REVIEW OF OPERATIONS

Achievements during the reporting period were technical in nature, focused on advancing the Company's proven prototype technologies into a mass-production product. The primary focus of the period has been an intensive effort overcoming what are believed to be the final technical hurdles required for technology demonstration and advancement of our revolutionary MEMS digital speaker to volume production.

Prior reports including a technical presentation provided at the most recent AGM (May-2020), delineated several challenges attaining defect free, properly functioning MEMS transducers. We specifically highlighted certain fabrication issues that caused functional failure as well as a diversity of development activities required to achieve demonstration of our technology. Despite renewed COVID related lockdown and restrictions the objectives were mostly achieved within the projected timeline. The company now has two distinct technological demonstrators operating within the confines of our cleanroom:

1. The first involves our core single chip product which exhibits the products revolutionary capabilities to reproduce frequencies previously considered to be impossible in speakers of similar size and form factor.
2. The second is a multi-chip demonstrator confirming the linear modularity of our technology. This demonstrator uses multiple chips (at this time up to 4 chips) to validate the platform's capability to attain virtually any desired acoustic performance output through the use of multiples of our single chip.

The combination of both demonstrations provides critical and verifiable indicators that enables the company to intensify its engagement with the marketplace, a process that is already underway.

As informed previously, demonstration outside the cleanroom as well as compiling performance data in accordance with industry practices necessitates the chips to be assembled and packaged. This effort while hampered by COVID-19 related restrictions is proceeding with the maximum expediency possible. The Company has posted on its website (www.audiopixels.com.au) a recording of a chip playing inside the clean room. Notwithstanding the considerable background noise generated by fan filters (FFU's) of the cleanroom, the chip clearly demonstrates the chips frequency range and clarity of sound.

Achievement of these development milestones enables the company to intensify our focus on optimization of the product and its manufacturing process in order to advance quantity production of our first generation of product(s).

This announcement has been authorized for release to ASX by Fred Bart, Chairman.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
