#### Management Commentary

**Non-Executive Chairman, Mr Adam Blumenthal, said:** "Creso has achieved a number of significant milestones during the September quarter."

"These were headlined by the Company's growing global footprint which is translating into new market opportunities."

“Mernova continued to build sales momentum during the period, evident from the recent purchase orders secured in Nova Scotia - highlighting Creso Pharma’s and Mernova’s potential as a supplier to a rapidly growing recreational market in Canada.”

“The recent success in Nova Scotia confirms the growing acceptance for Mernova’s premium product from major players within the global cannabis industry. In a short period of time Mernova has emerged as a leading artisanal cannabis grower, as evidenced by the growing demand for its product. With production currently ramping up, we anticipate that Mernova’s growth and contribution to the Company’s revenue profile will only continue.”

“Our Swiss affiliate made inroads by expanding its global footprint, highlighted by the push into high-growth markets such as Portugal and Spain. The market opportunities in South Africa – through our Pharma Dynamic commercial collaboration – reflects the demand for our product on a global scale and vindicates the market share initiatives we have put in place.”

“We are closely observing potential changes to the regulatory environment across key markets in Europe and Australia, and we are confident that the changing landscape and growing acceptance for the sector will be beneficial to us.”

“Finally, I want to welcome our newly-appointed strategic advisor Bruce Linton to Creso Pharma. Bruce’s insights and experience will be of great benefit to the Company and I look forward to working closely with Bruce over the coming months.”

“Creso Pharma is in a strong position underpinned by burgeoning market opportunities, and we look forward to accelerating our strategic initiatives to deliver returns for our valued shareholders.”

### **Financials:**

At the quarter end, Creso Pharma had cash reserves of A\$2.56 million. Further details of Creso’s funding are set out below and in the accompanying Appendix 4C report. The Company also notes that subsequent to the end of the period, it raised A\$7.992m through a share placement to professional, sophisticated and institutional investors. The Company also received a firm funding commitment amounting to a further A\$1m from Adam Blumenthal, non-executive Chairman.

Further, subsequent to the quarter end, the Company paid a total of A\$2.35m in cash to redeem convertible notes held by secured lenders.

These activities significantly strengthen the Company’s balance sheet and cash position and provide ample flexibility for growth.

### **Operational Overview:**

#### **Nutraceuticals:**

#### **Iberian market entry progress through commercial agreement with DHS Business/Lisbon**

Creso Pharma signed a commercial agreement with DHS Business Portugal to introduce the Company’s products into the Portuguese and Spanish markets (see ASX Announcement dated 12 August 2020).

Creso's cannaDOL® 0.5% and 1% CBD topical gels, as well as cannaQIX® oral care are among the key products to be launched, with the aim to achieve a major coverage of sports shops and pharmacies offering over 2,000 points of sales in Portugal and over 4,000 points of sales in Spain.

#### Second purchase order from Pharma Dynamics highlights South African opportunity

Subsequent to the end of period, the Company strengthened its revenue potential following the receipt of a purchase order from Pharma Dynamics South Africa for the Company's cannaQIX® product, valued at CHF 194,300 (~A\$295,000).

This represented the second purchase order from the group for cannaQIX®, which is being sold under the 'Cannamics' brand in South Africa. The second Purchase Order follows the successful launch into the South African market through Pharma Dynamics and the delivery of first shipments which occurred in March 2020 (refer ASX announcement: 26 March 2020).

Pharma Dynamics - a subsidiary of Lupin Limited (NSE:LUPIN) - is a leading pharmaceutical company in South Africa, and is ranked the fifth biggest generic pharmaceutical company in SA.

Pharma Dynamics distributes Creso Pharma's hemp-based products across South Africa, with plans to extend the distribution to Namibia, Botswana, Zimbabwe, Swaziland, Lesotho, Angola, Mozambique, and Uganda. As a result, the Company anticipates additional opportunities will materialise in Africa through its established regional partner and will actively pursue those opportunities in the near-term.

#### Medicinal Cannabis:

##### Mernova continues sales growth

Creso's wholly owned subsidiary Mernova Medicinal Inc. ('Mernova') delivered several important milestones during the quarter ended 30 September 2020.

The Company secured two purchase orders from the Nova Scotia Liquor Corporation ('NSLC') totalling ~C\$320,000, with the first secured in September and the second confirmed subsequent to the period end.

The initial purchase order (see ASX Announcement dated 21 September 2020) was valued at C\$180,000 for the purchase of two of its premium strains, HPG13 and Lemon Haze (see figures 2 & 3).

