ASX Announcement

Business Review for the Quarter ended 30 September 2020

TZ Limited (ASX: TZL) ("TZ" or "the Company") today released its Appendix 4C - Quarterly Cash Flow Report for the quarter ended 30 September 2020.

The key points of the Company's Q1 and year-to-date performance are:

- Net operating cash outflows totalled \$0.4M in this quarter compared to a \$1.5M outflow in the corresponding quarter of last financial year. The significant cash flows for operating activities during the quarter were:
 - Receipts of \$3.9 million.
 - Payments of product manufacturing and operating costs of \$2.1 million.
 - Payments for staff costs of \$1.9 million.
 - Payments for administration and corporate costs of \$0.3 million.
- In this quarter the Company increased its debt by \$0.25 million to fund the net operating cash flow outflow.
- COVID-19 continues to hamper the Company's ability to supply and install products to customer sites. Revenue in Q1 was \$3.8M (unaudited), which is 26% lower than the prior corresponding quarter in FY20.

In the reporting period, TZ Limited's business activities continued to be the sale of smart locking solutions and supporting software.

Per item 6.1 of the Appendix 4C, \$137,000 was paid to directors for non-executive directors' fees and salary for the executive director.

BUSINESS UPDATE

TZ Limited's revenue for the first quarter FY 2021 was down on the previous corresponding period mainly due to global logistic issues as a result of Covid-19 restrictions in various countries. As a result, many contracted purchase orders that would have normally been delivered in the first quarter have been delayed and will now fall in future reporting periods.

Encouragingly the pipeline of new contracted business is strong across all global markets and the business is seeing an uplift in the number of large tender opportunities for new business across several major markets.

Think SMART. Think TZ.

For personal use only

Throughout the year, the business has reorganised its operations with the goal to simplify the business and to reduce operating costs, with annualised costs savings of \$2.5 million being implemented. Whilst the business has significantly cut costs, it continues to invest in new systems including recently rolling out a new global sales, marketing & service ticketing system, HubSpot. We have also embarked on a major overhaul of our accounting and inventory software which is on track to be completed in early 2021.

Our CTO, Adam Forsyth, has relocated to the United Kingdom to head our European and African operations whilst continuing to lead delivery of our technology road map. We have significant growth opportunities in this geographical market.

Simon Van Es has joined the TZ executive team as Group Chief Operating Officer based in Sydney. Simon's initial priorities are to implement new systems, simplify TZ's business model and find synergies, all of which are targeted to help TZ grow and be more profitable.

We continue to invest in our core software platforms & product solutions with an emphasis on revitalising our data centre solutions and the launch of our new cloud-based SMArtWork solution for locker management in SMEs.

Centurion Enterprise, ready for release in November 2020, is the latest evolution of our successful micro security management system for data centres and offers improved security, larger scale, a mobile app and a range of features that will allow TZ to extend our solutions to new sectors.

Our new cloud-based locker management system SMArtWork will also be launched in November. SMArtWork is a SaaS-based locker management and access control solution designed for the needs of SMEs and as such will allow TZ to extend and broaden our markets for our locker management solutions.

Growing annuity-based revenue is a key focus for TZ. We achieved 15% growth year for year for the reporting period, but we expect annuity-based revenues to grow in size as we continue to grow our installed locker base and as our new SaaS-based products come to market.

OUTLOOK

Although the world continues to face uncertainty due to Covid-19, the outlook for TZ in FY2021 is encouraging. The focus by the business to cut costs, simplify the business model and implement new initiatives to grow revenue, including a strong focus on annuity-based/everyday revenues, is starting to yield results. As a result, the business is on track to achieve its stated goal of trading cash flow positive in the near future.
