

## **QUARTERLY OPERATIONS REVIEW**

The Directors of Integrated Green Energy Solutions Ltd ("IGES" or "the Company") are pleased to provide Shareholders with an update of activities for the Company during the September quarter.

### **Market Update**

Due to the global COVID19 pandemic, the year 2020 has seen an enforced period of hibernation in many respects. The IGES business has not been immune to this change in circumstance but has taken the opportunity to mitigate the impacts on the business and build a strong platform for the future.

Specifically, during the quarter to 30 September 2020 IGES took proactive steps to limit exposure to the COVID-19 pandemic and the associated economic impacts whilst continuing to work on the opportunities ahead. The Company has successfully reduced expenses and essentially halted cash out-flows. At the same time, the Company funder, Structured Growth Capital Inc ("SGC") has been and remains fully committed to our projects and their contributory role. SGC has maintained this stance despite the fact that economic uncertainty exists to the extent that many financial markets froze in anticipation of the future.

Therefore, IGES continues to work closely with SGC and remains optimistic of funding being achieved in the short term. This funding will initially be utilised for our Amsterdam, Thailand, Northampton and other projects, in addition to working capital and retiring older debt. In addition, GEP Fuel and Energy LLC ("GEP") remains positive its funders will secure the required funding for our previously announced USA project.

IGES also continues to work with all trade creditors and lenders to renegotiate payment due dates within the context of the COVID-19 induced funding delays and the business delays generally experienced throughout the pandemic. IGES has also sensibly availed itself of the protections provided by the Australian government including but not limited to JobKeeper payments, stand down options, and the Coronavirus Economic Response Package Omnibus provisions. We have worked with a range of suppliers within the spirit of compromise that is both recommended by the Australian government and fundamentally essential under the current circumstances.

To this end, wages and salary have been limited to JobKeeper payments, with payments to directors of \$18,000 during the quarter being entirely subsidised by the JobKeeper grant.

Notwithstanding these initiatives, the Company continues to be in a holding pattern until its funding is secured and the global COVID-19 restrictions are reduced. Both our funding and our international expansion have clearly been delayed due to current global COVID-19 induced issues facing all businesses, including lockdowns, closed borders, work from home orders, high unemployment and economic downturn. We continue to work through these challenges and a path through the pandemic restrictions becomes clearer every day.

The reduction of the underlying operating costs and cash expenditures as disclosed in our quarterly 4C report is a reflection of the efforts by management and the directors to conserve

resources whilst we put in place the building blocks that will allow us to undertake a successful implementation of our board approved strategy.
