## QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDING 30 SEPTEMBER 2020

### HIGHLIGHTS

- Black Dragon completes placement raising AUD\$1,500,000 at AUD\$0.07 per CDI
- Proceeds to be used to towards progression of Salave Gold Project in North-West Spain, costs incurred in connection with due diligence for complementary projects, general working capital and costs of the capital raising
- Administrative and exploration costs have been kept to a minimum

Black Dragon Gold Corp. (ASX:BDG) ('Black Dragon' or the 'Company') is pleased to provide the following activities report that outlines the progress made and reported during the September quarter 2020. The Company and management continue to prepare the Environmental Impact Assessment ("EIA") and operate at a functional level while keeping administrative and exploration costs to a minimum. The Company's progress in Spain has been slowed down by the impact of COVID-19.

### ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR SALAVE PROJECT

In the first quarter this year, after receiving the Terms of Reference from the Environmental Ministry of the Principality of Asturias, the Company's wholly owned subsidiary, Exploraciones Minera del Cantábrico ("EMC") commenced the preparation of the final Mine and Restoration Plan, which will be followed by the EIA. Significant progress had been made in assessing water management of both the terrestrial and marine domains. Nevertheless, the impact of Covid-19 has brought the whole country, since early March, to a complete lockdown of the population. This has also meant that businesses and regulatory authorities in Spain have slowed down with no clear deadline of resumption of normal activities.

The current situation has resulted in a significant delay of EMC's activities to perform test-work and field-specific studies required for the EIA. The impact of the pandemic on the timing of our EIA submission is unclear at present, but the Company will continue to provide regular updates on our progress. At present we are anticipating the lockdown may last several weeks and possibly longer before normal business activities resume.

## CAPITAL RAISING

During August 2020, the Company allotted 21,428,572 ordinary shares in the form of CDIs at an issue price of AUD\$0.07 per CDI to raise a total of AUD\$1,500,000.

The proceeds of the Placement are intended to be applied towards:

- (i) progressing development of Salave Gold Project in North-West Spain;
- (ii) due diligence investigations on potential complementary resource project acquisitions;
- (iii) general working capital; and
- (iv) costs of the capital raising.

## RELATED PARTY COSTS

During the period, the Company cleared outstanding director fees that had previously been accrued with a total of CAD\$57,855 paid to directors as a related party cost. This outflow related to director fees and for direct reimbursement of overheads relating to office costs and staff.
