company. I am looking forward to sharing the results of the CCSA strategic review with all our shareholders in the very near future."

Race Non-Executive Chairman John Cullity said: "I'm particularly pleased to see the new leadership team in Phil & Daniel taking charge and moving to capitalise on the FTO opportunity and related strategic opportunities. We are now well capitalised to pursue near in plans and look forward to updating the market in more detail at the forthcoming AGM."
