

OPERATIONS UPDATE ATP 855

Icon is now focused on operations in ATP 855, which are in final preparation for mobilisation to the tenement in southwest Queensland. COVID-19 has been a major disrupter since March 2020. It seriously affected the manufacture of the coil tubing in the USA. Our professionals who have been contracted for specialist operations have been waiting for months to receive confirmation of the work timetable. Some overseas personnel had to be replaced because they could not travel to Australia at this time. As frustrating as this has been, the field equipment and supplies are now being assembled in Roma prior to mobilising to the well sites during the first week in November 2020.

Icon announced earlier in the year, that an exciting gas prospect has been identified in Halifax No.1 which was the first well drilled in the whole of the ATP 855 tenement. This followed Icon's decision to rehabilitate the existing wells in ATP 855.

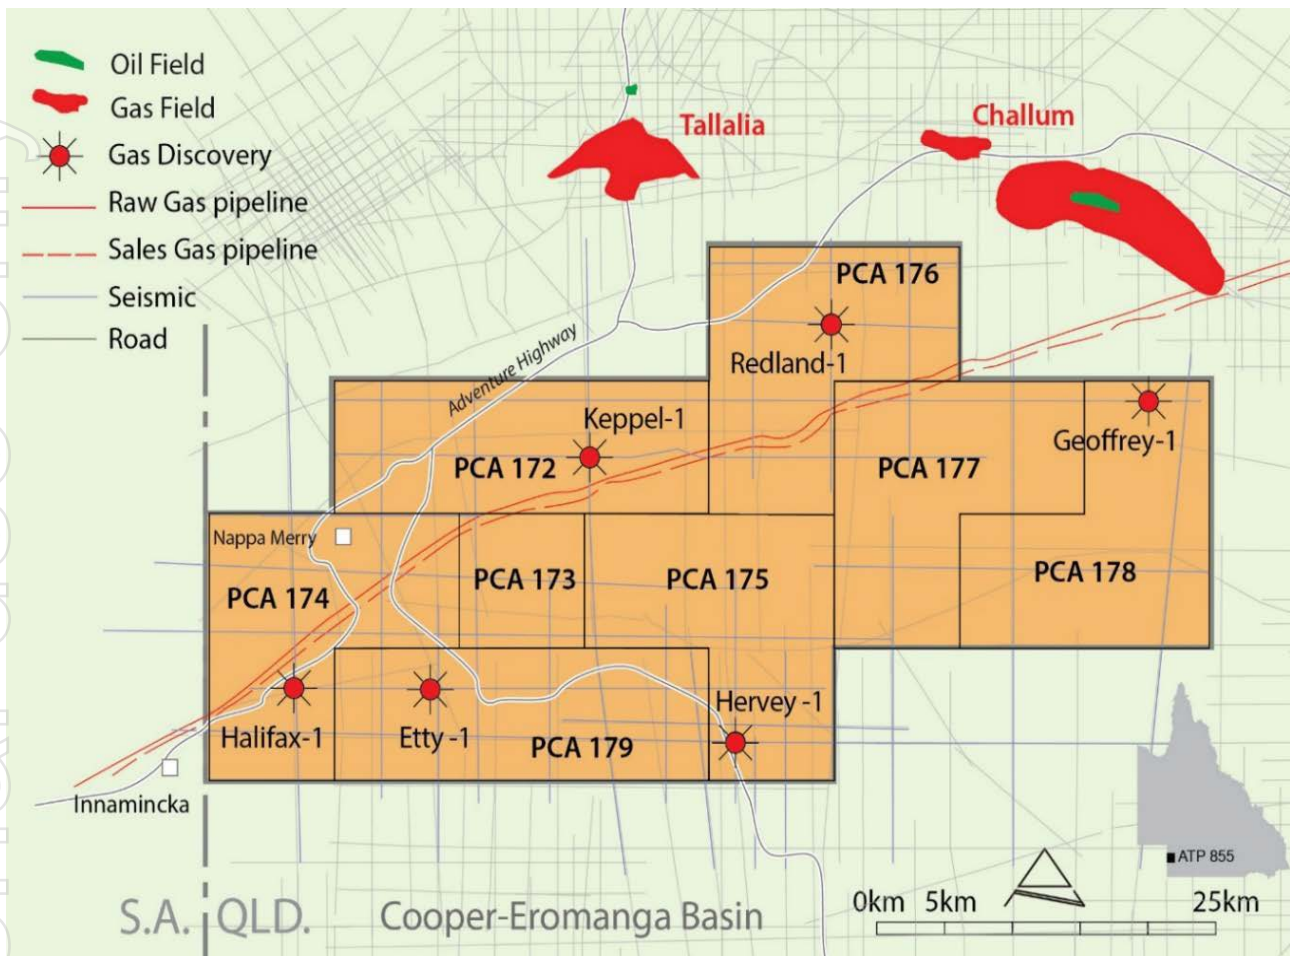

Prior to the commencement of the rehabilitation program, an extensive review of the six wells drilled was undertaken in house, with the advice of Consulting Engineers, to be sure that no other hydrocarbon opportunity had been overlooked. Following this review, it became evident that there was a real possibility of producing commercial hydrocarbons from the Callamurra sandstone which is above the unconventional gas play in the Halifax No.1 well. As a result the ATP 855 review, the program has now been modified to test Halifax No. 1 over the Callamurra sandstone.

If the test is successful then the well can be suspended as a producing gas well. A full investigation of the results of the well would then be undertaken to determine the commerciality of the well. Icon Energy planned to commence a rehabilitation program in ATP 855 in the second quarter of this