

October 2020 Monthly traffic update and November 2020 preview

-68.6% Auckland Airport total passenger volumes decreased by 68.6% in October 2020 versus last year. International passengers (excl. Transits) were down 97.2%, transit passengers were down 92.1% and domestic passengers were down by 34.9%.

Key Points:

- The decline in total passengers for October 2020 reflects the impact of the travel restrictions imposed by the New Zealand Government in response to COVID-19. The closure of the New Zealand border from 20 March 2020 to all but New Zealand citizens and permanent residents has had a significant impact on international services.
- Domestic passenger numbers in October 2020 were 47.9% up on September 2020 reflecting the easing of physical distancing requirements on domestic air travel in September and Auckland joining the rest of New Zealand at Alert Level 1 from 8 October 2020.
- Air New Zealand operated almost 90% of its pre-COVID-19 domestic capacity during the October school holiday period.
