September 2020 Quarterly Report

Highlights

- **During the quarter Shareholders approved the transaction between Cradle and Tremont Investments Limited (“Tremont”) in connection with the Panda Hill Niobium Project (“Panda Hill Project”) and the current dispute and arbitration between Cradle and Tremont.**
 - Completion of the transaction is subject to all necessary regulatory approvals being obtained within 12 months, including the Tanzanian Fair Competition Commission (“FCC”) providing a “no objections” letter under the Fair Competition Act 2003. The application was submitted to the FCC on 3 August 2020 and we expect a decision during the December quarter.
- **Subject to completion, the Arbitration will be settled as follows:**
 - Cradle will buy-back Tremont’s existing 19.5% shareholding in Cradle in return for transferring to Tremont 19.5% of Cradle’s shares in PHT;
 - PHT will issue Tremont additional shares, which converts Tremont’s existing loan to PHT to equity in PHT;
 - As a result, Cradle will have no further financial exposure to PHT or the Panda Hill Project whilst retaining significant upside upon the project achieving development funding. An overview of the transaction is set out on the following page.
 - Following implementation, PHT will be debt free and owned by Tremont (63%) and Cradle (37%).
- **The Company continues to assess new opportunities in the resources sector that could add value for shareholders.**

Pathway Forward for Panda Hill Project

- Cradle and Tremont own 50% each of Panda Hill Tanzania Ltd (“PHT”), which owns the Panda Hill Project. There is currently a dispute as to whether Tremont has the unilateral right to declare a decision to mine and there are arbitration proceedings between the parties in respect of this dispute (“Arbitration”).
- the Arbitration will be settled as follows:
 - Cradle will buy-back Tremont’s existing 19.5% shareholding in Cradle in return for transferring to Tremont 19.5% of Cradle’s shares in PHT (4.6m PHT shares);
 - PHT will issue Tremont an additional 4.06m shares, which converts Tremont’s existing loan to PHT to equity in PHT (which loan funded PHT’s FEED, offtake and financing activities over the last 3 years),

(the **Transactions**).

- Following implementation and adjusting for recent cash calls, PHT will be debt free with 52.7m shares on issue - owned by Tremont (63%) and Cradle (37%).
- Tremont and Cradle’s wholly-owned subsidiary Panda Hill Mining Pty Ltd (“PHM”) will enter into a new PHT shareholders agreement under which:
 - Tremont will fund all financial requirements of PHT and the Panda Hill Project until the development costs of the Panda Hill Project are raised;
 - A development capital raising may only be funded by PHT by a combination of bank debt and the issue of new ordinary shares at US\$1.00 minimum or such greater price as third parties participate;
 - Upon all development costs of the Panda Hill Project being raised, Tremont will purchase from PHM 10 million PHT shares at the average subscription price per PHT share under the equity component of the development capital raising (or at least US\$1.00 per PHT share) and Cradle has the option to participate in the development capital raising for up to 5 million PHT shares;
 - The balance of Cradle’s interest in PHT shares will follow PHT into production with tag along and drag along rights against a sale of Tremont’s PHT shares;
 - Tremont will assume Board control of PHT with Cradle having the right to appoint a director and general minority shareholder protection rights.

CXX engaged an Independent Expert who concluded that the Transactions were fair and reasonable to the other Shareholders and that the position of the Shareholders, on completion of the Transactions, is more advantageous than if the Transactions did not proceed.

The completion of the Transactions is subject to all necessary regulatory approvals being obtained within 12 months and the Tanzanian Fair Competition Commission providing a “no objections” letter.

Panda Hill Niobium Project

The Project is located in the Mbeya region in south western Tanzania, approximately 680km west of the capital Dar es Salaam (Figure 1). The industrial city of Mbeya is situated only 26km from the project area and has a population of approximately 280,000 people. The Project is located near the main highway to the capital Dar es Salaam and in close proximity to the Songwe Airport which has regular domestic flights from Dar es Salaam and plans for regional expansion.

Figure 1: Location of the Panda Hill Niobium Project

The Project is covered by three granted Mining Licences (Figure 2) totalling 22.1km², which will enable a quick transition from the study and development phases, through construction and into operation. The area has excellent access to infrastructure, with existing roads, rail, airports and power available in close proximity. The three granted Mining Licenses were all renewed during the December 2015 quarter for a further 10-year period (valid until November 2026).

