www.renegadeexploration.com**QUARTERLY ACTIVITIES REPORT**
for the three months ended
30 September 2020

During the July-September quarter Renegade Exploration Limited (the **Company** or **Renegade**) recommenced exploration at its WA Yandal East Gold Project with RC drilling, commenced an infill gravity survey, continued its comprehensive geological data review on Yandal East Gold Project and worked on concluding an agreement to sell the Company's Yukon Project.

Yandal East Project

The Company recently announced (refer ASX Release dated 10 September 2020) results from its inaugural RC drilling program at the Ward prospect.

Due to rig and personnel constraints 6 holes were completed for 1,087m of a proposed 1,500m program. All holes were completed at the Ward Prospect, and all intersected broad mineralised zones and several ended in mineralisation

Significant intersections included:

- 13m @ 1.01 g/t Au from 58m, including
6m @ 1.61 g/t Au from 65m, including
3m @ 2.38 g/t Au from 68m
- 18m @ 0.77 g/t Au from 108m, including
6m @ 1.03 g/t Au from 111m
- 13m @ 0.52 g/t Au from 112m
- 6m @ 0.77 g/t Au from 137m, including
3m @ 1.04 g/t Au from 138m

Renegade engaged a contractor to carry out a 400 x 100m spaced gravity survey across its tenement package at Yandal East to further define existing target structures, including Ward and Mizina, plus generate new exploration targets. This program has recently been completed and the Company is currently completing interpretation with preliminary data review providing encouragement with new structures highlighted and drill targets identified.

The Company is completing a major geological review of all recent and historic data to investigate not just gold potential but also nickel and base metal prospectivity which a number of major mining groups have explored for in the past. Data includes drilling, geophysical and ground work. The Company believes this review and the application of modern exploration techniques will provide a better understanding of the geological setting and targets for drilling.
