LONDON — 29 October 2020 — Janus Henderson Group plc (NYSE/ASX: JHG; 'JHG', 'the Group') published its third quarter 2020 results for the period ended 30 September 2020.

Third quarter 2020 operating income was US\$156.5 million compared to US\$106.7 million in the second quarter 2020 and US\$143.6 million in the third quarter 2019. Adjusted operating income, adjusted for one-time, acquisition and transaction related costs, was US\$162.1 million in the third quarter 2020 compared to US\$138.4 million in the second quarter 2020 and US\$160.2 million in the third quarter 2019.

Dick Weil, Chief Executive Officer of Janus Henderson Group plc, stated:

"Our third quarter results reflect solid long-term investment performance, improved flows, strong financials and a continuation of returning excess cash to shareholders.

"Importantly, we are making excellent progress toward our goal of building a strong and resilient foundation to support profitable growth. We are encouraged by the flow momentum we are seeing in several areas of the business, the unified culture of the firm, the ongoing efforts to simplify the way we operate our business and the support of new growth initiatives.

"It is clear that we are on the right path to success, and I am proud of the progress we have made as an organization toward achieving organic growth, driving greater profitability and building a business for the long term."

SUMMARY OF FINANCIAL RESULTS (unaudited) (in US\$ millions, except per share data or as noted)

The Group presents its financial results in US\$ and in accordance with accounting principles generally accepted in the United States of America ('US GAAP' or 'GAAP'). However, JHG management evaluates the profitability of the Group and its ongoing operations using additional non-GAAP financial measures. Management uses these performance measures to evaluate the business, and adjusted values are consistent with internal management reporting. See 'Reconciliation of non-GAAP financial information' below for additional information.

Diluted earnings per share	0.70	0.67	0.64

Third quarter 2020 adjusted revenue of US\$449.7 million increased from the second quarter 2020 result of US\$413.3 million due to higher average AUM, partially offset by lower performance fees. Third quarter 2020 adjusted net income attributable to JHG of US\$129.6 million increased 2% from US\$126.6 million in the second quarter 2020, as higher revenue was offset by an increase in operating expenses and lower net investment gains compared to the second quarter 2020.

DIVIDEND AND SHARE BUYBACK

On 28 October 2020, the Board declared a third quarter dividend in respect of the three months ended 30 September 2020 of US\$0.36 per share. Reconciliation of non-GAAP financial information

In addition to financial results reported in accordance with GAAP, we compute certain financial measures using non-GAAP components, as defined by the SEC. These measures are not in accordance with, or a substitute for, GAAP, and our financial measures may be different from non-GAAP financial measures used by other companies. We have provided a reconciliation of our non-GAAP components to the most directly comparable GAAP components. The following are reconciliations of US GAAP revenue, operating expenses, operating income, net income attributable to JHG and diluted earnings per share to adjusted revenue, adjusted operating expenses, adjusted operating income, adjusted net income attributable to JHG and adjusted diluted earnings per share.

¹ JHG contracts with third-party intermediaries to distribute and service certain of its investment products. Fees for distribution and servicing related activities are either provided for separately in an investment product's prospectus or are part of the management fee. Under both arrangements, the fees are collected by JHG and passed through to third-party intermediaries who are responsible for performing the applicable services. The majority of distribution and servicing fees collected by JHG are passed through to third-party intermediaries. JHG management believes that the deduction of distribution and service fees from revenue in the computation of adjusted revenue reflects the

pass-through nature of these revenues. In certain arrangements, JHG performs the distribution and servicing activities and retains the applicable fees. Revenues for distribution and servicing activities performed by JHG are not deducted from GAAP revenue.

- ² Adjustments primarily represent integration costs in relation to the Merger, including severance costs, legal costs and consulting fees. JHG management believes these costs are not representative of the ongoing operations of the Group.
- ³ Investment management contracts have been identified as a separately identifiable intangible asset arising on the acquisition of subsidiaries and businesses. Such contracts are recognised at the net present value of the expected future cash flows arising from the contracts at the date of acquisition. For segregated mandate contracts, the intangible asset is amortised on a straight-line basis over the expected life of the contracts. Adjustments also include impairment charges of our goodwill and certain mutual fund investment management agreements and client relationships. JHG management believes these non-cash and acquisition-related costs are not representative of the ongoing operations of the Group.
- ⁴ Adjustments primarily relate to contingent consideration adjustments associated with prior acquisitions and increased debt expense as a consequence of the fair value uplift on debt due to acquisition accounting. JHG management believes these costs are not representative of the ongoing operations of the Group.
- ⁵ The tax impact of the adjustments is calculated based on the applicable US or foreign statutory tax rate as it relates to each adjustment. Certain adjustments are either not taxable or not tax-deductible.