A second purchase order was successfully delivered approximately three weeks later (see ASX announcement dated 9 October 2020) valued at C\$138,960.

A third purchase order was received subsequent to the quarter ended 30 September 2020 (see ASX announcement dated 27 October 2020).

Mernova's retail recreational cannabis products were launched under the brand name 'Ritual Green' and are currently being sold through NSLC stores and e-commerce platform.

The NSLC is operated by the Nova Scotia Provincial government and is the sole distributor of retail recreational cannabis in Nova Scotia.

Creso Pharma anticipates that additional orders will be received in the coming weeks for existing and new strains which will be added to the Ritual Green brand and that the NSLC will become an important, recurring revenue stream for the Company.

The Company further notes its announcement of 10 July 2020, in which the Company advised that Mernova was to ship four of its premium strains of cured, hand-trimmed, dried medicinal cannabis flower to Univo Pharmaceuticals Ltd ('Univo') in Israel under an order valued at US\$625,690. As at the date of this announcement, the Company is owed approximately C\$331,197 (subject to currency fluctuations) in respect of this shipment, and notes that it is now engaging in ongoing negotiations with Univo in respect to the payment of this outstanding debt. The Company will update the market with any material developments with respect to these negotiations, including, what, if any, impact there will be on revenues and cash receipts from Univo's purchase order of US\$625,690 value, as announced on 10 July 2020.

### **Corporate Developments:**

#### **Strategic Board and Management Changes**

In August 2020, the Company executed a number of strategic Board and management changes as it prepares to pursue several important near-term growth initiatives and commercialisation efforts currently underway across the business.

Creso Pharma Co-founder and Chief Executive Officer, Dr Miri Halperin Wernli transitioned to the role of Technology, Innovation and Distribution head and remains on the Company's Board of Directors. The new role allows Dr Halperin Wernli to focus on new technologies for the hemp and cannabis

products globally as well as on furthering the commercialisation and distribution efforts of the Mernova medical cannabis products.

Mr Adam Blumenthal assumed the position of Non-Executive Chairman, with Mr Boaz Watchel moving from the role of Executive Chairman to Non-Executive Director, and Dr James Ellingford moving from Non-Executive Director to the role of Executive Director.

The Company has also made key internal appointments within its Swiss International Operations division, with Mr Jorge Wernli and Dr Gian Trepp appointed to executive management positions.

#### Canopy Growth founder Bruce Linton appointed as Strategic Advisor

Post-quarter end, the Company appointed leading cannabis executive Bruce Linton as strategic advisor over a two-year term.

Mr Linton was attracted to Creso Pharma for its unique IP, established global distribution footprint and robust product pipeline targeting distinct categories.

Mr Linton has extensive sector experience as a founder, CEO, Board member and adviser to a number of global cannabis companies.

Mr Linton's major achievements include his role as founder, Chairman and ex-CEO of Canopy Growth Corporation, during which time Canopy Growth Corporation's market capitalisation reached US\$15 Billion (and was approximately US\$11B upon his resignation in 2019). Canopy Growth has remained one of the largest listed cannabis companies on the NYSE since its IPO.

#### Creso Pharma received commitments totalling A\$8.992m

Subsequent to the reporting date, the Company raised A\$7.992 million (before costs) from institutional, professional and sophisticated investors through the issuance of 274,657,414 fully paid ordinary shares ("Shares") at an issue price of \$0.0291 per Share ("the Placement") (see ASX Announcement dated 7 October 2020 and the Appendix 2A dated 12 October 2020).

A further \$1 million has been committed from Creso Pharma's Non-Executive Chairman, Adam Blumenthal (which will be subject to shareholder approval).

The Company emerges from this Placement with a much stronger balance sheet and with significant financial flexibility to exercise many of its key short-term strategic initiatives.

#### TGA reclassification of CBD Update

In September 2020, the Therapeutic Goods Administration (TGA) recommended that cannabidiol (CBD) products be down scheduled from schedule 4 and classified as schedule 3 medicines in Australia.

This would allow Australian consumers to purchase CBD products over-the-counter (OTC) through pharmacies without the requirement of a prescription.

This development potentially unlocks a major opportunity for Creso's CBD and hemp products and the Company will look to progress a number of opportunities to capitalise on a market which is estimated to be valued at A\$200 Million and set to grow rapidly in the near term.

Currently, the Company's cannaQIX® 50 is being sold in Australia as a medicinal cannabis product under the 'LozaCan' brand via Creso Pharma's distribution partner 'Burleigh Heads Cannabis' (BHC).
