
ASX Appendix 4C

DataDot Technology Limited (ASX:DDT) has today released its cash flow report (ASX Appendix 4C) for the quarter ending 30 September 2020.

This cash flow report is unaudited and discloses the inflows and outflows of cash during the quarter ended 30 September 2020 and for the financial year to date.

Highlights

Cash at the end of the quarter was \$1,421.3k which is up from \$1,005.1k at the beginning of the quarter.

This is a very strong positive performance from operating activities and a small investment in essential equipment in the quarter.

Although Revenue for the quarter is below last year, expenses for the quarter are materially improved from last year resulting in a positive profit for the quarter compared to a loss for the same quarter last year. Our major clients where revenue is down on last year have advised us that the downturn resulted mostly from a change in business cycles compared to last year but there is also some short term Covid 19 impact.

The cash balance has also increased due to a material reduction in debtors and inventories, offset by a reduction in amounts owing to creditors. Some of the debt reduction related to government Job Keeper and R&D grants that were receivable at the end of June 2020 and were received during the quarter.

There was no financing activity as the Share Placement and Rights Issue activities were all completed prior to 30 June 2020 and were included in the June 2020 Quarter report.

The company continues to monitor the unpredictable impacts of Covid 19, in particular as we head into a northern winter where a number of our major customers are based.

This release has been approved by the Board of Directors.