Cradle owns 50% of PHT, which owns 100% of the Project. Cradle and Tremont have entered into an agreement in relation to PHT ("Shareholders Agreement").

As previously advised, the Company and Tremont are in dispute regarding whether a definitive feasibility study has been delivered within the meaning of the Shareholders Agreement, with the dispute referred to arbitration. The arbitration hearing was scheduled for mid-2019, however the Parties mutually agreed to postpone the arbitration hearing to allow time to renegotiate a simplified shareholders agreement. An agreement has now been reached, the terms of which were announced on 9 June 2020 and are summarised on page 2 of this quarterly report.

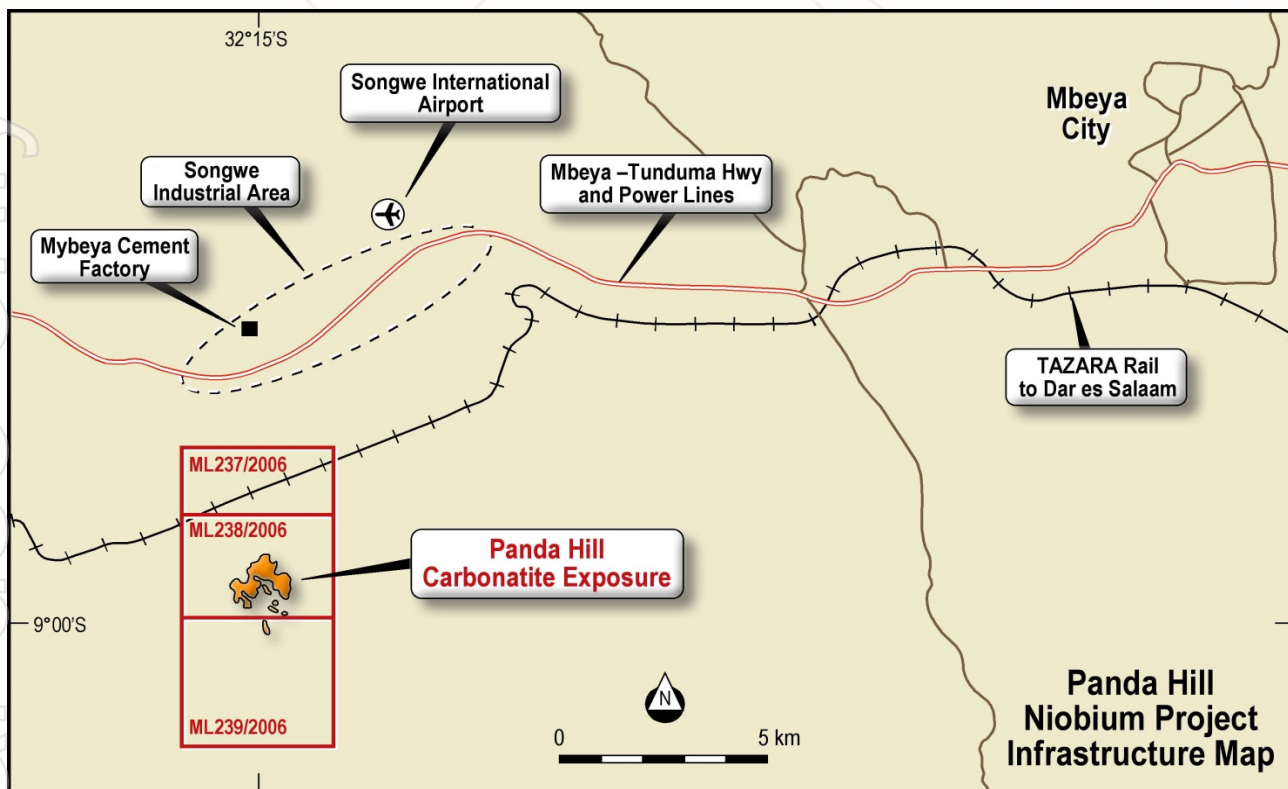

Figure 2: Mining Licences and Local Infrastructure

In response to Covid-19, PHT implemented travel and site restrictions to ensure the safety and wellbeing of all employees during the previous quarter. The Company continued to liaise with all levels of the Tanzanian Government to clarify the uncertainty surrounding the amendments to the legal framework governing the mining sector in Tanzania that were introduced during 2017 and to progress discussions on what project financiers would require so as to complete the financing of the project.

Tenement summary

As at quarter end, PHT held the following interests in tenements:

Project	Tenement Number	Percentage Interest
