**Kopore Metals Limited** (“Kopore” or “Company”) is pleased to provide the following activities report that outlines progress achieved during the September 2020 Quarter.

#### Exploration

The Company confirms there was no substantive exploration activities in Botswana during the quarter. Botswana’s significant lock down protocols as a result of the COVID-19 pandemic continued during the September quarter and the Company’s decision in the March quarter to halt all exploration activities and instead focus on cost control remained in place.

The Covid-19 related state of emergency in Botswana has been extended to 29 March 2021 having been in place since early April 2020. During this time Kopore has spent time planning the next steps on its 3,597km<sup>2</sup> of exploration ground in the Kalahari Copper Belt and renewing licences with mandated shedding as required by law.

#### Corporate

The Company remained committed during the September quarter on its implemented cost cutting measures. During the period, the Company released its 2020 Annual Report, Corporate Governance Statement and Appendix 4G to ASX.

In accordance with ASX Listing Rule 5.3.5, payments to related parties or their associates during the quarter, comprised Managing Director salary, Non-executive Director fees and superannuation. These amounts included the Chairman’s fees, Managing Directors salary and Company Secretarial consulting fees.

#### Future

The Company is regularly assessing the re-commencement of exploration activities in Botswana as that country removes a number of COVID-19 related restrictions. Timing and nature of future exploration work in Botswana will be released to the market in due course
