## September 2020 Quarterly Activities Report

The Board of Murray Cod Australia Ltd (MCA) is pleased to provide the following update of operational and sales progress in conjunction with the release of the MCA quarterly cashflow report.

### **HIGHLIGHTS**

- **Sales growth of 21.5% over June 2020 quarter**
- **Average sale weight of 1.57 kilograms per fish**
- **First ponds at new Whitton site stocked**
- **Significant boost in hatchery spawnings**

### **Total sales increase of 21.5% to June 2020 quarter**

Total sales grew 21.5% for the quarter ending September 2020 compared to the June 2020 quarter. Domestic sales have increased significantly since March 2020 when exports effectively ceased as a result of the COVID-19 business shutdowns.

### **Grow-out performance**

The 2020 calendar year has seen excellent growing conditions, that have allowed stock to perform well. Fish growth and health in the ponds has been in-line with expectations for this period. Growth has increased as we head into the warmer weather and we expect this to continue into the summer months as temperatures continue to increase.

## Hatchery performance

The recent acquisition of a second hatchery has given MCA a significant boost in hatchery capacity. Both hatcheries have already had good numbers of early Murray cod spawnings and will commence breeding golden perch and silver perch in early November. The team look forward to an excellent season.

## Domestic sales

Average sale weight for the quarter was 1.57 kilograms per fish. This is a drop but reflects the higher amount of live fish at lower weights that were sold and the softening of the restaurant market

MCA has continued selling live Murray cod domestically. Sales are tracking ahead of target and we are now servicing markets into New South Wales, Victoria and South Australia, weekly. We see the live market as a moderate area of growth for MCA.

## Export performance

Prior to Covid-19, MCA was shipping weekly to Japan, Europe and the USA, with regular shipments also being made to Singapore and Hong Kong. Exports are temporarily halted. During the September quarter MCA re-entered the export market with smaller regular shipments to the USA and Japan. During October however Japanese orders have gone on hold again and USA orders remained at small levels. We have maintained our direct sales presence in USA and have continued marketing activity in that market.

We expected shipments to Europe to begin in the December 2020 quarter. However recent news of new lockdowns in France and Germany may affect those plans.

Last quarter we reported the management team had investigated the logistics of delivering a high-quality frozen product to service export markets. We have not implemented this strategy yet as we continue to communicate with our distributors about the appropriate timing of entering Covid-19 affected export markets.

## First ponds at Whitton site stocked

The first four ponds at the Whitton, NSW site have been stocked. Construction of the first stage of eight ponds is complete and we expect the remaining four ponds to be stocked in the December 2020 quarter.

The plan caters for 35 ponds that will effectively triple our current holding capacity. Construction on stage two is expected to commence during the first quarter of 2021.

## Conclusion

The management and board of Murray Cod Australia are very pleased with the significant progress that has been made operationally and the continued development of our domestic and export sales. We look forward to providing future updates to shareholders on our continued progress.

## Related party payments

During the quarter the following payments were made to related parties of the entity and their associates as disclosed in Item 6 of the Appendix 4C;
