OUTLOOK

Supply Chain Cyber Risk Monitoring & Scorecard Proofs of Value (POV) Across U.S. Federal Government and Industry

- 1) In order to demonstrate the ease and effectiveness of WhiteHawk Cyber Risk Product Lines: the remote and virtual implementation; the timeliness and scalability of the offerings; the effectiveness of the risk identification and mitigation results, Corporation kicked off a Proof of Value customer pipeline engagement strategy in July, August and September.
- 2) From past experience, Corporation has found a POV can change the conversation with the potential client, giving them the added insight they need to move forward to scope an initial contract.
- 3) As a result of the business dynamics during COVID, complimentary cyber risk monitoring licenses from our partners and the advanced automation of our Cyber Product Lines, it made sense to circle back with a majority of the current client

pipeline across Federal Government, Defense Industrial Base, Financial and Manufacturing Sectors.

- 4) The POV's have renewed Corporation cyber risk solution conversations with 3 Public and 2 Private Sector Channels, effectively updating their understanding and expectations of our Product Lines, the Digital Age risk problems they address and their scalability and affordability.

Development and Expansion of Internet Service Provider (ISP) and Managed Service Provider (MSP) Client Pipeline for both the Sontiq/WH Business SaaS Suite and a tailored version of the WhiteHawk online Cyber Security Exchange cyber risk services.

- 1) In addition to the current pipeline of Financial and Insurance Sector channels, Corporation has kicked off market research conversations with 3 major ISP's and two major MSP's.
- 2) Objective is to demonstrate that current cybersecurity service approaches for business clients are to offer a standard portfolio of cybersecurity solutions, for \$80 to \$1,000 a month, reaching at most 5 to 15% of the cliental. Vice offering the comprehensive Sontiq/WH Business SaaS Suite for \$20 a month (to include financial fraud, identity theft, mobile security and cyber risk services), as an annual embedded subscription service with revenue sharing model.
- 3) This embed Digital Age risk service, is provided to all business clients as a seamless, effective and comprehensive added benefit, thereby differentiating the ISP or MSP, to retain current clients and attract new clients.