calendar year but that has been affected by COVID-19 delays. The commencement of the rehabilitation and test program is expected to commence on or about the second week in November 2020 subject to no further COVID-19 or weather delays. Equipment and drilling supplies are now being mobilised to the field for the operations.

Icon Energy determined that completion of the rehabilitation of the six wells in ATP 855 would provide a "clean slate" which would represent a more attractive opportunity for farmout success. The delays in commencement of the rehabilitation program have impeded our ability to introduce a new joint venturer in the gas project. These delays were primarily because of COVID-19 which delayed manufacturing of specialised equipment in the USA. Weather might cause some further delays as this year's Monsoon season is affected by a strong La Nina event. The operations are mostly in high country, closer to the South Australian border.

The results of Halifax testing will be released as soon as results are available. The rehabilitation program will require about one month for completion with surface work following later.

Icon is pleased to report that the Department of Natural Resources Mines and Energy (DNRME) has granted Icon an extension of the current Later Work Program (LWP) in ATP 855 for two years until 29th October 2022. This extension was granted on the basis of COVID-19 delays as a Special Amendment of the Authority to prospect (ATP) 855 under section 107A of the *Petroleum and Gas (Production and Safety) Act 2004 (P&G Act)*.

ATP 855 map showing PCA and discovery well locations.

ATP 594

“Berella No 1”, located in the northern block of the tenement, was confirmed as a four way structural closure by the recent 3D seismic survey. No new activity is reported for the past quarter.

VICTORIAN TENEMENTS (PEP 170, 172, 173)

