

SEPTEMBER 2020 QUARTERLY REPORT

The Board of Fin Resources Limited (**ASX: FIN**) (**Fin** or the **Company**) is pleased to provide its Quarterly Activities Report for the period ending 30 September 2020, along with the Appendix 5B for the same period.

McKenzie Springs Project

The Company commenced its diamond drilling program at the McKenzie Springs Project, prospective for Nickel, Copper and Platinum Group Element (PGE) mineralisation. The program included three diamond drill holes (for a total of 850m) designed to intersect modelled strong high priority conductors defined from Fixed Loop Electromagnetic (FLEM) geophysical surveys.

On 26 October 2020, the Company announced preliminary results from completed diamond drillholes, namely FNDD001-003, completed for a total of 947.9m (see Table 1).

Encouraging results were received, with FNDD002 intersecting semi-massive to foliation disseminated sulphide mineralisation (pyrrhotite-chalcopryrite-pentlandite sulphides), brecciated quartz veining within sheared anorthosite and amphibolite from 277.25m. This intersection in FNDD002 corresponds to the electromagnetic (EM) conductor identified at this location.

Source of conductive anomaly targeted by FNDD001 yet to be identified. A two-metre interval (from 75.9m) in FNDD003 which intercepted a foliated sedimentary granulite with 25% visual disseminated sulphides is considered to be the source of the conductive anomaly which was targeted by this drill hole.

DHEM contractors are due to arrive on site next week with surveys planned for all drillholes. Results from the DHEM survey will assist in optimising further drill hole locations. The diamond core is currently enroute to Perth. Sampling of the drill core for assay has not been undertaken at this stage and will be completed following further geological, structural and petrological logging.

Financial Commentary

The Quarterly Cashflow Report (Appendix SB) for the period ending 30 September 2020 provides an overview of the Company's financial activities. The Company is in a strong financial position with \$3.3 million in cash at the end of the quarter. This will be sufficient to fund corporate costs well into 2021 and also facilitate completion of the drilling program at the McKenzie Springs Project.

Payments for administration and corporate costs amounted to \$103K and related to costs for and associated with director's fees, listing and compliance, legal fees and consulting fees. The aggregate amount of payments to related parties and their associates included in the current quarter cash flows from operating activities was \$39.9k (refer to Table 1).

About Fin Resources Limited

Fin Resources Limited is an Australian based resources company listed on the Australian Securities Exchange (ASX: FIN). The Company's projects comprise exploration licences covering ground located in Western Australia, which the Company intends to explore for gold, base metals and graphite (*refer Figure 3*).

The McKenzie Springs Project is located within the Kimberley Region of Western Australia, 85km north-east of the township of Halls Creek. The Project covers an area of approximately 134km² including identified nickel, copper, cobalt and graphite occurrences. The McKenzie Springs Project is considered prospective for magmatic Ni-Cu sulphide and PGE mineralisation.

The Sentinel Project is located 130km east-northeast of the township of Kalgoorlie in the Eastern Goldfields, Western Australia. The Project covers an area of approximately 44km². The Sentinel Project is positioned in a prospective location in terms of regional geological and mineralisation setting, located in the Eastern Goldfields Province within the southern Laverton Tectonic Zone, a regional shear/fault system that extends as a set of NNE and NNW trending structures from Laverton towards the Pinjin area. The Sentinel Project is considered prospective for gold.

The South Big Bell Project is located 25km west of the township of Cue in the Murchison Goldfields, Western Australia. The Project covers an area of approximately 50km². The South Big Bell Project covers the southern extensions of the greenstone belt and shear zone that hosts the Big Bell Gold Deposit.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
