

QUARTERLY ACTIVITIES REPORT

30 October 2020

For the quarter ended 30 September 2020

Admiralty Resources NL (ASX: ADY) is pleased to report its activities for the September 2020 quarter.

Exploration and Quarterly Activities

Soberana

Production has been further delayed due to the global Covid-19 shut down.

ADY will continue to keep the market informed as to the next developments of the project and of receipt of any forthcoming royalty receipts from the project.

Mariposa

The financing process has been stalled due to COVID-19. While this is a delay, the Company is still positive of a good outcome upon global markets opening up.

The Company will continue to keep the market informed as progress is made during this process.

Australian Project

No activity to report during the quarter.

Corporate Activities

The Company has renegotiated material contracts with suppliers to reduce corporate costs. The financial savings are expected to be realised from the next financial quarter onward.

About Admiralty

Admiralty Resources NL (ASX: ADY) is a public diversified mineral exploration company listed on the Australian Securities Exchange with mineral interests in Chile and in Australia.

Admiralty's flagship projects are the iron ore districts in Chile: Harper South (2,498 Ha), Pampa Tololo (3,455 Ha) and El Cojin (600 Ha). The districts are located in prime locations, with close and easy access to the Pan-American Highway (a major route), a railway and power line and operating shipping ports.

Admiralty's project in Australia is the Pyke Hill Project, a cobalt and nickel project in Western Australia, whose mining lease is 50% owned by Admiralty.

Admiralty in Chile

The **Harper South district** ("Harper South") is the most advanced district in respect to exploration. To date, six targets have been confirmed as carriers of iron mineralisation: Mariposa, La Chulula, Soberana, Negrita, La Vaca and Mal Pelo.

- **Mariposa** has a JORC 2004 compliant resource of 174.5 Mt (*as per ASX announcement on 25/1/2013*). An engineering mine plan (or Prefeasibility Study) for an initial production of one million tonnes of finished product per annum has been commissioned to Redco Mining Engineers.
- **La Chulula**. The Mineral Resource Estimate quantifies the resources at La Chulula at 96 Mt at 24% Fe for a 15% Fe cut-off in the inferred category. The La Chulula resource estimate is based on the results obtained from the reverse circulation and diamond drilling campaign completed in 2012
- **Soberana** has a JORC 2004 compliant resource of 90.2 Mt (*as per ASX announcement on 15/1/2013*).

Pampa Tololo district - A high resolution ground magnetic survey carried out in 2011 identified three targets: Cochrane, O'Brien and Simpson. A reverse circulation drilling campaign of 3,311m took place at Simpson in July/August 2012. The results of this campaign are currently being evaluated by the Company.

El Cojin district - It is the least advanced of Admiralty's projects in Chile, with the first piece of exploration work being a high-resolution ground magnetic survey carried out in 2012. The survey identified 5 targets in total with 3 of them showing great depth and high susceptibility.

Schedule of tenements

| <i>Tenement Reference</i> | <i>Registered Holder</i> | <i>Country</i> | <i>Project Group</i> |
