

Quarterly Activities Report

Operational cashflow

With the easing of COVID-19 cases in Singapore, the Group's operations improved, with receipts of S\$391,000 collected, an increase of 155% compared to previous quarter's receipt of S\$155,000.

In addition, the Company has received new orders totaling about S\$495,000 during this period, a sign of the continuing demand for health science related services even in the midst of the COVID-19 pandemic.

During this quarter, the Group received about S\$67,000 of government's employment support.

Europe operations

The completion of CE Mark registration on our Onco-PDO[®] cancer test in Europe has paved the way for the test to be commercially available to oncologists and patients across Europe, while at the same time seeking to list our Onco-PDO[®] test under the German Healthcare reimbursement system.

However, this has been slowed by the 2nd COVID-19 wave in Europe. The Company is currently working closely with our Europe colleagues and partners to prepare as much as possible so that the Europe roll-out can be fast tracked once the COVID-19 situation eases in Europe.

Financial reports

The Company is working with its auditors on resolving the issues raised by auditors with regards to its 31 December 2019 half year report and 30 June 2020 annual report.

Payments to related parties of the entity and their associates

A total of S\$112,000 has been paid to directors, of which S\$85,000 is for payment of directors' remuneration, while S\$27,000 is for payment of corporate services rendered by
