

Resource Generation Limited

ACN 059 950 337

Quarterly Report for the three months ended 30 September 2020 (Quarter)

Resource Generation Limited (the “Company” or “Resgen”) is an emerging ASX and JSE-listed energy company, currently developing the Boikarabelo Coal Mine (“the mine”) in South Africa’s Waterberg coalfield. The Waterberg coalfield accounts for around 40% of the country’s currently known coal resources. The Coal Resources and Coal Reserves for the Boikarabelo Coal Mine, held through the Company’s operating subsidiary Ledjadja Coal, were updated in 2016 based upon a new mine plan and execution strategy. The Boikarabelo Coal Resources total 995Mt and the Coal Reserves total 267Mt applying the JORC Code 2012 (ASX Announcement 23 January 2017 - In accordance with Listing Rule 5.23.2 the Company confirms that it is not aware of any new information that would impact on the reported Coal Resources and Coal Reserves). Stage 1 of the mine development targets saleable coal production of 6 million tonnes per annum. Ledjadja Coal is a Black Economic Empowerment (BEE) subsidiary operating under South Africa’s Broad-based Black Economic Empowerment Act, Section 9(5): Codes of Good Practice.

Resgen’s primary shareholders are the Public Investment Corporation of South Africa (PIC), Noble Group and Altius Investment Holdings.

Project Funding

On 4 September 2020, the Company advised that Ledjadja Coal, the Borrower under the terms of the Mine Funding Package (ASX Announcement: 5 December 2019) had made significant progress with respect to satisfying the majority of the Conditions Precedent to Financial Close and had formally requested that the Lenders either:

- Defer a limited number of Conditions Precedent to a date post Financial Close due to the practical inability of satisfying the said Conditions Precedent before the end of September 2020; or
- Consider proposed viable alternative solutions with respect to those specific Conditions Precedent, which could be satisfied before Financial Close.

The Lenders Project Team responded to the formal requests detailed above and advised that they would not be approaching their respective Credit Committees until the following key Conditions Precedent are met:

- Execution of a binding Ramp-up Working Capital Facility Agreement;
- Execution of a binding and fully funded Mine Services Contract; and
- Execution of a domestic back to back Offtake Agreement with Noble Group to meet the Eskom BEE procurement conditions.

At that time and based on significant progress achieved in negotiations, Management was of the view that execution of both a binding Ramp-up Working Capital Facility Agreement and fully funded Mining Services Contract could be completed by the end of October 2020. Noble Group had also indicated that a domestic back to back Offtake Agreement could also be concluded within that timeframe.

On the reasonable assumption that the key Conditions Precedent could be met by the end of October 2020, Lenders were expected to be in a position to approach their respective Credit Committees during the month of November 2020. Management therefore approached Lenders based on the revised target timeline to seek a further extension of the Long Stop Date under the Common Terms Agreement (ASX Announcement: 10 September 2020).

In addition to agreement on the extension of the Long Stop Date, the Group then required (i) access to additional working capital funding to bridge the delay in achieving Financial Close; and (ii) deferral of the first repayment date under the Facility Agreement (**Facility Agreement**) executed with Noble Group dated 3 March 2014, as amended, from 30 September 2020 to at least 30 November 2020. Management instigated dialogue with Noble Group in this regard along with investigating other possible sources of funding.

Post quarter end on 22 October 2020, the Company advised that Noble Group was willing to extend the first repayment date under the Facility Agreement from 30 September 2020 to 28 February 2021, subject to completion of legal documentation. Noble Group however advised that it was unable to provide the Company with access to any additional working capital under the Facility Agreement.

In light of this development, the Company required time to develop an action plan to address the short -term funding requirement to cover the period through to Financial Close by the target at that time of 30 November 2020 and to cover the possibility of an uncontrollable slippage. This action plan involved reconfirming with all Lenders under the Mine Funding Package the status of formally agreeing to an extension of the Long Stop Date under the Common Terms Agreement. This request also requested confirmation that satisfaction of the key Conditions Precedent by the end of October would enable Lenders to seek their respective Credit Committee approvals by the end of November 2020.

Whilst seeking formal sign offs referred to above the Company was advised by the Industrial Development Corporation of South Africa Limited (IDC) (ASX Announcement: 28 October 2020) that after completing a due diligence investigation (for the purpose of the Long Stop Date extension) a view has been formed that the market conditions under which the Boikarabelo Coal Project would operate had deteriorated materially. Based on the findings, the IDC's Special Credit Committee resolved that IDC should not grant an extension of the Common Terms Agreement. Further, the IDC Special Credit Committee also decided to cancel all previously approved facilities under the Mine Funding Package.

As a result of these recent events, at the date of this Quarterly Activities Report, the Company is in discussion with Noble Group, being the secured lender under the Facility Agreement with Ledjadja Coal (Pty) Ltd dated 3 March 2014 (as amended), on possible alternatives.

The Company will keep the market informed in accordance with its continuous disclosure obligations.

Capital Structure and Cash Position

The Company's summarised capital structure at 30 September 2020 is as follows:

Issued fully paid ordinary shares:	581,380,338
Performance share rights:	3,000,000
Cash at bank:	\$1.41 million
Noble Facility – undrawn	\$US 0.0 million

Mining Tenements

The coal mining rights and exploration tenements held at the end of the quarter were as follows:

- MPT 169 MR (74%)
- PR678/2007 (74%)

The Company has no interest in farm-in or farm-out agreements.

The Mining Right Application for Waterberg #1 was lodged at the end of 2015 and the Company is awaiting the outcome of this process. Waterberg #1 encompasses the farm Koert Louw Zyn Pan (PR678/2007) and is adjacent to the Boikarabelo Coal Mine.
