

ASX Announcement

30 October 2020

ASX Code: VKA

Quarterly Report for the period ended 30 September 2020

During the quarter ended 30 September 2020, Viking Mines Ltd (**Viking** or the **Company**) was actively focussed on continuing the proceedings against the purchaser and guarantors of the Akoase Gold Project as well as planning the next phase of exploration activity at the Tementu Gold Project in Ghana.

1. Akoase Gold Project (Ghana, VKA 100% - reducing to 0% upon completion of sale)

In June 2015 the Company executed a sale contract for the Akoase Gold Project for an overall transaction value of USD\$10 million, of which USD\$8 million was to be paid in cash.

Viking has previously been paid USD\$5 million in sales proceeds. The remaining USD\$3 million was due by 31 December 2017 with a grace period until 31 January 2018. At the date of this announcement, the USD\$3 million has not been received by the Company.

Current Akoase sale proceeds summary:

- USD\$5 million – paid to date;
- USD\$3 million – this amount was due to be paid by 31 December 2017. At the date of this announcement, the USD\$3 million has not been received by the Company; and
- a further USD\$2 million via royalties from production.

As announced to the market on 22 October 2018, the Company's lawyers in Ghana have filed and served proceedings against Akoase Resources Limited, BXC Company Ghana Limited and Cheng Yi. Since that time, the matter has been proceeding through the court process in the High Court (Commercial Division) in Ghana.

The Company's lawyers in Ghana have advised that the parties are due back in Court on 19 November 2020 for a case management conference, where the Court will give directions as to the actual conduct of the trial, including fixing a date for when trial is to commence.

The Company will provide further information in relation to this matter as the proceedings progress.

2. Tumentu Gold Project (Ghana, VKA 100%)

Following on from the drilling campaign that was completed at the project earlier in 2020, the Board has been planning the next phase of exploration that will be undertaken at the Tumentu Project in the coming quarters. The 35 holes that were completed earlier in the year were drilled to an average depth of 34m, which the Company now considers to be too shallow. It is believed these shallow holes have not probed the deep-seated structures that may control the mineralization within the prospect. The Company will update the market on the next phase of exploration that is planned at the project shortly.

3. Butre Gold Project (Ghana, VKA 100%)

No on-ground work was undertaken on the project during the quarter. Butre is located in the Ahanta West region of Ghana. The Company is conducting a review on the project in consultation with its geological consultants in Ghana and will update the market on its future exploration plans in due course.

4. Berkh Uul Coal Project (Mongolia, VKA 100%)

No on-ground work was undertaken on the project during the quarter.

Viking continues to seek resolution relating to changes to boundaries of protected areas affecting the Berkh Uul prospecting license, introduced under Long Name Law in 2010. The Company has commenced action against the Mineral Resources and Petroleum Authority of Mongolia in this regard (**MRPAM**). The Company has received a written judgement from the Supreme Court in relation to this matter, which upheld the decision of the First Instance Administrative Court which rejected the claims of the Company.

During the quarter ended 30 September 2020, the matter was heard in the First Instance Administrative Court of the Capital City after the Court had resolved to open an administrative case against MRPAM and Government. The Company is currently awaiting the written decision of the judge and will update the market appropriately as the matter progresses.

5. Khonkhor Zag Coal Project (Mongolia, VKA 100%)

No on-ground work was undertaken on the project during the quarter.

In accordance with and consistent with the Board's objectives, the Company has continued to engage with prospective buyers in relation to the Mongolian assets.

6. Corporate

The Company has a strong cash position of \$1.244 million as at 30 September 2020.

As set out in section 6 of the attached Appendix 5B, the Company made payments to related parties of the entity of \$75,000 in the quarter ending 30 September 2020. This amount was made up of only Director fees for the relevant period.

Other than the matters set out above, no other matter or circumstance has arisen since 30 September 2020 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

The Board believes Viking is in a strong and unique position to identify and evaluate opportunities in the mining sector.

Alongside progressing the exploration of the Tumentu and Butre Gold projects in Ghana, the Company continues its review of mineral project farm-in/acquisition opportunities with the objective of acquiring mature exploration assets with potential to deliver long-term sustainable cash flow.