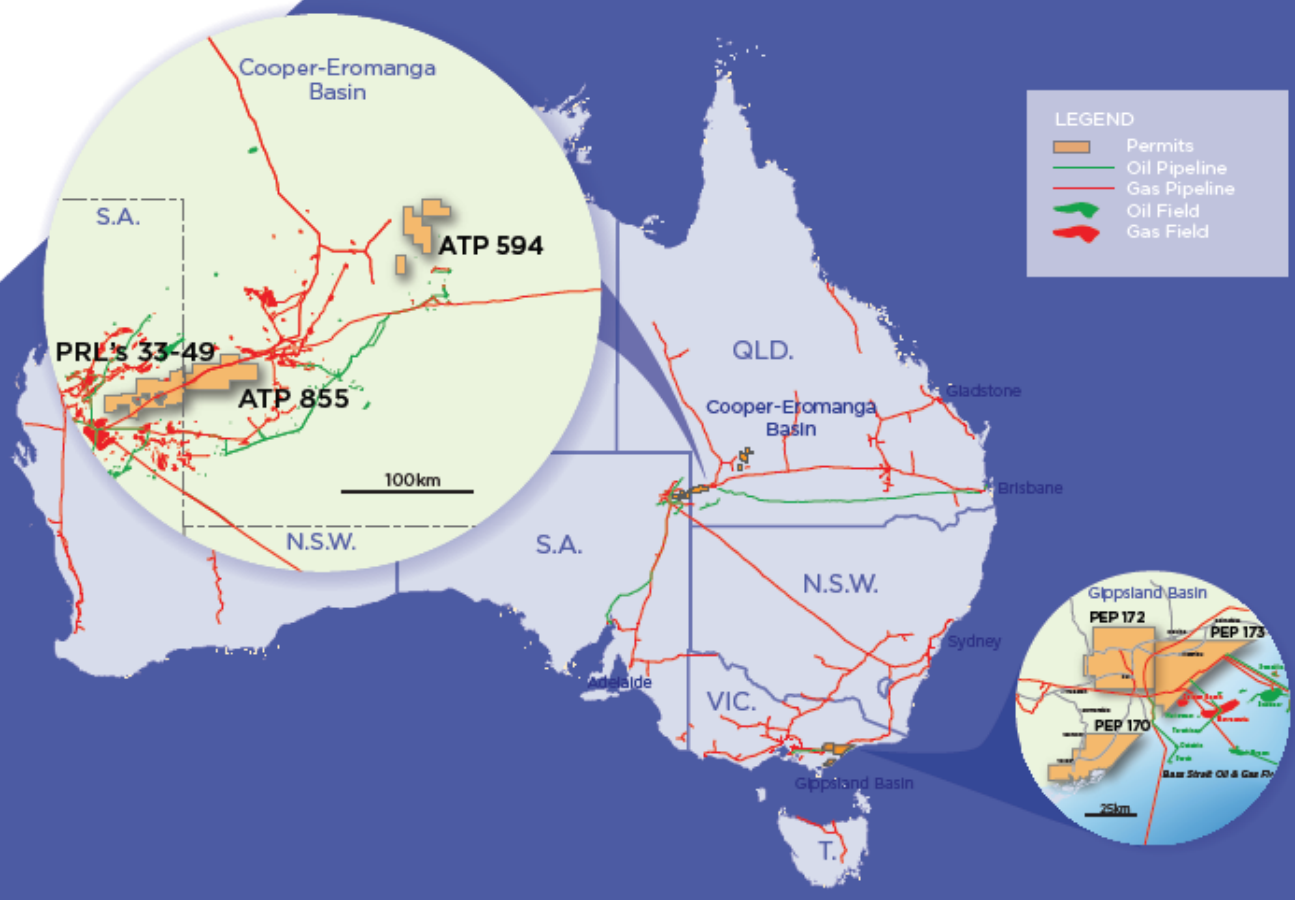

The Victorian Government has announced that the Moratorium will be lifted and onshore tenements returned to operational status in July 2021. The ban on fracking will be retained and enshrined in the Victorian Constitution. All future drilling operations in Victoria will be for conventional drilling targets only. Icon’s permits will be reviewed prior to this date as previous tenders required stimulation which is now banned.

Icon will have the option of taking up the areas under the new tenement rules which are yet to be negotiated.

SOUTH AUSTRALIAN TENEMENTS

PRLs 35, 37, 38, 41, 43, 44, 45, 49 (ex PEL 218) have been reduced in size by 50% under the SA relinquishment regulations for retention. The retained leases now cover a total area of 857 km². Icon has an interest of 33% in the post-Permian section of the tenement.

7. Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1 Loan facilities		
7.2 Credit standby arrangements		
7.3 Other (please specify)		
7.4 Total financing facilities		
7.5 Unused financing facilities available at quarter end		
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(305)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	0
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(305)
8.4 Cash and cash equivalents at quarter end (item 4.6)	5,236
8.5 Unused finance facilities available at quarter end (item 7.5)	0
8.6 Total available funding (item 8.4 + item 8.5)	5,236
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	17.2
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer:	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer:	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
