The results were impacted by one-off items. The table below sets out the underlying financial results for the half year ended 30 September 2020 which has been adjusted for these items.

Underlying results	Half year 30 September 2020 \$'000	Half year 31 March 2020 \$'000	Half year 30 September 2019 \$'000
Net operating income ³	53,928	65,510	59,544

EBITDA margin	20.0%	33.1%	27.7%
Underlying net profit (after tax)	3,229	12,729	8,627
Underlying earnings per share (basic) (cents)	1.33	5.24	3.56

"Underlying" measures of profit exclude one-off items of revenue and expenses in order to highlight the underlying financial performance across reporting periods. The Company incurred \$0.2 million restructuring the product and technology functions and \$0.25 million for retention payments committed by Board as part of the unsolicited M&A proposal in FY20. The following table reconciles underlying earnings measures to statutory results.

Half year 30 September 2020					Half year 31 March 2020			
\$'000	EBITDA	Profit before tax	Income tax	Profit after tax	EBITDA	Profit before tax	Income tax	Profit after tax
Statutory profit	10,313	3,634	(766)	2,868	21,735	14,432	(2,443)	11,989
One-off items	461	461	(100)	361	949	949	(209)	740
Underlying profit	10,774	4,095	(866)	3,229	22,684	15,381	(2,652)	12,729

The Group operated in a challenging market with the COVID pandemic impacting payment flows particularly in the Consumer segment following high volatility at the end of FY20. Payment flows in 1Q21 were particularly soft resulting in revenue being down 11.1% before a good recovery in 2Q21 with revenue up 16.6% on 1Q21. This decline in cross border spot volume over the period contributed to an overall decline in Net Operating Income (NOI) of 9.4%. Despite this fall, transaction growth was up 10.1% as OFX clients continued to use the service more, however the average value of these transactions was down 11.6% impacting NOI and EBITDA. NOI margins excluding International Payment Services (IPS) were down 4bps. Consumer and Corporate margins remained stable however a lower mix of Consumer deals in 1H21 resulted in a lower margin overall. Active clients decreased by 4.4% in the 12 months to 30 September 2020.

Underlying operating expenses were up 0.3% on the previous corresponding period. The company maintained a disciplined approach to expense management while investing in the growth of the Enterprise (IPS) and Online Seller segments. Bad and doubtful debts expense was in line with the prior comparative period and down 46.7% on 2H20 as the Company continues to focus on improving processes and technology to increase detection and prevention capabilities. Cost per registration was down 11.6% as a result of a 10.1% increase in registrations while delivering a 2.7% reduction in promotional expense.

Despite challenging market conditions we continue to see our investments in growth delivering. Corporate revenue grew 2.9% and our Online Sellers revenue grew by 16.4% with growth of 52.2% ex Asia. Our North American business also continued to grow with fee and trading income up 2.5% in the half including growth of 5.8% in the US. The pipeline of deals in the Enterprise segment continues to grow and we recently signed a new Enterprise strategic alliance with WiseTech Global to allow the company and its corporate clients to settle invoices requiring FX through our digital platform, which will be integrated with their CargoWise One operating system.

The Group has invested in technology to deliver a better client experience with changes to our website and mobile applications and the introduction of the Global Currency Account to corporate SME's.

³ Net operating income, a non-IFRS measure, is the combination of 'Fee and trading income' and 'Fee and commission expense' and 'Interest income'.

⁴ Earnings before interest expense, taxation, depreciation and amortisation (EBITDA) is a non-IFRS, unaudited measure

Note 2. Segment information

The operating segments presented below reflect how senior management and the Board of Directors (the chief operating decision makers) allocate resources to the segments and review their performance.

The chief operating decision makers examine the performance both from a product and geographic perspective and have identified five reportable segments.

The two products are international payment services and international payment solutions:

- International payment services are managed by geographic region (based on client location) and provide bank to bank currency transfers servicing businesses and consumers.
- International payment solutions are monitored globally and provide strategic partners with a package which includes: OFX technology platform; client service; compliance sophistication; banking relationships; and payments capabilities.

Segments are managed on an underlying basis. Segment EBITDA excludes \$461,000 of one-off items that are excluded from underlying results.

Segment fee & trading income consists of the foreign currency transaction margins and fees charged. It also includes the changes in exchange rates between when a client rate is agreed and a subsequent hedge transaction is entered into by the group. This difference is managed centrally and allocated to each region.

Presidents are located in each region. As part of these appointments, the chief operating decision makers have reviewed how each segment is managed and reassigned key customer relationships to the region responsible.

Note 5. Fair values of assets and liabilities

A financial instrument's categorisation within the valuation hierarchy is based on the lowest level input that is significant to the fair value measurement:

Level	Instruments	Valuation process
Level 1 – Traded in active markets and fair value is based on recent unadjusted quoted prices.	Cash and cash equivalents, amounts due from financial institutions, client liabilities, creditors and receivables.	These instruments are held at amortised cost. Fair values are considered to approximate to their carrying amounts as they are short term in nature.
Level 2 – Not actively traded and fair value is based on valuation techniques which maximise the use of observable market prices.	Over the counter derivatives.	Foreign currency forward contract valuations are based on observable spot exchange rates and the yield curves of the respective currencies.
Level 3 – Not actively traded and fair value is based on at least one input which is not observable in the market due to illiquidity or complexity.	None – the Group does not hold any of these instruments.	Not applicable.

All derivative financial instruments held by the Group at fair value are categorised within Level 2.

Note 6. Share capital

Share capital is classified as equity and measured based on the proceeds from issuing the shares less the directly attributable incremental costs, net of tax.

There are 243,872,167 fully paid ordinary shares (as at 31 March 2020: 242,957,636). Ordinary shares entitle the holder to vote and to receive dividends and the proceeds of the Company if it is liquidated in proportion to the number of shares held.

There are 4,860,490 (as at 31 March 2020: 5,775,021) restricted ordinary shares issued to key management personnel in connection with the Executive Share Loan Plan.

Note 7. Dividends paid or provided for

Dividends are recognised as a liability and a reduction to retained earnings when declared. All dividends paid in the period were 0% franked (2019: 100%).

	Half year 30 September 2020 \$'000	Half year 30 September 2019 \$'000
Final dividend from the preceding year \$0.0235 (2019: \$0.0328) per share	(5,798)	(8,219)
Total dividends recognised and paid	(5,798)	(8,219)

Note 7. Dividends paid or provided for (continued)

On 10 November 2020, the Board determined a dividend of \$0.008 per share (\$2,015,000) as the interim dividend for 2021. This dividend was determined after 30 September 2020 and so is not reflected in this financial report. As the Company is a holding company with no trading profits, this dividend will be funded through the profits of the subsidiaries. The dividend will be 0% franked.

Ex-dividend date	25 November 2020
Record date	26 November 2020
Payment date	11 December 2020

	2020 \$'000	2019 \$'000
Franked dividends		
Franking credits available for subsequent financial years based on a tax rate of 30% (2019: 30%)	9	2,692

The above amounts represent the balance of the franking account as at the end of the financial period, adjusted for the franking credits that will arise from paying the current tax liability, but before taking account of the interim declared dividend for financial year 2021.

Note 8. Events occurring after balance sheet date

Other than the dividends presented in Note 7, there were no material post balance sheet events occurring after the reporting date requiring disclosure in these financial statements.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of OFX Group Limited, would be in the same terms if given to the Directors as at the time of this Auditor's Review Report.

Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including:

- giving a true and fair view of the Group's financial position as at 30 September 2020 and its performance for the Half-Year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
