Summary:

- **50.99% of Chaketma Phosphate Project to be returned to Celamin**
- **Investigations into TMS actions to avoid arbitration decision delivering results and ongoing**
- **A\$6.7m damages being pursued through seizure of assets**

Phosphate and mineral exploration and development company Celamin Holdings Limited (ASX: **CNL**) ("**Celamin**" or the "**Company**") is pleased to present details of its activities for the Quarter ending 30 September 2020.

Celamin has made significant progress in regaining control of the Chaketma Phosphate Project in Tunisia ("**Chaketma**") following the illegal transfer of its interest by Tunisian Mining Services ("**TMS**"). Chaketma is a potential large-scale, world class phosphate development asset, which comprises six prospects over a total area of 56km². It hosts a total JORC compliant Inferred Resource of 130Mt @ 20.5% P₂O₅¹, confirmed from drilling at only two of the project's six prospects with access by road, and proximal to rail and gas pipelines (see Figure 1).

Chaketma Update

On 11 September 2020 Celamin announced that its majority stake in Chaketma is to be returned to the Company following a successful court application to force the transfer.

The Court of Appeal in Tunis ruled to force the transfer of Celamin's 50.99% interest in the Chaketma Phosphate Project back to the Company after an arbitral award declared Celamin's interest was illegally transferred to its former JV partner TMS.

¹ ASX announcements dated 9 November 2012 and 18 June 2013

Following the finalisation of the court process, expected imminently, Celamin will officially have its interest in Chaketma Phosphate SA (“CPSA”), the operating company that holds the Chaketma permit, returned to Celamin’s wholly owned subsidiary, Celamin Ltd.

Celamin has initiated engagement with reputable groups to complete a GAP analysis to progress its development plans. A key aspect of this early work will be the recovery of all data, physical availability of core and a forensic accounting exercise conducted to determine the legitimacy of the manner in which funds in the joint venture account were deployed following the illegal transfer in early 2015.

Investigations into TMS actions

TMS has consistently failed to comply with any orders of the arbitration award issued in November 2017 as enforced by Tunisia's Court of Cassation in September 2019. Despite this, Celamin has been unwavering in its desire to invest in Tunisia because of the country's strong political and legal framework. Following the return of its interest in Chaketma, Celamin will continue to pursue TMS for approximately A\$6.7m in damages and costs as well as a range of other legal processes.

These legal measures include investigations into TMS actions to avoid an adverse arbitration outcome and date back to the commencement of the dispute in early 2015. As announced on 31 August 2020, these investigations have resulted in the seizure of trucks, cars, loaders and other mining equipment. Celamin's legal team has also seized two excavators located in Tajerouine, Tunisia (see figure 2 below). These machines cannot be accessed by TMS at this time and, subject to determining ownership, may be sold with funds going to Celamin to offset the damages and costs owed by TMS.

Figure 2: two TMS excavators located in Tajerouine seized by Celamin in September.

Celamin has also instituted other actions designed to hold the management of CPSA and TMS accountable for the decisions made in relation to the management of Chaketma following the illegal transfer of Celamin's interest in CPSA to TMS.

Accrued damages update

The damages owed by TMS continue to accrue. The amount now owing to Celamin is approximately A\$6.7m. This amount increases every day that TMS fails to honour the arbitration orders issued in November 2017.

Zeflana and Djebba update

The areas around Djebba and Zeflana are known to host historical zinc-lead mines and have not had the benefit of modern exploration technologies (see Figure 3).

Current restrictions in place in Tunisia and Australia due to the Coronavirus have prevented Celamin from accessing the projects to advance initial exploration work. When the restrictions are lifted, Celamin plans to complete initial broad scale mapping, soil sampling and geophysical surveys ahead of identifying and prioritising drill targets.

Corporate update

Celamin held cash and cash equivalents of approximately A\$1.3m at the end of the September 2020 quarter.

Payments to related parties and their associates during the quarter as outlined in Section 6 of the accompanying Appendix 5B to this quarterly activities report were \$92,000. These payments are related to Director fees and consulting fees paid to directors and to their related entities during the September 2020 quarter.

This announcement is authorised for release to the market by the Board of Directors of Celamin Holdings Limited.
