SEPTEMBER 2020 QUARTERLY ACTIVITY REPORT

Activities during the quarter focussed on efforts to secure the additional funding necessary to recommence the project.

Makabingui mining

Junction Contract Mining management remain in Senegal whilst management attend to raise substantial funds to recommence activities which were scaled back initially due to COVID-19 restrictions. The Makabingui Gold Operation SA team remain ready to recommence activities upon the successful raising of funds.

Bassari Resources Ltd (“Bassari”) ASX suspension from trading

Bassari was suspended from trading by ASX on 1 April 2020 and remains suspended until the queries raised by ASX on the 2019 annual financial report can be rectified to the satisfaction of ASX.

Of the two matters raised by ASX, Bassari has resolved the negative equity matter of the Senegal subsidiary, Bassari Resources Senegal SARL which was raised initially by auditors in Senegal and reported as a qualification of Bassari’ financial report.

Directors are presently working with financiers to raise additional funding for Bassari and with the Coris loan administration team, to have the loan schedule of repayments deferred to re-commence after 31 December 2021.

About Bassari

Melbourne – based West African gold developer Bassari Resources Limited (ASX:BSR) has a strategic portfolio of exploration and exploitation permits focussed on the Birimian Gold Belt in Senegal. The permits cover an area of 312 km² with 60km of strike along the two adjoining permits. The permits are located within the Keneiba Inlier which is a +60M ounce gold region. Bassari’s vision is to discover and delineate gold resources which can be developed into profitable operations.

8.8	If Item 8.7 is less than 2 quarters, please provide answers to the following questions:	
1.	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer: Bassari group expects the current level of net operating cashflows to continue or reduce in the next quarter.</p>		
2.	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	

Answer:

Bassari group is continuing to engage with finance groups, one in Australia and a second in Europe, to raise the additional funds required for its ongoing operations, in addition to formally requesting an increase of loan funds and a 12 month deferral of loan repayment for the current debt facility. These discussions are ongoing with the senior loan facility management of Coris Bank International.

The group negotiated, but has not yet received, further debt funding of FCFA 1 billion (A\$2.5 million) from the existing project debt financier.

Any additional funding will depend on a number of variables, including but not limited to, the success or otherwise of the matters referred to above. Directors will keep all options open in terms of the nature of the capital raisings or further debt facilities.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

On the basis that A\$2.5 million will become available from the project lender and a successful outcome from one or both financiers with whom management are presently in discussion, directors believe that the group will have sufficient funding for ongoing development works and working capital. Also, finalising the deferral of loan repayments on the current debt facility will assist the group in meeting its business objectives.
