1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Eden is expecting a progressive increase in sales in the coming quarters due to growth in new customers and potential customers which should reduce the net operating cash flow required for operating activities.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Eden has completed the negotiations for a backstop financing facility ("the backstop facility"), for up to an additional A\$7.2 million, and which backstop facility will be subject to the ASX not having any objections and to Eden first receiving shareholder approval at Eden's forthcoming annual general meeting.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes the Company does expect to be able to continue its operations and to meet its business objectives, as a result of:

- a. the probability of increased sales of its products as evidenced by an increasing level of market interest in Eden's products, particularly in the USA; and
- b. the backstop financing facility is expected will result in sufficient funds being raised when required to achieve the Company's business objectives.
